Scientists Prove Father John's Medicine is Five Times More Nourishing Than Many Common Foods We Eat

When you are weak and run down you need a food tonic which will supply the nourishment which you do not obtain from your food. Careful tests by expert chemists have shown that exactly the elements needed for this purpose are contained in Father John's Medicine in a form which is easily taken up by the system. The great food value of Father John's Medicine as established by scientific tests make it the ideal body-building tonic for all the family.

When a scientist states the food value of any product, he does so in terms of "calories," which he defines as the amount of heat used to raise the temperature of one gram of water one degree. A teaspoonful of Father John's Medicine contains 25,715.76 calories. The same quantity of steak contains only 10,714 calories. By these tests also it was proven that Father John's Medicine was five times more nourishing than an equal quantity of codfish, seven and one-half times more nourishing than an equal quantity of oysters and almost six times more nourishing than pure milk.

The food energy which Father John's Medicine contains is exactly the kind of energy which is most easily taken up by the system and by the processes of nature turned into tissue or flesh. Because it does not contain any alcohol or dangerous drugs in any form, Father John's Medicine is the safe medicine for all the family.

Mr. Piez said that the board early in September decided on a change in its program which would bring about a considerable reduction in expenditures. The board's aim now, he said, is to produce ships with regard to economy in construction rather than speed in delivery.

Stop Coughing! The simplest and best way to stop coughing is to take FOLEY'S HONEY-TAR. In it, you get the curative influence of the pine tar and other healing ingredients, together with the mollifying laxative effect of the honey. It puts a soothing coating on the inflamed lining of the throat, allays bronchial irritation, raises phlegm easily, stops hard wearing coughs and nervous hacking.

W. S. Bailey, Lancaster, Ky., writes—"My wife contracted a severe cold, which developed into a bronchial trouble, and she coughed continually. One-half bottle of Foley's Honey and Tar cured her cough and she is now a letter at night. She continued its use until it effected a cure."
