REFRIGERATORS OF EVERY DESCRIPTION

Our stock has never been more complete, our prices are normal, are absolutely low after making comparison with other store prices, on the same quality and size, taking into consideration the great advance in raw material. We were posted months ahead of the coming advance, and our orders were placed and we had three car loads of Refrigerators come in when we had that severe blizzard this past winter. They were placed in Carroll's storage building. We are today in a better position to sell, supply and deliver than any previous year. Some people after looking around have been scared to look further, but we don't blame them. Those same folks coming here leave with a satisfaction, both in their feeling and pocket book. It's the old story and reason.

"The Big Store With the Little Prices" has always and will continue to do so—sell more and make less profit on goods. We have proved that for years and years.

We advise every housekeeper to buy her Refrigerator at once and buy it at this store. If you wait any longer it means you will not be able to find what you want and prices will positively take an advance. We hold today the biggest store of Ice Boxes in this city. We guarantee our goods. The very best makes of everything.

THE ARLINGTON MAKE—THE GURNEY REFRIGERATOR—BOTH ARE KNOWN NATIONALLY.

These Bargains Cannot Be Duplicated

YOU WANT THIS REFRIGERATOR This is the Refrigerator you want in your home—it is good size—constructed on the most scientific principles—with asbestos linings and all interior parts sheathed with galvanized iron.

Dimensions: This Refrigerator is just the right size for the average family—it is 17 inches deep, 31 inches wide and 43 inches high—and the ice chamber will take about 50 pounds of ice. The provision shelves are of galvanized wire and are removable.

Price list: \$12.50, \$18.50, \$22.00, \$23.50

addresses turned in by soldiers, remnants of families to address other than those listed, and the occasional necessity for calling back to Gen. Pershing to verify a name or to obtain an address.

Aside from these four causes of delay the only reason for the failure of relatives to receive word at once is military consideration. Gen. Pershing may, at his discretion, withhold a casualty list until he is positive it will have no military value to the enemy.

Nearly All Artillery for American Army to be Motorized. Motorization of field artillery will be carried to a greater extent in the American Army than in any other army engaged in the war.

Food Saving Rules. Scores of firms throughout the United States have been notified of violations of rules of the Food Administration. In some cases licensees have been suspended.

Colored Registrants to Be Given Technical Training. Nearly 157,000 Negro soldiers are now in the National Army. Of these 1,096 are line officers holding commissions.

Repair of Clothing at Army Camps Saves New Equipment. Through the operation of repair shops for clothing and other articles, a considerable saving in reissue of new equipment has been made at Army camps.

Children's Bureau Finds Many Babies Suffering from Lack of Food. Reports are reaching the Children's Bureau of the Department of

labor from the hundreds and thousands of women who during the last 60 days have been weighing 5,000,000 children of America, and the way in which permanent poverty menaces the healthy growth of the children of the Nation is being revealed as a result of the weighing and measuring campaign.

After the United States entered the war one of the first requests transmitted to this Government by the French mission was for the assistance in strengthening the French railways. Nine regiments of railway engineers, whose organization was started before Gen. Pershing sailed, were in France by August, 1917.

Next to the aggregate number of subscribers perhaps the most striking feature of the third Liberty loan was the support given it by the farming and rural populations of the country, according to a statement by the Treasury Department. Not only did the farmers purchase liberally of the bonds, but the rural communities as a rule were more prompt in completing their quotas of the loan than the larger cities.
