Dependability The test of a motor is its dependability—the sureness with which it takes you where you want to go. The best of motors can't be dependable if it is fed on inert, nondescript gasoline. SOCONY is so much better than "just gas" that it pays to make sure that only SOCONY is put into your tank. Look for the So-CO-ny Sign of service. Wherever you meet it, it stands for gasoline that is pure, powerful and uniform—the more miles-per-gallon kind. Standard Oil Co. of New York
