City Government Completely Democratic

Jeremiah J. Desmond Elected Mayor By 755 Majority — Democrats Gain Complete Control of Common Council — Result Had Been Anticipated By Republican Leaders — Vote Was Small, About Half the Electors Participating.

JEREMIAH J. DESMOND, Elected Mayor.

Complete control of the city government passed back into the hands of the democrats on Monday when they elected Attorney Jeremiah J. Desmond, mayor and with him the entire democratic ticket. The new mayor swept into office with the largest vote given any candidate on his ticket while his republican opponent, Robert McNeely, had an exactly reverse experience and was given the smallest vote of any nominee on that ticket.

Small Proportion Voted. From the figures of the returns it can be seen that just about half of those who were entitled to vote exercised that privilege for there were 2,372 checked as voting in the four districts where there are 4,395 electors registered. In this respect the West Side or Second district made the worst showing, for there were only 470 who voted out of 1070 who might have used the voting machines.

Expected Republican Defeat. Joshua about what his chances have been had he consented to run, one prominent republican business man, who had declined the nomination for mayor, answered to a democrat in the town hall for this official closing of the election contest.

Returned from Front of Auto. The limousine belonging to Mrs. John F. Seton of Broad street and driven by Chauffeur Timothy Dunn, struck a man in Eastern Point on Sunday and broke his leg. The man jumped from another auto directly in front of the Seton car and was struck before Chauffeur Dunn could bring his car to a stop. The victim of the accident admitted that the driver of the Seton car had no chance to avoid hitting him.

Remus Stanton Appreciates Firemen. Through an error it was stated in Monday's Bulletin that Remus Smith had contributed to the firemen's fund. It was Remus Stanton who contributed \$10 to the fund.

Candidates Hear Returns. Both candidates, Mr. Desmond and Mr. McNeely, as well as Mayor Allyn J. Brown, were on hand at the town hall while the returns were coming in and Mr. Desmond's face was wreathed in smiles as he received congratulations as it became certain that he was elected with the whole democratic ticket.

A little later he remarked to a gathering of the political workers that he thought he ought to get along all right; Mayor Brown had agreed to help him in any way possible and Candidate McNeely had also proffered any services he could perform so that he looked as if he would not lack for help if he needed it.

Celebration Money for Red Cross. In anticipation of the victory that they had expected the democrats had collected a sum of money for the celebration but when the newly elected city head heard of the plans he suggested that it would be a better use of the money to give it to the Red

Cross in view of the war needs of that organization. The leaders acceded to his views and the contribution will accordingly be made, while the demonstration was given up.

GET NEW KIDNEYS!

The kidneys are the most overworked organs of the human body, and when they fail in their work of filtering out and throwing off the poisons developed in the system, disease begins to happen. One of the first warnings is pain or stiffness in the lower part of the back; highly colored urine; loss of appetite; indigestion; irritation, or even stone in the bladder. These symptoms indicate a condition that may lead to that dreaded and fatal malady, Bright's disease, for which there is said to be no cure. You can almost certainly find immediate relief in GOLD MEDAL Haarlem Oil Capsules. For more than 500 years this famous preparation has been an unfailing remedy for all kidney, bladder and urinary troubles. Get it at any drug store, and if it does not give you almost immediate relief, your money will be refunded. Be sure you get the GOLD MEDAL brand. None other genuine. In boxes, three sizes.

LEDYARD QUAKERS WILL BE PUT ON FARMS Conscientious Objectors Will Get No More Pay Than a Private.

Everett and Clifton Watrous, brothers, and their cousin, Daniel W. Watrous, all of Ledyard, who claim to be Quakers, are now with other conscientious objectors in a separate company at Camp Devens at Ayer, Mass.

They were sent to Camp Devens from Fort Wright, N. Y., where they had been confined in a guard house for one month. They were drafted through division 10 board, Norwich.

The programme to be followed with regard to the conscientious objectors has been definitely announced. All conscientious objectors in the various camps throughout the country are to be sent to Fort Leavenworth, Kan. Here they will be sent to work at agricultural pursuits being granted a definite forbearance from the army with the stipulation that they are not to receive more than the pay of a private in the army, plus subsistence.

When they will be taken from Camp Devens has not yet been disclosed.

Airplane rides will never become popular with the girls unless the machine can be managed with one hand.

WORDS OF ADVICE TO HOME GARDENERS Issued by Supervisor Haggberg—Apply to the June Season.

