

ACT QUICKLY

Do the right thing at the right time. Act quickly in time of danger. In time of kidney danger, Doan's Kidney Pills are most effective.

Plenty of Norwich evidence of their worth. Mrs. Henry Brayman, 453 E. Main St., says: "For about a year I was laid with backache, I couldn't get out of bed mornings without help, when I sat down it was the same way, I had to be helped up. At times I felt as though I was paralyzed from my hips down. My feet swelled so I had to take off my shoes and was next to impossible to get up or down stairs. I got so I couldn't do a bit of housework. When I stood a short time I got so weak and dizzy I had to sit down. Spoke of seeing a doctor but the pains in the back of my head and neck were unbearable. I used different medicines, but got no relief until I finally used Doan's Kidney Pills. All the swellings and pains left and my kidneys became normal. Two years have passed and I haven't had a sign of kidney trouble since."

SHOWS NEEDS OF WOMEN'S STATE FARM

How they want to use the appropriation of \$425,000 which they are asking from the present legislature is shown in the first annual report of the board of directors of the Connecticut State Farm for Women, which has just been issued.

After reviewing what has been done from July 1, 1917, to September 30, 1918, at this farm of 730 acres around Lake in East Lyme, all of which was purchased for \$28,100, the board of directors makes the following plea:

We earnestly desire this institution to be recognized as an integral part of the great state-wide movement, together with the general assembly of Connecticut and the general public whose servants we are, look to us as gathering onto our ample acreage all the diseased and delinquent women in need of medical treatments and custodial care.

With such a function to perform we appeal to the legislature of 1919 to provide the means to give us adequate and ample support not for the sake of our own institution only, but for the sake of the welfare of the state.

And so, as a result of our short experiment, the board of directors of the Connecticut State Farm for Women, respectfully makes the following recommendations:

1 That we be given sufficient appropriation with which to erect, during the next two years, a new building for the care and observation of inmates during the first three months after their admission.

2 A school building with adequate quarters for academic and vocational instruction for the inmates of the farm in all its branches, laundry, dress-making, millinery, and with an assembly hall.

3 A sufficient number of cottages for twenty-five inmates each to house 200 women and the necessary officers, teachers and attendant women in need of separate and desirable isolation of groups.

4 Also to develop the farm sufficiently to produce a full supply for the inmates and live stock of the institution.

5 To purchase a good herd of cows and maintain a small poultry plant.

6 To establish a small dairy plant, to maintain adequate transportation facilities between the farm and the station at East Lyme and Norwich.

7 To employ a trained staff for the vocational work of the school and the management of the domestic science department, including adequate equipment in all departments.

8 There have been 29 women on the farm coming from the cities and towns as follows: Hartford 2, Moden 1, New Britain 2, New Haven 3, Norwich 2, Norwich 1, Waterbury 1, Waterford 1, Winsted 1.

The audited financial exhibit for the farm is shown as follows from April 26, 1918 to December 31, 1918:

XENS ON THRESHOLD OF THEIR FIFTEENTH YEAR

The Xens society of the First Baptist church entered upon its fifteenth year of activity Friday evening when a large representation met at its annual meeting.

Although the year was entered into with misgivings, owing to the depression induced by the anxiety of the war times, the society, while practically inactive, held its meetings with good attendance and has gained sixteen on its membership list.

The society held no meetings in the months of July and August, nor during the influenza epidemic, yet the interest never wavered, having an average attendance of about thirty-five.

The treasurer, W. Smith Allen, encouraged the members with his report of the society's finances and was heartily applauded on announcing a goodly sum in the treasury. The society has given to each and every worker, purchasing a Liberty bond, and has been represented in each of the several war drives.

Treasurer Allen is a wizard in handling the Xens finances, making a good balance on the right side. In this he is ably assisted by the financial secretary, Mrs. C. G. Cobb, whose report showed care and represented much more.

The society voted \$10 to the First Baptist church to be used toward the appointment of the church has been taxed for war work.
