

Protest Against Leonard Dundee Bout

New Haven, Conn., Jan. 6.—A citizens committee formally protested to Mayor David E. Fitzgerald today the proposed Leonard-Dundee boxing match here on January 16. The allegation was that while announced here as a boxing match it was advertised outside Connecticut as a "champion-ship" match of twenty rounds to a decision, and such events are not permitted under state laws.

TREND OF MARKET DOWNWARD. New York, Jan. 6.—The significant feature of today's market was the reaction which set in on publication of the address of Governor Harding of the federal reserve board at Washington, indicating the country's advising reduction of "uneconomic loans."

There was again a dearth of time money, but call money or demand loans, which opened in free supply at 5 per cent, the lowest initial quotation since the November setback, fell to six per cent later, despite the warnings conveyed in the news from Washington.

Two Big Brothers

One of them is almost nineteen years old. The other is just a baby, born last May. Yet both are big and strong and splendid for they are children of the Giants we spoke about a few days ago.

Then we were talking about bonds. Today it is stocks—preferred stocks—and the older of the two brothers is United States Steel Preferred.

In 1901 the United States Steel Corporation was formed. A man who bought its preferred stock then and still holds it has seen some interesting phenomena. One most comforting sight has been his dividend check every three months for 19 years. He has also seen the stock change places from a purely speculative position involving daily transactions of thousands of shares to a place of such respect with conservative investors as to make the number of daily sales relatively negligible. Still again he has seen it sell as low as \$49 3-4 per share and as high as \$131 per share, with a great many variations in between. Today, it is around \$113 per share and is regarded as one of the safest preferred stocks in the country. It pays 7% and at the present price yields 6.20%.

Standard Oil Co., of New Jersey 7% Preferred Stock is the other big brother. The stock itself is new but the Company behind it has spelled wealth and power to the American people for almost half a century. Three brief items will testify as to how great is that wealth and power today:

Total Net Assets ..... over \$563,000,000
Total Surplus ..... over 463,000,000
Market Value of Common Stock over 700,000,000

The Preferred Stock comes ahead of the common stock and can be bought at about \$115 per share, to yield about 6.10%.
