

THAT CHANGE IN WOMAN'S LIFE

Mrs. Godden Tells How It May Be Passed in Safety and Comfort.

Fremont, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. M. Godden, 925 Napoleon St., Fremont, Ohio.

Such annoying symptoms as heat flashes, nervousness, backache, headache, irritability and "the blues," may be speedily overcome and the system restored to normal conditions by this famous root and herb remedy Lydia E. Pinkham's Vegetable Compound. If any complications present themselves write the Pinkham Medicine Co., Lynn, Mass., for suggestions how to overcome them. The result of forty years experience is at your service and your letter held in strict confidence.

The Big Business Man's Best Asset

EVERYWHERE there are men, big men mentally, whose contact with vital problems of progress brings them into daily contact with other big men—and if for no other reason than to satisfy your own conviction that proper, immaculate dress is one of the factors of their success—ASK THEM.

Invariably they'll tell you that the shirt they've always relied on for most satisfaction is a MANHATTAN.

Morley's Hat Store

Franklin Square, Norwich, Conn.

Are You Dyspeptic?

You know that more dyspepsia is caused by improperly baked bread than almost anything else. Bread has to be baked to a scientific nicety by the right sort of ovens, under a scientific formula and under a certain even temperature to get it just the right degree of wholesomeness and digestibility. Our bread is made just right. The best flour, tastily seasoned, thoroughly kneaded and brought to that delicious crispness and palatability that has made it so popular here in town.

ACTION TUESDAY BY THE LEGISLATURE

(Special to The Bulletin.)

Hartford, April 3.—The main matter of interest in the house today was the action on the resolution approving an amendment to the constitution concerning the sale of spirituous and intoxicating liquors, which provided for the submission of the subject to the people for determination. The resolution was rejected, by two votes, a two-thirds vote being required for passage. The vote was as follows: Whole number of votes cast, 219; necessary to prevail, 146; Yes, 144; No, 75. The text of the resolution is as follows and self-explanatory:

Whereas, at a general assembly in the state of Connecticut, held at Hartford on the Wednesday after the first Monday of January, 1917, the house of representatives did pass a certain resolution, therein and thereby proposing an amendment to the constitution of the state, which amendment was by order of said house continued to the present session of the general assembly, and was published in the manner prescribed by the eleventh article of the constitution, and is in the words following:

Section 1. After the first Monday of January, 1922, the manufacture, compounding, bartering, sale or keeping for sale of any spirituous, vinous, malt or alcoholic liquors, is prohibited, except for sacramental, medicinal, scientific, mechanical or art purposes.

Section 2. The general assembly is authorized to enforce the provisions of this article by appropriate legislation. That the said proposed amendment is hereby approved.

The committee on humane institutions, reported favorably a bill authorizing the governor to appoint a commission, consisting of the superintendent of one of the hospitals for the insane, the superintendent of the Mansfield State Training School for Feeble Minded, the warden or superintendent of either a penal or correctional institution, a judge of the superior court, two members of the house of representatives, and a senator. The commission to investigate the segregation of defective delinquent, vicious feeble-minded and criminal insane. Calendar.

Another bill favorably reported provides for a commission to investigate the establishment of an infirmary for diseased, deformed and incurable persons for whom no treatment is available in existing institutions; aged, and indigent persons; the poor from such towns of the state as have no almshouse or are insufficiently equipped to care for them properly. If the commission finds it necessary that such an institution be established, it shall select a location, determine the management and operation, and estimated cost. The governor is authorized to permit the commission to purchase said site. The sum of \$100,000 is appropriated for the purposes of the act.

The appropriations committee reported favorably the act to continue the United States Employment service. The judiciary committee reported unfavorably on the bill which would permit liens on monuments in cemeteries. Unfavorable report was made and bill rejected which would establish the district court of Saybrook in the judicial district of Saybrook.

Unfavorable report came from the committee on humane institutions for a new dormitory at the Mystic Oral School for the Deaf. It was explained that this matter would be covered in another bill. The committee reported favorably the bill to purchase the property of the Mystic Oral School for the Deaf, which property is to be appropriated to the State. The fixed price is not more than \$20,000.

The use of the hall of the house was granted the committee on roads, rivers and bridges, for a public hearing, on Wednesday afternoon. All other hearing on street railway matters will be held in the hall of the house on specified days. Favorable report was made by the committee on incorporations that no mortgage or guaranty company shall issue bonds secured by mortgage or real estate for a larger amount than sixty per cent. of the appraised value of such real estate.

