CHICAGO FANS GREET CHAMPIONS

The Big Demonstration Given the Players Halted Traffic for Twenty Minutes—Manager Rowland Hoisted on Shoulders of Admirers and Carried into the Street—White Sox' Share of Receipts \$91,733.15 or \$3,666 for Each Player.

Chicago, Oct. 17.—A cheering crowd of 5,000 White Sox rosters stormed the State street station late today to welcome home the world's baseball champions. The crowd broke through police lines when the train arrived at 4 o'clock and, accompanied by brass bands, swarmed around the conquerors of the Giants.

The appearance of Clarence Rowland, manager of the Chicago club, was the start of a demonstration. Some of the fans hoisted Rowland to their shoulders and carried him into the street. Traffic was blocked for twenty minutes while the crowd sought to shake hands with the players.

With the exception of Eddie Collins, Mel Wolfang, Urban Faber and John Collins, every member of the club was in the party. Eddie Collins went to his home in Philadelphia from New York and Wolfang and John Collins left the party at Albany. Faber, who pitched two victories over the Giants, returned yesterday going to his home at Cascade, Iowa, for a hunting trip.

Rowland carried with him a check for \$91,733.15, the White Sox share of the series. Twenty-five players will divide the spoils, each receiving \$3,666. The club's traveling secretary, and Bob Haasbrook, who did not join the club until the middle of the season, will be presented a sum.

Giants Receive \$61,227.38. The last touches were put on the 1917 world's baseball series in New York today, when John Bruce, treasurer of the national commission, handed a check for \$61,227.38 to the Giants. The check was given to Captain Charles Herzog and John Lobert of the New York club. Herzog and Lobert were delegated by their team manager to receive the money accompanied by

FINANCIAL AND COMMERCIAL

STOCK PRICES DROOPEO. Business Lacked the Volume and Scope of Recent Sessions.

New York, Oct. 17.—Much of the ground regained on yesterday's moderate rally of the stock market was relinquished today, when fresh liquidation set in. A few low recoveries in individual stocks accompanied the movement, which lacked the volume and scope of recent sessions.

The afternoon was promising, showing gains of large fractions to two points. The advance was tentative, however, and was soon dissipated on renewal of pressure against coppers, motors, oils and tobacco. Weakness of Utah Copper contributed more than any other feature to the general unsettlement of the intermediate period.

United States Steel was again the pivot around which the active list revolved, its reversal of three points on Oct. 17, a rebound by a rebound of two points, causing much irregularity among other industrials and equipments. Steel closed at 102 1/4, a net loss of 1/2 point.

Among the few consistently strong features were Securities, including Liberty bonds and rubber issues. Liberty bonds were active at 99.72 to 99.76. Total sales (par value) aggregated \$24,475,000.

United States bonds (old issues) were unchanged on call.

Even though his prices are Vexatiously High, you do not accuse your Tradesman of trying to rob you, if he charges no more than a Reasonable Profit for the wares you have to buy. Why should you be less kind to the Street Railway Company if the latter charges you no more than is necessary to enable it to endure losses until a more favorable time when street railroad maintenance can again subsist under a normal condition as to credit, costs and betterments?

- No industry can be on a sound basis without the good will of its patronage. If your complaint is rather of inadequate service than of higher rates, bear in mind:
First: That inadequate service is as much deplored by the street railway company as it is by you.
Second: That the company is sparing no effort within its power for improvements.
Third: That the cause of the trouble is lack of means to provide adequate equipment and a sufficient number of competent employees.
Fourth: That the cause is due to an advance in costs and a scarcity of moderate priced labor, which no one could have foreseen or prevented.
Fifth: That until these costs are offset by increased revenue, substantially better service is impossible.
Sixth: That continuation of inadequate service must involve the company and the public in common damage.

You and your tradesmen work loyally together for the good of the community. Your partnership with the street railway is in fact not less intimate. Your interests are as mutually dependent. The street railway company fully realizes this. Do you?

NO SUCH THING AS A "SHINE" BALL. Eddie Cicotte Tells How Myth Was Devised to Fool Batsmen.

Toledo, O., Oct. 17.—The secret of Eddie Cicotte's "shine" ball is that there isn't and never has been such a thing. It was a myth devised for its psychological effect. This admission was made by Cicotte while passing through here on the training trip. He said Cicotte, "The idea was to rub the ball in a way to make the batsman think I was doing something to it. I wasn't really, but they thought I was. Felch started the talk in St. Louis—got Fielder Jones all worked up about it—and the first thing we knew the 'shine' ball was an established fact in most minds."

WORKMEN in towns, and to peasants in the villages. "We greatly appreciate the willingness of our elder brother and democracy to aid us in building up a true democracy that will guarantee our liberties and give to all in Russia an equal opportunity. The Russian people, our part, are ready to be useful to our brethren on the other side of the ocean and defend the ground with their lives and their common welfare from the assaults of whatever enemies may come. Long live our union and friendship."

Washington, Oct. 17.—Messages of federation upon the union of the United States and the new Russian democracy in the cause of justice, exchanged by President Wilson and Madame Catherine Breshkovskaya, chairman of the Russian committee on civic education, were made public today at the state department. Madame Breshkovskaya called: "We Russian citizens have been receiving from the American people so many tokens of friendship and expressions of good will to help Russia in her hour of difficulties that we feel an imperious desire on our part to say to the great democracy of the United States how near to our hearts is the union with that democratic people and how fervently we wish to preserve that union and friendship so long as our nations last."

Southfield, Conn., Oct. 17.—A banquet tonight brought to an end the three days' convention of the Connecticut State Baptist Association here. During the day committees were named and the selection of the First Baptist Church of Bridgeport as the meeting place for next year was made. It was reported that the five-year campaign to create a relief fund for pastors and missionaries had netted \$151,000. One new church was added to the association today, the Howard Valley Church of Hamden. The death of seventeen former pastors during the year were reported. It was voted to expend \$100 of the association funds for a Liberty bond and a resolution was passed endorsing the United States food conservation programme and also the federal effort to keep army training districts free from vice.

Do Not Call Too Loud. Sound travels a long way in a still marsh. When the call is loud the mallard, black-duck and widgeon detect easily the fraud in calls; therefore, modulate your voice in a marsh. Oftentimes these wary birds, after coming into a marsh in response to your call, will settle among your decoys; or they may alight outside of gun-range and study the decoys to satisfy themselves of their being all right. If not disturbed they will then slowly move towards the decoys, feeding and chucking as they swim.
