Work Assuming Large Proportions

Many Norwich Women Knitting for Sailors in Uncle Sam's Service—Local Branch Has Expended Nearly Five Hundred Dollars for Wool.

The work being done by the women of Norwich under the auspices of the National League for Woman's Service, in the line of the navy knitting, is assuming large proportions. Already the local branch has expended nearly five hundred dollars for wool in a large number of pounds of which is given out weekly. The work is of the utmost importance and a gratifying interest and zeal is displayed by the Norwich women. Twenty-one sets have been sent to the Navy League headquarters in the district and twenty additional sets have been sent to the submarine base at the Navy Yard. Eight sets have been furnished to the United States ship Lenta and more are to be provided on receipt of application.

Special interest to Norwich, since it is on this ship, formerly a yacht, now converted into a submarine, that the government most strenuous and loving service.

General Pershing has sent forth a call for 1,000,000 of these knitted sets and in the very near future the army knitting will be added to the navy knitting in the Norwich work.

RECOVER GOODS STOLEN FROM CHELSEA PIER Police Made Raid on House in New London.

Detective Hammond of the New London police force and Special Officer Hickey of the Central Vermont railway, made a raid on the home of Windlelaw Korchny, 687 Main street, New London, Thursday noon and recovered 400 pounds of sugar, 200 pounds of coffee and two barrels of bottled Schlitz beer, which were stolen from the Chelsea line warehouse by the use of a saw, and carried off Sunday morning. Korchny was put under arrest charged with the robbery.

The robbery was reported to police headquarters Sunday morning and the work of the New London police and recovering the loot was assigned to the officers, with Detective Hammond in charge of the investigation.

Entrance was made into the warehouse by breaking a rear window, but outside of this there was not a clue for the detectives to follow. As it was apparently impossible for the robbers to have taken the stuff away by the use of a saw, it was having been seen, the reasonable supposition was that they had utilized a boat of some sort to carry their plunder away. Upon this belief the detectives based their investigation, and a rigid surveillance of the waterfront followed, with the result of a pious territory confined to the waterfront section.

When the officers searched the Korchny house they found that the goods had been distributed through several routes, and that which had been taken from the warehouse in burlap bags, had been transferred to pillow slips, as was also the coffee.

Agent P. C. Ward of the Chelsea coast station, when called to the police station, said that he could identify the various articles, and estimated the value of the goods at \$2000. The coffee at about the same value and the beer he thought was in the neighborhood of \$100.

Korchny will be arraigned in the police court Friday morning on the charge of breaking and entering. The other persons who were arrested have not been apprehended, but it is thought that their arrest is only a matter of a few days. The warehouse is near the shore of Winthrop cove, making it an easy matter to take a boat to the shore and unload them without attracting attention.

Late Thursday afternoon Detective Hammond took William Coman into custody in connection with the case.

DROWNED WHILE AT WORK ON BRIDGE Salvatore De Angelo Lost His Footing and Fell into Thames.

While at work on the new Thames bridge, late Wednesday afternoon, Salvatore De Angelo, of 103 Cedar avenue, New London, lost his footing and fell into the river and drowned.

De Angelo was about 40 years of age and had been employed on the bridge for some time. He was a native of Italy and had been in the city for some time.

His body was recovered from the river and was taken to the morgue. The cause of the accident is being investigated.

STATE AUTO RECEIPTS BIGGER THAN EVER Total Beats Last Year's Figures by \$972,632.

Figures given out at the state automobile commissioner's office show that receipts coming into the department have increased during the past year \$72,643.24 over those of the previous year. The dates on which the figures are computed are Oct. 1 and August 14.

The receipts for this year are \$1,037,139.84, while those for the year closed are \$964,496.60. Figures have also been prepared at the department showing the number of pleasure cars, commercial cars, motorcycles, side-cars and public service cars have been registered and have received markers since Jan. 1 of this year and August 14.

The number of pleasure cars is ahead of all the others by a large margin, 52,392 being registered. Commercial cars are second in quantity, 10,517. Next come motorcycles, 4,410. Retail service cars number 1,741 and side-cars 1,144.

THIS MEDICINE

WOMEN VALUE Positively Relieves the Suffering. More Convincing Proof.

When Lydia E. Pinkham's Vegetable Compound was first introduced its curative powers were doubted and had to be proved. But the proof came, and gradually the use of it spread over the whole country. Now that hundreds of thousands of women have experienced the most beneficial effects from its use its value has become generally recognized and it is now the standard medicine for women's ills.

The following letter is only one of the thousands of our files.

Denison, Texas.—"I cannot feel that I have done my duty until I tell what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from female troubles so I could hardly drag around and do my work. I was very nervous, and had dizzy spells, heat flashes, and headaches until life was a burden. My husband brought me a bottle of Lydia E. Pinkham's Vegetable Compound and I soon began to improve. I continued its use for me and my free from all pains and aches that made life a burden. You may use this letter in any way you like for I want the world to know what a great blessing Lydia E. Pinkham's Vegetable Compound is."

COMMUNITY CANNING CLUB. Put Up Total of 177 Jars in Two Days' Time.

The Community Canning Club is working harder than ever this week. In the first three weeks they averaged 50 jars a day. Last week they put up 90 jars and on Wednesday of this week 93 jars. Everything has ripened so much better this year on account of the unusually cold late spring that the usual July products are only coming in freely. This makes a lot of business near the end of the season. The intense heat the first of the month has been so hot that everything is now being stored away at the club rooms. On the other hand it dried up the produce so that every one reports them about as scarce as hen's teeth. Luckily, they are not an independent crop which are not in the market until the late of the season.