Unfavorable report was made on the bill that an amount equal to one-tenth of one per cent. on assessed valuation, shall be a special fund for street improvement and repair in the city of Waterbury. Also an act to amend the Waterbury charter concerning local elections; and an act concerning the payment of taxes. The latter is covered in a bill to be reported.

The business transacted in the senate, Thursday, reached the house and concurrent action resulted. Included in the bills were those providing for state armories in Waterbury and Ansonia, which were referred to the appropriations committee. Also, the rejection of the bill which would exempt members of the state guard from payment of poll tax, the exemption from the Knights of Columbus property in New London. All favorably reported went to the calendar.

Resolution restoring forfeited rights

to George S. Lewis, was recommitted to committee on forfeited rights. The act concerning the militia, which was passed in the senate, and a general outline given in The Bulletin, was fully explained by Representatives Ruid of Salsbury, house chairman, of the military committee. The bill provides for the state guard, and may be a temporary act, as there is probability of a reorganized national guard before the next legislature convenes in the 1922 session. A session which would provide that armories be built under the direction of the governor, adjutant general and the state war emergency board, rather than the commission plan, heretofore, caused lengthy discussion. The house concurred in the passage of the bill, and under suspended rules, the bill transmitted to the engrossing clerk.

The house concurred with the senate in the passage of the resolution appointing Christopher L. Avery, of Groton, a judge of the superior court for the term of eight years, from December 15, 1920, after a complimentary recommendation by Representative Geary, of Waterford. The vote was by ballot and Mr. Avery received all the votes cast.

The resolution appointing John R. Booth judge of the court of common pleas for four years was unanimously adopted, the vote being by ballot.

An act passed in concurrence with the senate provides that in all civil actions, except summary process, brought before a justice of the peace, or town, city or borough court, in which damages less than one hundred dollars are demanded, an appeal from any judgment rendered therein upon any issue, if taken within forty-eight hours after the rendition of such judgment, may be allowed to either party, to the court of common pleas in the county in which such judgment is rendered.

The governor may appoint, at the request of the Connecticut Humane Society, five duly accredited agents of that society as special police officers to serve for two years from the date of their respective appointments, subject to removal by the governor. Such officers shall serve without pay, except their regular compensation as agents of said society. They shall receive no fees for services or return of any criminal process and shall have, throughout the state, the police officers to arrest and detain any person violating any provision of the general statutes concerning the neglect or cruel treatment of children, offenses against children or cruelty to animals.

THE SENATE. Senator Koppelman of the Third district presided at today's session, he having been called to the chair by the lieutenant-governor.

The committee on cities and boroughs reported unfavorably on the bill to provide pensions for the employees of the Bridgeport city library and also on the bill empowering the board of health of Waterbury to arrange for the collection of garbage. Both bills were rejected.

The committee on the judiciary reported unfavorably on the bill concerning the engrossing of bills after adjournment. The bill was rejected. The committee on incorporations reported favorably on a bill exempting charitable and eleemosynary corporations, without capital stock, from the law which requires the payment of a fee of \$100 for the printing of special charters. The bill was tabled for calendar and printing.

The committee on state prison recommended that the report of the state prison commission, appointed under the act of 1912, be accepted and filed in the office of the secretary of state. Senator Deming in moving the acceptance of the recommendation of the committee said the commission recommended the erection of a new prison at a cost of \$5,000,000 to be located in East Granby. The senate said the state did not need a new prison and it certainly should not be located in East Granby. The motion to accept the report of the commission and to place it on the calendar was carried.

The committee on state prison made a favorable report on the bill repealing an act continuing the commission on the erection of new buildings for the state prison and it was tabled for calendar.

Senator Hemenway presented a resolution to the effect that: "The national aspirations and historic claims of the Jewish people with regard to Palestine be recognized at the peace conference, in accordance with the British government's declaration of November 2, 1917, that there shall be established such political, administrative and economic conditions in Palestine as will assure the development of Palestine into a Jewish commonwealth, and that the American representatives at the peace conference shall use their best endeavors to facilitate the achievement of this object; be it further."

The committee on federal relations reported favorably on the bill requesting the senators and representatives in congress to vote for the bill

ALLEN'S FOOT-EASE

The Antiseptic Powder. Shake it in your Shoes, Use it in your Foot-Bath

Use it in the Morning

And walk all day in comfort. At night, sprinkle it in the foot-bath, and soak and rub the feet. It freshens the feet, takes the Friction from the Shoe, and by protecting your hose and stockings from this friction, saves ten times its cost each year on your stocking bill. For over 25 years Allen's Foot-Ease has been the STANDARD REMEDY for hot, swollen, smarting, tender, tired, perspiring aching feet, corns, bunions, blisters and calluses. It acts like magic—No plasters or grease, clean, sanitary and cooling. You will never know what real foot comfort is until you have used Allen's Foot-Ease. What better proof than that the Plattsburg Camp Manual advises men in training to shake Foot-Ease in their shoes each morning. You should have the same comfort for your feet. Sold by Drug and Department stores everywhere.

