GOES TO RUSSIA

Rev. M. McLean Goldie Will Take Up Y. M. C. A. Work Across the Ocean. Rev. M. McLean Goldie, a former rector of Grace Episcopal church, Yantic, will soon leave for Russia where he will take up Y. M. C. A. work. The service news item published at Fort Terry, N. Y., has the following paragraph: Mr. Goldie's friends were on hand last Wednesday afternoon to bid him goodbye and good luck on his trip to Russia. It is certain that everyone felt that they were losing a good friend for he surely had a way about him that won the good fellowship of all and his leaving the work here is sincerely regretted.

The work in Russia that he is about to undertake is the most hazardous of all the Y. M. C. A. fields, and will take him into untold hardships on the eastern front with the Russian armies where there are practically no comforts or conveniences. Even the actual necessities are very scarce as they were advised to take quantities of canned goods, chocolate, etc., with them. It is doubtful whether they could have found a better man for the work than Mr. Goldie whose wide experience as a missionary in the Caucasus, northwest India, and Australia has endeared him for the work of this kind, and the hearty good wishes of the whole post for his success go with him.

Deutschland Damage Suits Withdrawn

Five Asking Aggregate Damages of \$185,000 Have Been Settled and Are Dropped From Superior Court Docket—Actions Were the Result of the Sinking of Tug T. A. Scott, Jr., Last November.

Five suits against the German Navigation company, Limited, Bremen, Germany, claiming aggregate damages of \$185,000, were withdrawn from the superior court this city on Tuesday. The damage actions were the result of the Deutschland cargo steamer in Long Island sound on Nov. 17, 1914, when the undersea merchantman, since converted into a German U-boat, accidentally rammed and sank the tug T. A. Scott, Jr., which was towing it out to sea. The tug was split in two and the crew, numbering five men, perished. The five cases and the amounts claimed in each case are as follows: C. Hadial Hull, admr. estate of Edward O. Jackson, New London, \$35,000; C. Hadial Hull, admr. estate John H. Gurney, New London, \$50,000; C. Hadial Hull, admr. estate Eugene Duzant, New London, \$10,000; John C. Davison, admr. estate, New London, \$20,000; Charles S. Amador, admr. estate of William Caton, New London, \$70,000. Captain Frederick Hirsch, one of the German officials connected with the Eastern Forwarding company, with headquarters in New London, was in charge of the tug when she was rammed. He was the only survivor. Those on board the tug, the entire crew having perished in the crash, Hirsch had been in each case as follows: He wished to see the Deutschland get under way for her return trip to Germany.

WHY TELEPHONE OFFICE MOVE WAS MADE

A Step For More Economical Direct and Efficient Management. The rearrangement of our territory into two divisions, comprising the five telephone districts in our state and the assignment to new duties of many of the company's force in the field, which became operative July 2nd, was a step taken for the more economical, direct and efficient management of the company's affairs in the commercial traffic plant department. It is the August issue of The Telephone Bulletin.

The plan was a reorganization plan adopted after long and thoughtful consideration and is in accord with the most approved systems of organization in force in other telephone companies similarly situated in respect to territory covered. In a general way the assignment to new duties of some of our force was made solely to bring about economy in the way of doing business organization, by placing these men in positions for which each one is especially well adapted and in which each man will undoubtedly render to the company the fullest measure of his specialized ability. To the men involved in the change, the recent organization bulletins, an excellent opportunity has been presented to display to the public the company and that each will avail himself of this opportunity and make the most of it, no one will doubt.

As is now generally understood throughout the field the changes were made in the way of promotions or demotions for any of the men concerned except that the added responsibilities imposed on some of our force may be regarded as promotions to positions of greater trust and of importance in the company's affairs.

On the whole the new organization plan was designed and carried out in the modern business principle in mind of placing each of the employees involved in a position where he will prove up to his full worth to himself and to the company.

Under the new organization in the field the state is divided into two divisions, Western and Eastern, with Mr. W. W. Knight, former district manager of the New Haven, New Haven and Bridgeport districts, appointed division commercial superintendent of the western division.

SHAY PLANT IS STILL DOING BUSINESS.

No Letup Shown Since Health Officer Ordered It Closed. Business at the C. M. Shay company fertilizer plant shows no letup since the order of the health officer to close the place.

One carload of stuff was shipped from the station Monday to Worcester, and while no material is coming by way of the New Haven road, plenty of it is being brought by auto-truck. County Health Officer Arthur M. Brown said that he would inspect the plant if it was not closed immediately he should take the case to the superior court and secure an injunction.

In that event it is thought that a hearing will be asked for any attempt to have the plant reopened. By the time all this has been gone through, with summer well advanced, no one who wishes to enjoy out of doors are despondent.

