

CHILD'S TONGUE BECOMES COATED IF CONSTIPATED

WHEN CROSS, FEVERISH AND SICK GIVE 'CALIFORNIA SYRUP OF FIGS'

Children love this "fruit laxative," and nothing else reaches the tender stomach, liver and bowels so nicely. A child simply will not stop playing to empty the bowels, and the result is they become "stuffed." Lightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sleep feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs" and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

PHYSICIANS ADVANCE FEES

Borough Doctors Agree to Increase Rates, Beginning February 1.

Following a conference of local physicians, it was announced Tuesday that there is to be a general advance in the amount of fees for their professional services. Visits to patients in Danielson are to be charged for at the rate of \$1.50, instead of at the present rate of \$1. The minimum office fee under the new schedule will be 75 cents, instead of 50 cents, at night and during office hours, outside calls are to be at double rates. There also is to be an advance in the charges for obstetrical work.

It was given out that the advances are due to the increased costs that physicians are encountering in their professional field as well as to the general high costs in all lines, applying to them as to others.

The rates agreed upon are to become effective February 1 and will then be on a level with what is being charged by physicians in Putnam and many other places in Connecticut.

Appointment for William H. Putnam. Mayor Hagarty of Hartford has appointed William H. Putnam until a few years ago of Danielson, a citizen member of the board of finance of the capitol city, to fill out the unexpired term of Morgan G. Bulkeley, Jr., who resigned because of the pressure of his duties at the Aetna Fire Insurance company.

Mr. Putnam is a member of the brokerage firm of Richter and company, Hartford, with which he has been connected for 11 years. He became a member of the firm four years ago, specializing in the bank department. His knowledge of finance well qualifies him for a place on the board to which he has been appointed. Mr. Putnam will have over two years to serve, as the vacancy he fills was for a term that would extend over that period.

Mr. Putnam will meet with the finance board tomorrow for the first time. The meeting will work on the budgets of the various departments for the new year.

The task that confronts the board this year in working out budget is additionally complicated because of the increased demands of several departments of the city and the uncertainty hovering over the fate of bills before the general assembly. One of the bills would divert from the city over \$200,000 in the excess corporation tax, and other bills would affect the amount the city must contribute to state and county taxes.

PROBABLY the poorest place to learn the folly of inferior tire equipment is ankle-deep snow. Numbed fingers, difficult repairs, annoying delays—these pile discomfort upon disappointment. How much wiser, how much more satisfactory, to have used Goodyear Tires in the first place! Tires that keep you in the car, and out of trouble.

The proper traveling companion for a Goodyear Tire is a Goodyear Tube. A tube built to hold air, and keep on holding it. A tube that won't leak, seep or creep—that makes the casing deliver its full store of service.

All Goodyear Service Station Dealers (there's probably one in your neighborhood) have Goodyear Tires and Tubes. All are trained and eager to see that you get out of them the final mile we have built into them. All are interested in your return from your tire investment—and keep interested after the purchase.

STAFFORD SPRINGS

School Committee to Consider Petition to Have Orcuttville School Moved Nearer Village—E. H. Denham Seriously Ill.

The town school committee held a meeting at the library Monday evening, all members of the committee excepting Mr. Glazier, who has been ill for several months, being present.

A petition signed by several residents of Orcuttville was presented requesting that the Orcuttville schoolhouse be moved nearer the village. The schoolhouse is about a mile above the village and it would be much more convenient for the pupils if the building were moved. It is doubtful however if it would be wise to attempt to move the old building. It is in bad condition and if a schoolhouse is to be located in the village, many think that a new building should be erected. The matter was referred to the building committee, who will meet with the selectmen a little later and decide upon which plan, if either, will be adopted.

Seriously Ill. E. H. Denham, formerly in the clothing business with John M. Leach in Stafford Springs, is seriously ill at his home in Westboro, Mass., the result of a paralytic shock.