BARGE EMPIRE TIED UP AT UNCAVILLE DOCK

The one-time excursion barge Empire, which has been used to carry freight for the Thames River Specialties Co. of Montville, is now tied up at the paper mill dock at Uncasville upon a lot of libel writs served by U. S. Deputy Marshal Timothy E. Hawley.

The Empire was gowed back and forth between New York for the Specialties Co. by the steamer Eugene C. Hart.

Built in 1906 at Noank the excursion boat with its life deck and span in white paint and brass rails was worth something like \$25,000 and she could easily carry 1,000 excursionists up and down the Sound. She had a big and a government license and a stock in trade, but no engine—for, remember, the Empire was a barge and had to hire herself towed wherever she wanted to go.

In seventeen years the old boat of course went down a bit in appearance and value and she was not in very good condition when Deputy Marshal Hawley libeled her and sold her under the hammer at Norwich, January, 1917. It was a cold day and the boat buyers reached the wharf with blue noses, so they begged the marshal to postpone the sale an hour, as they could get something warming in their veins. Back they came at the end of the hour, with noses red, purple strings loosened and natures mellowed, so it being war time and any kind of a boat that could carry freight a prize, the bids on the Empire ran up to \$8,000 and Deputy Marshal Hawley sold her to a Bridgeport man.

The Empire has been in freight service ever since and it is said has earned a nice pile of money, but the bills have not been paid and a week ago Ira S. Bushley & Sons, incorporated, of New York, libeled her and Deputy Hawley tied her up at Uncasville. The owners could appear Monday at the United States court in this city if they wanted to contest the Bushley claim, but three libels have since been placed on the Empire which may be contested May 5 if the owners desire.

One of these libels is by Ernest H. Merrick, receiver of the Hart Transportation company of New York, and the bill is for \$1,750 for towage of the old barge which has had her upper deck taken off and the lower one is boarded up so she resembles a floating barn. She came into Uncasville several days ago with a cargo of rags for the paper mill. Another libellant is the Gordon W. Anderson company for \$392.74 and still another is the Thames River Specialties company for \$476.12, these bills being for supplies. The last named company has a mortgage on the boat, too, out a mortgage on a boat whose the government steps in with its libels is about as much use as the "p" in pneumonia. The government procedure is to libel the craft itself, paying no attention to owners or title; then sell at auction, pay the government fees the libellants' claims and if there is anything more

FADEKES WSKI — MASTER PIANIST AND NATION MAKER

USES NUXATED IRON

To Obtain Renewed Energy, Power and Endurance

Dr. Kenneth K. MacAlpine, for 15 Years Adjunct Professor New York Post Graduate Medical School and Hospital, Says That In His Opinion Nuxated Iron is

The Most Valuable Tonic, Strength and Blood Builder Any Physician Can Prescribe.

Ignace Jan Paderewski, one of the greatest musical geniuses of the age, at a time when his untiring work for Poland overtaxed his strength and impaired his health had recourse to Nuxated Iron to help rebuild his wasted forces and restore his old-time health and strength.

"With the tremendous strain imposed by over two years of almost ceaseless work in the cause of his fatherland, of which he is the foremost figure today, it is easy to understand why Paderewski sought the sustaining tonic benefits of Nuxated Iron," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital. "Lack of iron in the blood not only makes a man a physical and mental weakling, nervous, irritable, easily fatigued, but it utterly robs him of the virile force, that stamina and strength of will which are so necessary to success and power in every walk of life. Thousands of men and women are impairing their constitutions, laying themselves open to illness and literally losing their grip on health, simply because their blood is thinning out and possibly starving through lack of iron. Iron is absolutely essential to enable your blood to transform the food you eat into muscular tissue and brain. Without iron there is no strength, vitality and endurance to combat obstacles or withstand severe strains. To let's make strong sturdy men of blood and iron there is nothing better than organic iron—Nuxated Iron."

Dr. Kenneth K. MacAlpine, says: "If people would only realize that iron is just as indispensable to the blood as is air to the lungs and be just as particular about keeping up a sufficient supply at all times, their iron might be liberated from its most valuable tonic, strength and blood-builder any physician can prescribe."

If you are not strong or well you owe it to yourself to make the following test: See how long you can work or
