

Baseball's Fate to Be Decided Wednesday

Hearing on Request of Baseball Representatives That Work or Fight Ruling Be Extended to End of Season Set For Tomorrow—American League to Take no Definite Action Until After Wednesday—Yankees and Browns Play 15 Inning Tie.

Washington, July 22.—Decision on the request of representatives of organized baseball that the effective time of the "work or fight" regulations as they apply to professional baseball players should be extended to the end of the present season was postponed today until Wednesday. This action was taken so that the national baseball commission could present a brief setting forth its views in the matter.

After today's meeting that some concessions will be made at the coming meeting in Washington to permit carrying out of this year's schedule. All the American league club owners were represented here today. Chairman Herrmann was here to confer with Mr. Johnson. Mr. Herrmann left for Pittsburgh tonight to attend the meeting of National league owners in that city tomorrow and Mr. Johnson left tonight for Washington.

Representative Nicholas Longworth of Ohio appeared on behalf of August Herrmann, chairman of the national commission, and asked that the decision be postponed so the commission could formally present its case. General Crowder said he was prepared to make his recommendations, but would postpone further action until Wednesday if the representatives of the Washington club present agreed. They did and the matter went over.

Manager Griffith of the Washington club announced that his team would leave for St. Louis so as to play the game scheduled for Thursday unless President Johnson directs otherwise or arranges a game nearer to Washington so as to save traveling expenses. The decision of Secretary Baker is unfavorable.

Fate of International to Be Settled. Auburn, N. Y., July 22.—International baseball league club owners were called by President Farrell to meet in New York Thursday for the purpose of determining the future of the league under Secretary Baker's construction of the "work or fight" order.

Jersey City, July 22.—Benny Leonard, lightweight champion of the world, scored a technical knockout over Young Gradwell of Newark in the final round of an eight round bout here tonight. Leonard knocked Gradwell down twice in the fifth and the referee stopped the fight to save Gradwell from further punishment. Leonard weighed 136 and Gradwell 132 1/2.

Grand Circuit Postponed. Toledo, Ohio, July 22.—The opening of the Grand Circuit racing week was postponed today on account of rain which began just at starting time and lasted more than an hour. Today's card of races will be run tomorrow.

Moosup at Jewett City. Wednesday evening the Ashland second team plays Moosup on Ashland park in a game of twilight baseball. Moosup is bringing down a fast team to clean up the locals, and the game promises to be fast. Seven innings only will be played.

Wauregan 7, Ballouville 3. Wauregan made it eight straight games Saturday by defeating Ballouville by the score of 7 to 3. The Wauregan team is playing a fast game and is deserving of better support at their home games. The score: Ballouville: ab 1 2 3 4 5 6 7 8 9 R B E. Wauregan: ab 1 2 3 4 5 6 7 8 9 R B E.

Table with 10 columns: Player, AB, R, H, E, and 5 rows of player statistics.

Yankees and Browns Play 15 Innings to a Tie. New York, July 22.—New York and St. Louis played a 15-inning 4-4 tie here today, the game being called on account of darkness. There were no league umpires present and the game was umpired by Bierhalter, the St. Louis trainer, and Donlin, a former New York National player. Score: St. Louis (A) New York (A).

Table with 10 columns: Player, AB, R, H, E, and 5 rows of player statistics for Yankees and Browns game.

Red Sox Trim Tigers Twice. Boston, July 22.—Boston shut out Detroit twice today. In the first game Bush had the better of James in a ten-inning pitching duel. In the tenth with none out, Bush walked and took third on Hooper's single to right. Walker's throw knocked Crawford out of the game. The score was 0-0.

Table with 10 columns: Player, AB, R, H, E, and 5 rows of player statistics for Red Sox vs Tigers.

Lehigh City, July 22.—The opening of the Grand Circuit racing week was postponed today on account of rain which began just at starting time and lasted more than an hour. Today's card of races will be run tomorrow.

Table with 10 columns: Player, AB, R, H, E, and 5 rows of player statistics for Lehigh City game.

Washington Beats Sox Again. Washington, July 22.—Washington made a clean sweep of the series of four games with Chicago by winning the final today, 3 to 2, in ten innings. Score: Chicago (A) Washington (A).

Table with 10 columns: Player, AB, R, H, E, and 5 rows of player statistics for Washington vs Sox.

Pittsburgh 7, Boston 2. Pittsburgh, Pa., July 22.—The Boston Braves lost the last game of their western trip here today to Pittsburgh 7 to 2. Score: Boston (N) Pittsburgh (N).

Table with 10 columns: Player, AB, R, H, E, and 5 rows of player statistics for Pittsburgh vs Boston.

