GREENEVILLE
 Annual Meeting and Election of Offi- cers of the Federated Church—Grass Fire on Prospect Street—Boys Break Windows—Notes.

At the annual meeting of the Fed- erated church held in the vestry of the church Tuesday evening at 7.30 o'clock with Rev. A. W. Burdon in the chair, the report of the clerk, Willis Hill, giving full account of the work dur- ing the year, was accepted and ap- proved as read. The report of the treasurer, Mrs. H. I. Peckham, was given, showing the church in a pros- perous condition, with a substantial balance at the close of the year.

The following officers were elected for the ensuing year: Trustees, H. I. Peckham, Amos Baldwin, Stirling Nelson, Mrs. Mary Matthews and Miss Anna Fletcher, church clerk, W. P. Hill; secretary, Mrs. H. I. Peckham; missionary treasurer, Mrs. Elmer Mulkin; Sunday school superintendent, W. P. Hill; pupil committee, Mrs. Herbert Baldwin, Mrs. W. H. Gordon and Mrs. Elmer Mulkin; finance com- mittee, William A. Lund, Albert Hay- den and William Lund, Mrs. W. P. Hill and Miss Estelle Sevin; commit- tees, W. P. Hill, George Cass, Mr. Hay- den and Henry Sebastian.

After the routine of business, re- freshments were served by the ladies of the church.

Grass Fire on Prospect Street.
 About 11 o'clock Wednesday morn- ing a telephone call was sent into the Central station for the pumper to put out a grass fire on Prospect street in the rear of the residence of Frank R. Hill, a young boy was burning an old Christmas tree in the yard and the grass caught, getting beyond the con- trol of the lad, and threatened to de- stroy the barn. The fire was extin- guished by the firemen at the resi- dence of Charles H. Standish. The men from the Central station extin- guished the blaze without damage. A high wind was blowing at the time and the fire would have destroyed the barn only for the work of the firemen. At 12.30 there was another call for a brush fire on Bowdoin street, in the vicinity of St. Mary's cemetery.

Ladies' Aid Meets.
 The Ladies' Aid Society of the Greenville Congregational church met at the home of Mrs. John A. Scott of Prospect street Wednesday evening. There were 23 present. The regular routine of business was transacted. The committee reported that a number of flowers and plants have been sent to the sick and shut-ins during the past month. The committee in charge of the repairs to the kitchenette in the church reported good progress. Following the business session, a social evening was enjoyed at which time refreshments were served by the hostess.

Acts of Vandalism.
 A crowd of small boys in the vicinity of the corner of North Main street and Boswell avenue have been committing acts of vandalism, such as breaking windows and breaking up signs. The house which was gutted by fire a short while ago seems to be the principal target at which the lads aim, having broken every window in the place and then, not being satisfied, committed other depredations.

Another Grass Fire.
 The autopumper was called out about 10.20 for a grass fire in the rear of a dwelling on North Main street near Second street. The fire was small, resulting from a spark from an engine.

Personals.
 Prentice Alexander of Quaker Hill was a caller in the village Wednesday evening.

Clyde Getchell of New London was the guest of friends on North Main street Wednesday evening.

Arthur Campbell, who has been working for the past few months in Bridgeport, is spending a few days at his home on Prospect street.

Final Lenten Sermon.
 The last of the Lenten united ser- vices of Christ and Trinity churches will be held this evening in Christ church at 7.45, when the sermon will be preached by Rev. John D. Hull. Mr. Hull has recently come from Canada to take charge of St. Paul's mission, Plainfield.

Receiver's Eighth Semi-Annual Report
 Every Effort Has Been Made to Convert Thames Loan and Trust Assets into Cash—Thought Best to Delay Sale of Railroad Stocks and Bonds.

The eighth semi-annual report of Ames A. Browning, receiver of the Thames Loan and Trust company, was filed Wednesday with the clerk of the superior court. The report covers the period from Oct. 1, 1916, to March 31, 1917.

Since the date of the last semi-annual report no person has been added to the list of creditors entitled to share in the assets. No claims approved and allowed, have been reduced since the last report. Under reasons for delay in converting assets into cash, the report says:

Every effort has been made since my last report to convert assets into cash as rapidly as possible, consistent with obtaining any reasonable value there- for. In the case of numerous claims, as stated in my previous report, the only way to realize any proper amount is to take payment in installments. In legal proceedings would result in total failure to realize.

Regarding such securities as are still held, for example, bonds and stock of the New Haven road, stock of the St. Louis, Iron Mountain and Southern Railway company and small holdings in the United States Foundry and the United States Finish- ing company, it has been thought best,

NEW AUTO DEPT.
BILL TO HIT SNAG
 Will Have Hard Sliding When It Comes Up for Action.

The bill that would establish a sepa- rate automobile department under a single headed commission which was reported favorably in a senate com- mittee last week, will have extremely hard sliding when it comes up on the calendar for action, despite rumors to the contrary. An amendment provides that the automobile department be retained in the secretary of state's office where it has always been and the amendment will receive a support of- ficient, it is expected, to be carried, and thus knock out the commission's bill.

The secretary of state feels that this should be done and the chief cham- pion for an auto commission at \$4,000 comes from automobile clubs and job hunters with an eye to the fat pos- sibilities. Already the assembly has acted favorably on far too many matters in- volving increased state expenditures, it is argued, and caution is urged in such cases as the separate auto de- partment bill.

The bill as proposed established a new commission at a salary of \$4,000 a year and a corps of deputies and clerks similar to those now at work on the automobile matters under the secretary of state. In the words of the bill, the bill is intended to do the work in the future. The only advantages to be derived from the bill, its opponents say, is that it will relieve the secretary of state from the hearing of charges against automobilists, but even this is marred by the provision in the bill that the commissioner need not be a law- yer of mature experience, although he may be. As the determining of the cases brought before him in most cases involve legal points, he should at least have something to do with them. According to Secretary of State Perry the hearings do not materially in- terfere with the conduct of his office, especially under the plan he inaugurated of holding them in different sections of the state from time to time.

 Wallace Mather of Groton, deckhand on the ferryboat Governor Winthrop, experienced a serious accident about 9.30 Wednesday morning as he was making her landing on the west- ern side of the river. When the boat was about to slip Mather started to jump to the landing to secure the chain by which the craft is held in position and in so doing slipped and fell. One leg went between the boat and the float, and before he could get up he was caught and crushed by the weight of the ferry.

A fire which started early Wednes- day afternoon in the old Prentice lot on Hunter's avenue, swept through the woods, across the fields into St. Jo- seph's cemetery, burning the grass in the cemetery and threatening to de- stroy the buildings in the vicinity of Russell road. At 3.20 an alarm was rung in front box 261, calling out the fire department. The grass blaze was put out which threatened the build- ings. The fire was burning in the lot last night, but no serious damage re- sulted. The fire started from a grass fire which a woman on Hunter's avenue started.
