CATERING TO OUTLAWRY. It might seem a bit surprising that there should be a holding of American army officers for ransom under threat of death by Mexicans...

It is true of course that bandits are the ones who are directly concerned in this demand for "money or your life" but these bandits are Mexican products. They have no regard for anyone and have carried on their operations for a long time without calling forth sufficient efforts on the part of the Mexican government to eliminate them...

EVERYONE CAN HELP. In connection with the extensive profiteering that has been going on there are those who point out that the people have had quite a little to do with it in the way of lending encouragement even though there is a continuous wall against the high cost of living...

HAS NOT HAD AN HOUR'S SICKNESS Since He Commenced To Take "Fruit-a-tives"

78 Lees Ave., OTTAWA. "Three years ago, I began to feel run-down and tired, and suffered very much from Liver and Kidney Trouble. Having heard of 'Fruit-a-tives', I thought I would try them. The result was surprising. I have not had an hour's sickness since I commenced using 'Fruit-a-tives' or Fruit Liver Tablets, and I know now that I haven't known for a good many years—the blessing of a healthy body and clear thinking brain." OTHER VIEW POINTS. In considering the happy-thought conviction of the mayors of Toledo and New York and Henry Ford that his lines are bound to supplant cars running in grooves, it is well to remember the rise and fall of the jitney. It started up on the Pacific coast, flourished a brief summer throughout the country, and disappeared one reason for its rise lay in the prevalence of unemployment; men whose time was otherwise worth nothing could not put it in as "jitneys". It was soon pointed out that many even of these found jitney operation profitable only by overlooking the items of capital-interest and depreciation; receipts exceeded expenditures for gasoline and repairs; but in a few months the car itself was gone. Now the unskilled laborer can earn \$5 a day or more; gasoline is higher than before the war; the cost of motor vehicles has risen sharply. These volunter bus lines gave indifferent service. It was soon found that reckless drivers endangered pedestrians to an extent for which regulatory ordinances were powerless. The jitneys refused to go to points where full loads could not be picked up, and it was plain that to give them the cream of the traffic without taxation or franchise charges was unfair. A bus service like London's might have advantages in operation over the jitney, but the conditions that favored it for a time have changed so as to be highly adverse to it.—New York Evening Post.

IT is easy to understand why the NEW LONDON COUNTY FAIR has become known, in this County and the whole State of Connecticut, as an extraordinarily good Fair.

The reason is simply the ability of those in charge to look a long way ahead in preparing for the Fair; the fact that all the officials are working with but one interest; one aim in their activities—and that is to make the fair the best in New England.

People have learned to look forward to the NEW LONDON COUNTY FAIR as a county institution, a county necessity. They like to see the results of their and others' labors set side by side and contrasted for the betterment of the crops and stock. They like to meet old friends and compare notes and they like to know that the entertainment for them and their families will be CLEAN and WHOLESOME.

They know from past performances that the exhibits of Fruits, Vegetables, Sheep, Swine, Cattle, Poultry and Live Stock of all kinds—the Horse Racing, the Balloon Ascension and the Parachute Jumping, the Automobile Show, the Agricultural Implement Exhibit and the Mighty Midway, together with the big Vaudeville Show given free daily on the open air stage will be the best. All classes find the NEW LONDON COUNTY FAIR the source of gratifying and really exceptional amusement and education.

subsequent coup d'etat of the Archduke Joseph are not altogether displeasing to some of the ministers at Paris. The French seem especially willing to let the forces of reaction take their course. French military and reactionary opinion does not fear the extinction of democracy in Hungary since that will stem the tide of socialism that is sweeping westward. Worms say a dispatch from Washington says that Archduke Joseph's assumption of authority is regarded with "something akin to satisfaction" by some officials of the state department. It is said further with fine irony, that "it was explained that no steps had been taken by the peace conference to prevent the Hungarians from setting up another monarchy should they desire." Very true. The only steps that have been taken so far by the peace conference should they prevent the Hungarians from setting up a democracy as they have desired.—Waterbury Republican.
