Lift Off Corns Doesn't Hurt!

Few drops stop soreness, then corn or callus lifts off with fingers.

The world owes thanks to the man who discovered freezonia. Tiny bottles of the magic fluid can now be had at any drug store for a few cents.

You simply apply a few drops of freezonia upon a tender, aching corn or callus and the soreness disappears and shortly you will find the corn or callus so loose and shriveled that you lift it off with the fingers. Not a bit of pain or soreness follows. Instantly the soreness disappears and shortly you will find the corn or callus so loose and shriveled that you lift it off with the fingers.
