One Cereal That Needs No Sugar

Grape-Nuts needs no sugar! Unlike most cereal foods it contains its own natural sweetening, obtained through the famous Grape-Nuts process from the wheat and barley from which it is made.

This natural sweet is the starch of the grain changed into a healthful, life-giving sugar.

This change is brought about by the ferment, diastase, in barley malt, and by long baking. The result is a wonderful food, easy to digest, abundantly sweet in its own right, nourishing, economical—