Athletics Win Exhibition. Philadelphia, July 22.—Scott Perry of the Athletics, allowed the Philadelphia Nationals one scratch hit in an exhibition game here today. The only run of the game was scored by the Americans on a pass, out and single. The game was for the benefit of the family of the late W. G. Weart, secretary of the Baseball Writers Association of America, and more than 5,000 persons were present. Score by innings: Phil. Amer. 1 0 0 0 0 0 0 0 1 2. Phil. Nat. 0 0 0 0 0 0 0 0 0 1 3.

Table with 10 columns: Player, AB, R, H, E, and 5 rows of player statistics for Athletics exhibition.

SPORTING NOTES. Benny Kauff, the former Giant, now in the army has been promoted to corporal. At last Ashland has woken up and canned Lambert, their umpire. Better late than never. Joe Sullivan has denied the charge that he is manager of the newly organized (?) Colonials. Don't look at the city championship would amount to much after all.

A noticeable feature of the record breaking game in Chicago Wednesday was the clean fielding of both teams. The only error of the game was charged up against Hollocher, the Cub shortstop. Eustis, the Wesleyan football star who is now in the aviation service had a narrow escape the other day when the machine in which he was flying at Kelly Field, fell 500 feet. Eustis was not injured.

How to Get to Army Campments Throughout the Country. Special Passes for Auto Mechanics for Pershing. Army cantonments, forts and aviation fields will be the objective of

James J. Coffey, the Roscommon heavyweight pugilist, has received his final papers as a full fledged citizen of the United States from Justice Lehman of the Supreme Court. Coffey who was born near Roscommon, Ireland, joined the New York Reserves some months ago and since joining the uniform has appeared at Red Cross benefit boxing tournaments on several occasions.

When the students at Phillips Exeter Academy resume their studies after the summer vacation they will find compulsory military training included in the curriculum of that institution. This will take up three hours of their time each week so that football, baseball and all other forms of athletics which the students have been instructed in past years will be considerably restricted but by no means abandoned.

During its recent six day meeting at the Jamaica race track the Metropolitan Jockey Club distributed \$48,876 in stakes and purses for the thirty-two races decided. This amount is the biggest winnings \$5,210 went to the credit of the Brighton Stable owned by George Smith, while John Sanford, the mentor June Jockey, won a second on the winning list with \$4,775, of which five year old horse George Smith won \$2,550 by his victory in the Excelsior Handicap.

Word has reached in New York announcing the death of Eddie Campbell, one of the cleverest little boxers ever seen in the ring and known to followers of pugilism from coast to coast. At Hollister, Cal., last week from the effects of a gun shot wound inflicted accidentally while hunting. His real name was Edward De Campus, born of French and Irish parentage at San Francisco, June 25, 1887. Among the prominent boxers whom Campbell met in his boxing career, were "Kid" Williams, Pete Herman (new champion), Frankie Bursey, Young Forester, O'Keefe, Dutch Brandt and Patsy Brannigan.

War prices have hit the national pastime and from July 1, the regulation official league baseballs will cost two dollars each. For many years the "bits" were priced at the best but since America entered the war a twenty per cent raise was found necessary. Now according to a trade journal which is the recognized authority on the cost of sporting goods, owing to the price of labor and the difficulty in obtaining horsehide, wool and other products necessary for the manufacture of the spheres the retail cost of a league ball will be two dollars. While the price of the cheaper grades has also advanced, it is estimated that it will be about twice the present rate.

It seems mysterious and complicated. It isn't at all. He used a shotgun which has a bore or a hole, through it went three eighths of an inch in diameter, which is known as a "12-gauge." In this gun are used paper shells with brass heads. They are loaded with shot of various sizes of smokeless powder and one and one eighth ounces of shot. The target or clay pigeons, as they are called, consists of an iron or steel composition, which is quite brittle. They are about four inches in diameter. The trap is really a throwing machine which by means of a mechanical arm, shells these saucers, bottom side up, through the air about 50 yards.

There are five shooting points ranged in a semi-circle back of the trap, to less than a three days' drive. New England has one camp, the middle Atlantic territory two, the southeast three, the middle west five, the southwest two and the northwest one. Here are the locations of the largest camps and road and tourist camping party information for those contemplating trips to our soldier making plants.

Camp Custer—More than 200 cars carry the passengers between Battle Creek, Mich., and Camp Custer, which is 3 miles distant. Another concrete road has been started to run from the city limits west and through the camp, so that all traffic may run out one road and back the other. There are good camping grounds along the Kalamazoo river near the camp. The Y. M. C. A. buildings throughout the camp have suitable comfort stations for visitors.

Camp DeWens—The roads from Boston to Ayer, Mass., the site of Camp DeWens, are excellent, and the camp also may be reached from Worcester and Springfield over good roads. The road to the camp is about a mile west of the town. Camp Dix—To get to Camp Dix from Philadelphia, the roads from the city are excellent. The road from Philadelphia via Masonville, Mount Holly, Pemberton and Lewisport.

