BITRO-PHOSPHATE

BEST THING FOR THIN PEOPLE

Women Need it to Bring Pink Glow of Health to Pale Cheeks and Forestall Tattletale Lines of Age—Men Need it to Make Strong, Vigorous Bodies and Steady Nerves.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust and replacing ugly hollows and angles by the smooth, curved lines of health and beauty, there are evidently thousands of men and women who keenly feel the excessive thinness and weakness are usually due to starved nerves.

Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by Lee & Osgood, Norwich and most all druggists under a guarantee of satisfaction or money back.

Feeding the nerves directly and by supplying the body cells with the necessary phosphorus produces bitro-phosphate quickly produces a welcome transformation in the appearance. The increase in weight frequently being astonishing.

This increase in weight also carries with it a general improvement in health. Nervousness, sleeplessness and lack of energy, which normally accompany excessive thinness, soon disappear, dull eyes become bright and cheeks glow with the bloom of perfect health.

CAUTION: Although bitro-phosphate is unsurpassed for its nervousness, sleeplessness and general weakness, it should not be given to remarkable growing children, to be used by anyone who does not desire to put on flesh.