Home Garden Supervisor Charles A. Haggberg issues the following timely instructions to all home garden cultivators:

This is the month of all months when the inexperienced gardener is likely to be caught "off guard." There is a tendency to "let up" after the first strenuous weeks of the spring drive. Work in the garden not only accumulates, it put off, but actually grows. A two-hour job of weeding on Monday becomes a four-hour job by Saturday, and so on.

Get the weeding early using the wheel hoe or weeding rake not later than three or four days after planting at the most. Take out the weeds in the rows as soon as the vegetable weeds sprout enough to mark them, taking care to break every square inch of surface. Thin plants promptly when the first or second true leaf appears—don't delay.

Cultivate frequently for rapid growth as plants need air as well as moisture. With the wheel hoe or garden fork loosen up the soil between the rows to establish the "dust mulch" and get as near the rows as possible.

Fertilizers in the Garden. The gardener's problem in keeping up soil fertility under high pressure cultivation differs greatly from that of the average farmer. The latter thinks deeply of quantity, whereas the gardener considers earliness, quality, appearance, in addition. The gardener's soil must have the necessary plant foods available at all times. These are supplied by liberal dressings of manure and of a complete chemical fertilizer. Practically all garden soils can be fed liberally, whose intensive cultivation is given, and the average gardener it is generally better to use a complete fertilizer than to "nose" with special ingredients for specific purposes. The "limiting factor" in any scheme of feeding is, of course, the particular element that is present in the lowest degree. It may not be the same for all crops in all soils; hence the wisdom of using the complete fertilizer on areas where there is intensive cultivation of a variety of crops. It has been officially shown that fertilizer prices have not advanced in equal proportion to the crops they produce. But remember, fertilizer is only one factor in production; cultivation, water, tillage, etc., are equally necessary—may, more so—and fertilizers are neither surrogates nor substitutes for good husbandry, but valuable adjuncts.

CONNECTICUT COLLEGE. Miss Louise Howe to Be Dean of Vacation School Conducted During Summer.

The trustees of Connecticut colleges have placed the college buildings and property at the disposition of the Associate Collegiate alumnae of New London for the purpose of conducting a vacation school for business women from June 26 to Aug. 3.

Miss Louise Howe of Norwich has been appointed dean of the school and will be assisted in her work by a staff of several teachers who are prominent educators and specialists in their work. College students will assist in the physical training and outdoor work and will act as directors of residence and the recreational program.

The courses of study offered will be both practical and recreational, stress being laid upon such work as will enable the students to meet with greater confidence the demands of the present crisis. Included in the course offered are parliamentary laws, civics, public speaking, citizenship, the war, first aid, home nursing and Red Cross courses, folk and society dancing, French and English courses.

The vacation school course will consist of a term of two consecutive weeks and 42 students will be accommodated at one time. Here will be three terms and three relays of students. Each student who applies for admission to the school must be recommended by her V. V. A. or by a member of the Associate Collegiate alumnae. Twenty-one dollars will meet the expenses of each student, including board, room and tuition for the term of two weeks.

Blackstone house, a gray granite Tudor building, the gift of Morton F. Plant, will be used as a dormitory, and the summer students will enjoy the rooms which the college students find so enjoyable. The refectory, the library, the tennis courts, the gymnasium and the recreation hall will also be utilized.

The site of Connecticut college makes it in every way an exceptional situation for a vacation school.

DAVIS THEATRE. Feature Bill of Motion Pictures is on the Screen.

The Light Within, screened at the Davis theatre the first half of this week is Mme. Petrova's second picture made by her own producing company. It is a domestic drama done in a scientific, medical atmosphere. Mme. Petrova takes the part of a doctor's daughter who renounces a marriage for love in favor of one for money in order that she may complete a scientific discovery her recently deceased father had just failed in bringing to fruition. A son is born of the union, dies and in his passing so embitters the wealthy husband that he turns against his wife. By contriving meetings for her and her old admirer he seeks to compromise them. Failing in this, he plots the young man's death with disastrous results to himself.

The other feature on the bill was a five-part Triangle production, Little Red Decides. Little Red Decides is a scientific medical atmosphere. Mme. Petrova takes the part of a doctor's daughter who renounces a marriage for love in favor of one for money in order that she may complete a scientific discovery her recently deceased father had just failed in bringing to fruition. A son is born of the union, dies and in his passing so embitters the wealthy husband that he turns against his wife. By contriving meetings for her and her old admirer he seeks to compromise them.