Camp Dodge—Camp Dodge has the selected men from Iowa, North Dakota, Minnesota and several counties in central Illinois. It is 11 miles north and west of Des Moines, Iowa. The road to the camp is paved with the exception of about 3 miles, and this will be completed as soon as the spring work is over. Visitors are allowed almost free access to the entire camp. Camp Gordon—The road from Atlanta, Ga., to Camp Gordon has been very bad but is now being improved and in a short time will be good. There are plenty of garages but hotels

should be advised in advance. Camp Grant—Camp Grant is about 5 miles south of Rockford, Ill. From State and Main streets go southeast on State street across the river to Third street and turn right, going into Kiskadee street, which leads directly into the cantonment. From Chicago one has the choice of several routes, the preferred one being by way of Maywood, Lombard, Geneva, St. Charles, Elgin, Coal, Harmony and Belvidere to Rockford, 99 miles. Leave Chicago via east Jackson boulevard, through Garfield park, and out to Washington boulevard, thence to Maywood.

Camp Lee—Camp Lee is located at Petersburg, Va., which is connected with Norfolk and other parts of the states by several routes. The trip from Norfolk, 99 miles, is via Suffolk, Franklin, Courland and Homeville. Camp Lewis—Camp Lewis is situated on American Lake, 15 miles from Tacoma, Wash., Olympia, the state capital, is for the most part very bad. It has been impossible to reach the camp from Laurel as the 5 mile section from that point is ordinary soft dirt which always becomes impassable during the winter. Visitors are directed by Baltimore and then south over the concrete road into the reservation. Camp Pike—Camp Pike is 5 miles north of Little Rock, Ark., on a splendid asphalt road. Hotel accommodations are good, and there are plenty of garages and service stations. Arrangements are being made for camping grounds.

Camp Sherman—Camp Sherman is about 1 1/2 miles from the town of Hicotho, Ohio. Visitors are welcome at any time, with no special rules for their conduct. Camp Taylor—Camp Zachary Taylor is so close to Louisville, Ky., that it is possible to reach the camp in a few minutes. Hotel and garage accommodations are ample, and it is only 5 miles to the camp. The camp is open to the public Wednesday and Saturday afternoons from 1 to 5 P. M. Camp Travis—Logs leading to all the camps in Texas are available from the Dallas Automobile Club, Dallas, Tex., which also is able to give any other information in regard to Texas camps.

To recruit forces of automobile tire repair men equal to the demands caused by the ever increasing use of passenger cars by General Pershing's armies in France, Provost General Crowder has established "burry-upt" classes in Akron through the University of Akron. This is a part of the government's plan to educate 50,000 men for specialized work in American Universities this year. In one of the plants a special class of officers, called "burry-upt" men, are trained to repair tires. Daily the men make tours of inspection through the tire making departments; listen to lectures by department heads; repair tires that have been through every possible manner of abuse; learn how to demount and mount rims quickly; learn what to avoid in adjusting a rim to a wheel, and read manuals and books dwelling on the care and repair of tires. The soldiers are drilled in quick and effective methods of repairing not only automobile and motorcycle fabric tires, but also cord tires for automobile and airplane use. It is the plan of the government to establish scores of American tire repair stations back of the lines on the Western front where American ambulances, officers' cars, trucks, military cars, dispatch rider's motorcycles and all pneumatic tire vehicles and planes may instantly and efficiently have their "shoes" cared for. Japan has offered every purchaser of an automobile or truck in the empire \$50 toward the purchase price, and \$150 yearly to help pay for the maintenance of the vehicle, in exchange for the privilege of speedily commandeering motors when the occasion demands, according to advices received by the foreign sales department of the American Tire Company. This subsidy is intended by the imperial government not only for the promotion of their use and to eventually encourage their manufacture within the empire. This aggressive action in Japan has still another important function. Horses are scarce in Nippon and most of the trucking is by men who pull two-wheeled carts, and much of the passenger traffic on the Japanese is still done by rickshaws. Labor is in strong demand and a general use of motor vehicles is so close to the heart of the Japanese government that it is promoting their use and to eventually encourage their manufacture within the empire. This aggressive action in Japan has still another important function. This aggressive action in Japan has still another important function. Horses are scarce in Nippon and most of the trucking is by men who pull two-wheeled carts, and much of the passenger traffic on the Japanese is still done by rickshaws. Labor is in strong demand and a general use of motor vehicles is so close to the heart of the Japanese government that it is promoting their use and to eventually encourage their manufacture within the empire. This aggressive action in Japan has still another important function. Horses are scarce in Nippon and most of the trucking is by men who pull two-wheeled carts, and much of the passenger traffic on the Japanese is still done by rickshaws.
