It's Style and Quality

Some clothes are all style. When you try them on in front of the mirror they appeal because of their style.

But—if that style is not built and tailored into the garment — not simply pressed—it will be only a short time before your garment is only a meal sack.

Before applying the sound, honest principle of good tailoring, it is necessary to secure good all-wool cloth for the foundation.

Cotton or cotton adulterated fabrics will not retain their shape and style.

Come to this store for your clothing purchases. You can be sure of sound,

honest tailored, all-wool clothes.
