Stanton's for several months, returned home on Thursday evening. THIN, FRAIL FOLKS NEED PHOSPHATE Nothing Like Plain Nitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force. Judging from the countless preparations that are advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness. Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as Nitro-Phosphate, which is inexpensive and is sold by Lee & Osgood in Norwich and most other cities. It is a natural product of nature and is not a synthetic product. It is not a nerve tonic, but it feeds the nerves directly and by supplying the body cells with the necessary phosphoric food elements, Nitro-Phosphate should produce a welcome transformation in the appearance of the individual. It is not a weight increasing agent, but it increases weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which are the result of thinness, should disappear, dull eyes ought to brighten and the cheeks glow with the bloom of perfect health. CAUTION—Although Nitro-Phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, it should not, owing to its tendency to increase weight, be used by anyone who does not desire to put on flesh.
