Makes Cooking Easy

Any Time Is Baking Time With A Glenwood

The Easy Rolling Twin Grate Bars, neatly geared to roll forward or back, so quickly clean and brighten the old fire that perfect baking can be done at any time—morning, noon, or night.

The Marvelous Glenwood Oven, surrounded by hot air chambers is under perfect control, and can be uniformly heated to the moderate temperature of 300 degrees for the most delicate cake, or quickly advanced to the correct biscuit heat of 450 degrees.

This is made possible by the Glenwood Balanced Oven Damper and the Patented Glenwood Indicator that accurately registers the heat already in the oven and tells at a glance whether to open or close the sliding air valve. It's so plain and easy a child can understand.

vide old age annuities for all pastors, on reaching the age of 65, of approximately \$100 per month. The plan of the Dean Beard closed the speaking with a presentation more directly applying to the needs of the church. Rev. G. H. Gillett, of Groveland, made a cash contribution of \$666.00, he made clear, in Connecticut's share of the \$2,000,000 as decided on by Connecticut's own leadership. The plan of the state, it is starting just ahead of historic Massachusetts and to Windham county is given the honor of leading off. Nowhere as yet has the drive failed to pass its objective, and it must not here. Mr. Beard then outlined the plan for the campaign, and introduced his team of workers, most of whom were present. He closed with a prayer for the success of the campaign in Connecticut, as a result of which the people of the county, Mr. Beard, after warmly expressing his appreciation of what had been done by the ladies in the kitchen, and paying a tribute to the former pastor of the church, Rev. Frank D. Sargent, introduced Rev. William S. Beard, D.D., of New York, executive secretary of the national commission.

Dr. Swartz made an eloquent presentation of the subject starting by mention of its inspiration, the three hundredth anniversary of the landing of the Pilgrims at Plymouth. He said that them a memorial, he said, not of cold stone, but of living provision for the men who are carrying on their work. Too long the heroes who, amid discouragements and at unrealized sacrifice, are building character into the subject of the campaign. He said that the whole country, have been suffering to struggle with pitiful pay, so that the Pilgrims' day, too often the families, to say nothing of giving them the advantages social justice should assure them, and after their productive years, they face dependence and its shame. Dr. Swartz mentioned a few pathetic instances of the old minister. The result is inevitable. Not only are men leaving the Congregational ministry and their sons shunning it, but the standard of those who are in it is depreciating. The ministry is losing its prestige. It is losing its ability to our Pilgrim history. It has been demonstrated, said the speaker, that board of assessors. At Wednesday morning that new tax forms will be furnished to taxpayers here when they are making ready to prepare the lists that they will file this fall. The form has been prepared by the state board of equalization. Among its new and special features are: One that require all persons making a return to specifically bound each parcel of property in the town. The list, Generalization, such as bounded by Smith on the east side of the road and by John Jones on the west side of the road. The longer the road.
