"Right is More Precious than Peace"

THE NEW DANGER ZONE.

The surprise has been quite general that Germany sent its U-boats to this side of the Atlantic for advertising purposes. It is expected that it would give encouragement to the people at home that big things were being accomplished, that the help which this country is sending to the allies in Europe would be shut off and that it would serve to cripple the foreign trade of this nation.

PERSHING JULY 4TH FUND.

A campaign has been started by the Spanish War Veterans of Connecticut for the purpose of sending to the boys from this state who are now in France to be distributed among them on the Fourth of July.

BETTER TO RESPECT THE LAW.

Regulations regarding the use of certain foods at the table have been established by the food administration for the purpose of having them respected, and laws have been passed which are considered sufficient to see that they are.

EDITORIAL NOTES.

The senate has downed the closure resolution. That is one place where a muzzle is never welcomed.

U-boats Resting in their Haven?

U-boats resting in their haven? It is a headline. They should be allowed to rest until placed in the custody of Davy Jones.

Germany may state its war aims

Germany may state its war aims but it will not make any fresh offer of peace. It must know by this time that it might as well spare itself the exertion.

There can be no surprise at the announcement

There can be no surprise at the announcement that railroad expenditures will exceed expenditures on similar construction. The money is certainly needed too much in other directions.

A DARING ACHIEVEMENT.

Ever since Italy entered the war it has been forced to give no small amount of attention to the Austrian navy. Each of these countries has recognized the necessity of watching the opponent on water as well as on land, and each has its accomplishment to its credit.

THE MAN WHO TALKS

It would not be considered polite to ask people what they talk about? Our ears reveal to us, however, that the subject is a familiar one to the time and that little-tattle has been the go ever since the flood, which proved to be the only efficient silencer.

THE SENATE'S ACTION.

Much attention has been given to the debates which have been carried on in the senate regarding open diplomacy concerning treaties and the effort to secure a limited debate upon all matters in general.

Germany is not only short of provisions

Germany is not only short of provisions and war material but also short of small dwellings. The Dwelling House Committee of the Reichstag reported that the small houses are needed in Germany; and the Reichstag has voted 500,000,000 marks, or one hundred and twenty-five million dollars for the building of family barracks.

SMILE

The corners of the mouth should be trained to turn up instead of down. Even in war, laughter is better than tears. Along with the boys in the cantonments everybody must learn, to some degree, to "pack up" your troubles in an old kit bag and smile, smile, smile.

What gift of nature is more genuine

What gift of nature is more genuine to be prized than the ability to see the bright side of things? The man or woman who has the power to see the bright side of things, in any given situation has a real weapon against the ills of life.

It is pleasing to read that the ladies

It is pleasing to read that the ladies of the Salvation Army get their coffee hot for the boys when they return from the front-line stunts and they serve at times of an evening one thousand cups of coffee to the soldiers; and the New England pie and doughnut is always ready to water their mouths.

It was Browning who said: "Man was made to grow—not stop"

It was Browning who said: "Man was made to grow—not stop"; and it was Holmes who compared the brain of man to a seventy-year clock wound by the Angel of Life who gives the key into the hand of the Angel of Reconstruction.

New Britain unquestionably suffered

New Britain unquestionably suffered heavily from the wind and rain storm this week, but it must have had a window steamship in its midst when it is claimed that the sea was directed to this week by the series of attacks, which have been made upon the Austrian vessels by the Danish

LETTERS TO THE EDITOR

For the Observance of July Fourth.

Mr. Editor: The United States government is celebrating the birth of the nation at the present time and has endorsed the suggestion that special public demonstrations be given in all cities on the next anniversary of the Declaration of Independence, July 4th, 1918, to formalize the loyalty of citizens of foreign birth or extraction to our country, and to the ideals for which it has engaged in the present war.

Don't Like the Habit.

Mr. Editor: I would like to make a few comments on a fact that is now greatly practiced, both in our city and others, if you can allow me space to do so.

Records for Our Sailors.

Mr. Editor: Our boys are going overseas for patrol duty. The demands are severe and the little recreation given by a small talking machine and some good records is appreciated more than any other amusement.

STORIES OF THE WAR

Railroad Travel in Russia.

The hardships of railway travel during the present campaign in Russia were brought home repeatedly to the members of the American Red Cross Mission to Russia on their journey from Jessy to Murmansk. The distance is about 2,500 miles but the Mission was nearly a month on the road, averaging less than 100 miles a day.

WAR GARDEN PRIMER

Hi! Cutworms!

Are you on the lookout for garden cutworms? If not you had better be today's bulletin from the National War Garden Commission.
