PROPERTY WAS INSURED

About \$10,500 Carried on Shield House, Damaged by Fire Wednesday Morning—Good Work by Firemen.

Engine Company, No. 1, made a fine showing at the fire Wednesday morning which destroyed the shed and water-tower and badly damaged the house on Windham road owned by R. R. Sheldon of Boston. The men were handicapped by a shortage of hose, as all of the hose carried on the truck, 1200 feet, was needed to bring the water to the fire, since the house was quite a ways over the city line and the last hydrant in the city was about 1,000 feet from the fire. The men showed the right spirit, as they worked in the house when the smoke was so dense that several of them were nearly overcome. The engine of the truck when it was pumping could be heard at the top of Johnson's Hill, but a mile away.

The party of young men who rescued the woman first noticed the reflection of the blaze when at the top of Johnson's Hill. The insurance on the property totals \$10,500 and is divided as follows: \$148 and \$1.98 on the shed and water tower, \$7,000 on the house, and \$1,500 on the furniture.

Steeple Damage \$900.

The damage to the Baptist church steeple caused by the fire on Windham road was appraised at \$900 by an insurance adjuster. This is fifty dollars more than the last time that it was struck.

Thefts From Office.

The police are investigating the theft of several articles from the office of P. S. Hill on Main street, Wednesday morning. He discovered that his notary public seal was missing and Wednesday he found a check, a check protector and a steel box in his safe were gone.

Harry Beebe of the Congregational church. The wedding took place at noon and was witnessed by relatives and intimate friends. After the ceremony a luncheon was served. Mr. and Mrs. Lebaron left by automobile for Maine. Upon their return they will reside at Arlington, Mass.

Arrested for Non-support. William Wheeler was arrested Wednesday night by police at the residence of Officer MacArthur on a charge of non-support. This is the second time he has been in the court in the last month and both of the times were the result of family trouble. The first time he was arrested for assaulting his mother-in-law, and was found guilty and paid his fine. He will appear before Thursday's session of the court.

Will Go to France Soon. Henry Gilbert, 19, son of Mr. and Mrs. Frank H. Gilbert, Broad street, is one of 38 men selected from the Third company, Rhode Island Coast Artillery, for early service in France and are fast becoming acquainted with the multitude of duties that devolve upon them as soldiers.

The general health of the company is at a very high standard and there has been vast improvement in the health of some young men who have come from "insane" work to the open country. If they are now leading, insulating to Defenders of the Country. The printed statement that "killingly" may get no license because so many men have gone with the soldiers' doesn't read well to the relatives and friends of men who have given up home and almost everything dear to them to fight for their country, and some of the soldiers who have read the statement have said things that wouldn't look well in print.

The iron of the whole proposition, though, lies in the fact that the men referred to, as supposedly supporters of a license policy in Killingly, have enlisted in the service that comes under the rule prohibiting the sale of intoxicating liquors to men in the uniform of the United States army. These men, therefore, who have voluntarily placed themselves under real prohibitory rules are gladly wished away with that they won't help Killingly to a license vote.

DANIELSON AND PUTNAM NEWS

DANIELSON

Mrs. Angie Warren Perkins to Address D. A. R.—Two on Roll of Honor Among Telephone Employees—Big Corps at Jail Farm—Supplies for Home Guard Camp Arriving—Connecticut Mills Company to Have 500,000 Gallon Reservoir.

Harry E. Back, Jr. and Samuel Back left Wednesday evening for Newburgh, where they are to be guests, at the great army cantonment, of their cousin, First Lieutenant R. E. Back, U. S. A.

At an open meeting of Sarah Williams Danielson chapter, D. A. R., in the vestry of the Congregational church, Tuesday afternoon, Mrs. Angie Warren Perkins will speak on The Russia of Yesterday and of Today.

Securing Tents. Captain P. O. Arrington said Wednesday that tents are being secured for the Sunday evening camp of the Home Guard company. Up to Wednesday about half the number of tents that will be required had been secured.

Holiday hours will be observed at the Danielson post office next Monday. The office will close at 11:30 a. m. for the day.

It is thought that the registration at the high school this fall may be somewhat reduced by reason of the fact that many young people who might otherwise continue their studies at the high school are being attracted by the high wages obtainable.

Electric Welding Machine. The Shore Line Electric Railway company has sent to Danielson an electric welding machine, which will do the necessary work on the new line of rails being laid in a section of Main street. The machine is so mounted as to run over the trolley line.

Married Men to Appeal. In view of President Wilson's commencing the taking of married men for service in the draft army, a number of men of that class who are residing in this vicinity are to file appeals with the district board.

Laying New Track. A force of men of the Shore Line Railway began Wednesday the work of laying new ties and track along the line northward from the Congregational church to the borough line, this being the extent of the new concrete roadway to be laid by the state. It is expected that this new section of track will be completed within the next ten days. The work being done makes a necessary transfer of the trolley line.

Can Go to Ayer. Men in this district who have been called and accepted in the draft and who are cooks or former members of a military organization may have the duty of going to camp at Ayer, Mass., with the first of the contingents, leaving next week, if they will make application to the exemption board. Some men who are not cooks or who have not had military training are already pleading for an opportunity to be exempted from the draft.

Two on Roll of Honor. The current issue of the Telephone Bulletin, official publication of the S. N. E. Telephone company, prints a roll of honor of employees who are to leave its service to do their bit for Uncle Sam as members of the Signal corps. In this list appears the names of two former clerks of the Danielson office, headquarters at Danielson—Vincent B. Garland, lineman, and R. E. Lane, driver.

Garland and Lane are still on duty here, but expect a call for service at any time.

During the past few days, has witnessed two flagrant usurpations of authority by men who have taken upon themselves privileges which belong only to officers. It has become a sad heretofore to invest one's self with the right to do things that only an official really has, but that they don't get into the regular in some quarters and will bring retribution on the heads of the over-claiming.

Big Corps at Jail Farm. The Windham county jail farm is producing a large crop this season, probably a larger one than in any of the years that have gone before. Under careful management, many acres of the farm have been kept highly cultivated this season and the returns from the various crops are expected to be surprisingly large, although no definite information as to the prospects are being given out.

Thirteenth Company in Fine Form. Sergeant Charles Rapp, who visited at his home here from Fort Terry, says that the Thirteenth company is rapidly developing in knowledge of and efficiency in military and that it is fast becoming a splendidly fitted command.

When the company went away from here many of the recruits were without uniforms or other equipment, but they are fully equipped for service now and are fast becoming acquainted with the multitude of duties that devolve upon them as soldiers.

The general health of the company is at a very high standard and there has been vast improvement in the health of some young men who have come from "insane" work to the open country. If they are now leading, insulating to Defenders of the Country.

The printed statement that "killingly" may get no license because so many men have gone with the soldiers' doesn't read well to the relatives and friends of men who have given up home and almost everything dear to them to fight for their country, and some of the soldiers who have read the statement have said things that wouldn't look well in print.

These men, therefore, who have voluntarily placed themselves under real prohibitory rules are gladly wished away with that they won't help Killingly to a license vote.

The man who wrote the line that has caused such adverse comment wouldn't get any gold medals from the patriotic members of the Thirteenth company were passing out decorations, no indeed.
