A Word About Comfort

"SOCONY!" What you get out of your car depends to a large extent upon what you put into it. Just as a matter affecting your own comfort it pays to get only the best gasoline -- SOCONY.

There is no gasoline more highly refined or more powerful than SOCONY. And it is the only gasoline which is always the same, wherever you buy it. That means a welcome freedom from faulty carburetion.

Look for the Red, White and Blue SOCONY Sign. It insures you more miles to the gallon and more power to the mile.

Stones and Spikes on Track. Saturday morning the electric car which leaves Plainfield at 8:30 o'clock for Central Village was unable to proceed further than Mathewson's Crossing until the pilot and motorman cleared the rails of stones, spikes and bolts to a distance of about 300 feet. It is believed that a number of children are guilty of placing the stones, spikes and bolts on the track. After clearing the rails of the obstructions, the car proceeded to Central Village and on the return trip the car was forced to stop at the same crossing. The stones, spikes and the bolts had been replaced along the rails. The matter was reported here.

Pupils Urged to Patriotism. Principal John S. Chapman addressed the high school students Tuesday concerning the observance of Memorial Day, pointing out the fact that the Civil War veterans are now succumbing to age, and in a few years the men who fought in the great war of '61-'65 will be no more. As a fitting honor for the few who remain the younger generation should observe the day with greater fervor and patriotism than before. The way that seems most fitting is to join in line with the veterans for the Civil and Spanish wars and help decorate the graves. In this village the veterans are to decorate the graves of former comrades. Dinner will be served in the Town hall on Tuesday evening. George H. Chandler of Rocky Hill is to be the speaker. The final examinations at Plainfield High school will last from May 7 to Wednesday, May 13. The senior class exercises are to be held during the week of June 21.

ILLICIT SALE OF VODKA INCREASING IN RUSSIA Wave of Intoxication is Threatening the Welfare of the Country.

Petrograd, May 29, 1:00 p. m. via London, 8:32 a. m.—The increase in the illicit sale of vodka and the general wave of intoxication which threatens to spread throughout the country, provoking disorders and endangering internal peace of the country, is the subject of a stirring appeal to citizens issued by the executive committee of the council of workmen and soldiers' delegates. We notice an increase of drunkenness in Petrograd and other parts of Russia," reads the appeal. "It is noticeable in the streets, railways, factories and barracks. Vodka readily is found in the village of the interior as well as at the front. An examination shows that many deplorable events in the past few weeks were due to drunkenness. Formerly the emperor encouraged drunkenness since it helped to support the imperial throne. Now the Black Hundred is trying to intoxicate the country because it wants to create disorders, cause civil war and the return of the monarchy. Massacres will follow the appearance of local gangs who will fight with each other and then the servants of the old regime will emerge from their hiding places and there will be a repetition of what happened in 1905. The work of the revolution will be drowned in blood by the enemies of the people. No one has the right to buy vodka or to drink it. Let it disappear forever, with the old regime."

SENTIMENT FOR REVOLUTION IN STATE OF WURTEMBERG Split in the Social Democratic Party Over That Issue. Washington, May 29.—Sentiment for revolution in the German state of Wurtemberg is reflected in news stories published in the Frankfort Zeitung. An official despatch today quoted the paper as stating that 25 that a minority of the social democratic party in the state had bolted because the majority refused to advocate a revolution. The minority joined the independent democrats.

WOMEN TALKED OF AS CONDUCTORS IN BOSTON To Fill Places of Men Who May Be Called to the Colors. Boston, May 29.—The proposed amendment to the constitution of the city of Boston in the city to fill the places of men who may be called to the colors was opposed in resolutions announced by the Boston Street Car-men's Union today. "Organized labor," the resolutions said, "oppose women's appointment to positions that their labor may not be exploited by the captains of industry, who upon their death go to the hospitals, hide their real motives and purposes, which seek to deny to those at present engaged in this occupation, the right to a collective effort to petition for a little more in wages that will enable them to maintain the American standard of living. This kind of patriotism is the kind for the overthrow of which our nation is today taking up arms. The pinning of women on street cars as motormen and conductors will never win a battle, for there are men enough in the country to keep the machinery of civilization moving and to conduct all necessary warlike enterprises, forcing our women into objectionable employment. The executive board of the union was instructed by the membership to "fight to the limit" any attempt to give women such positions.