APPEAL TO D. A. R.

State Regent Urges Members to Cooperate in Obtaining Registration. In a letter recently sent out to the members of the Connecticut Daughters of the American Revolution by their state regent, Mrs. John Ludlow Buel, Litchfield, they are urged to cooperate in the registration of the woman's committee, council of national defense Connecticut division, of which organization Mrs. Buel is first vice president.

Mrs. Buel also urges the women to carry home all bundles and regards a bundle in the hand as essential to Red Cross action on the breast. She says that it is only forethought on the part of the women who are asked to cut deliveries to one day to any one person.

There are 50 organizations in the state D. A. R. association and each one is urged to do its utmost in registering individually and in helping register other women. The association already has had a census taken of its own women, but this is simply for its own use. The association of collegiate alumnae has charge of the registering of the women of the state for the council of defense.

NEEDS SEED INFORMATION.

Committee on Stocks of Department of Agriculture Asks Farmers About Various Products. The fact that in some sections there is a shortage of good seed, while in others there is a surplus, makes it imperative for the committee on seeds of the United States department of agriculture to help in the distribution of these surpluses. The committee wishes, therefore, to locate all available stocks of good seed of agricultural crops, especially wheat, oats, rye, crimson clover (in the hull or hulled) and hairy vetch. The committee will be glad if anyone, farmer or dealer will send information in regard to the quantity and price of the stock of above sorts which he can offer for sale. It should include, in each case, the name of the variety (especially in the case of grain crops), condition of the seed as to purity and germination and the price. The committee will then undertake to get such information into the hands of those who want it.

The committee hopes that this request will receive wide circulation and an immediate response. It is necessary to get seed in the hands of planters for fall use. Address committee on seed stocks, department of agriculture, Washington, D. C.

By Thieves Caught. A. B. Collins' blacksmith shop in New London was broken into last week and a quantity of wood screws, wrenches and an emery grinding machine were stolen. ASKS \$2500 DAMAGES

Sarah C. Thomas Files Action for Recovery on a Loan. Sarah C. Thomas of Lebanon has filed a suit against John E. Thomas of Lebanon for recovery on a loan of \$2000. The money is due and unpaid, she claims, and damages of \$2500 are claimed. The case was filed Tuesday with the clerk of the superior court in this city.

Two Weddings at Pastor's Residence. Rev. Charles R. McNally performed two marriages at his residence, 600 Beach street, in New London, Tuesday, the first couple being Joseph Thomas Fallon and Mary Veronica Austin and the second, Mrs. J. H. Good, Mrs. J. Henry Selden, Mrs. Willis Austin and Mrs. Abner B. Hill. These and other ladies will solicit money to ready the actual necessities in the line of food for our French army. It is guaranteed that absolutely no one receives a cent of commission and that no portion of any donation is reserved for the expenses of administration. Every penny will go into foodstuffs, bought under careful supervision and shipped direct to the French government.

Do you know that when this country was fighting in the trenches of World War ago France contributed \$700,000,000, asked one of the local workers Tuesday. Think what the value of that would mean put into today's currency. We have the money, we have the food here; we are not giving and we need it. France needs our gifts of food, the kind necessary to life and bone and sinew maintenance. Let us open our pockets and let the gift worthy of our admiration for the nation whose courage and endurance passes all words.

Don't Want Walk Extended.

The proposal to extend the boardwalk to Ocean Beach from Bentley avenue to Elm avenue, was watered down by the city of New London for the Tuesday meeting of the boardwalk committee. For the active opposition by the property owners of the coast section here, the water was one of the dominating features brought out at the hearing before the committee on streets and sidewalks late Monday afternoon.

Frustrated Robbery.

An attempt to rob two residences in Ocean avenue, New London, late Monday evening was prevented by the quick action of Paul McManis, a watchman, who was called to the scene by neighbors. A woman who was looking out of her window saw the men entering the houses and called up two or three places near by where she found one of the men. He was shot and immediately, and was closely followed by his associate.

Recovered Handbag.

P. J. Banning of the submarine base, who lives in a boarding house on Golden street, Tuesday had a handbag and a suit of clothes stolen from his room late Monday night. Detective Hammond was called to the scene in a pawnshop on Bank street, and returned the handbag and the offender are still among the missing.

The four suspicious cases of scarlet fever in Harrison and Winthrop streets, New London, have developed into positive cases. Inspector Frank G. Gannon of the health department is making an inspection of all the houses and occupants in Harrison and Winthrop streets as far as Crystal avenue.

Officers Promoted.

Sergeant J. M. Clark and Sergeant H. W. Sackness, who are stationed at the quartermaster's office, have been promoted to the rank of first sergeants. They have been on the island for years and have a large circle of friends who are glad to hear of their advancement.
