

NEW BUILDING FOR MAIN STREET

Plans and specifications are under way for a new building to be erected on Main street in the vicinity of the post office building, and to be used as a dry cleaning establishment. Applications for a building permit to erect the building has been made by John Gresson. It is to be of brick and construction with steel sash and is to be 15x25 feet in size and one story high.

Another week of cold and stormy weather has prevented any increase in local building activities which are practically at a standstill.

A number of changes are being made in the lower floor of the Community House (Old Second Congregational Church building) which is being generally remodeled. A new hard wood

floor is being laid in the basement and laboratories are to be installed for men and women. An up to date kitchen is to be constructed and it will have a modern gas stove, cupboards for china, crockery and glassware. There are also to be tables for serving and linen closets are to be built. There is to be a staircase leading from the vestibule on the floor above. The work which is being carried out under the direction of Henry G. Peck will be completed in five or six weeks.

A number of changes are being made in the Mabrey building on Broadway which is being remodeled and which is to be occupied within the next two or three months by the Shetucket Harness company, now located on Main street.

Community Cash Grocery Co.

JOHN S. CONNELL, Manager

NEW LONDON.

Architects are revising plans for the block which will be erected on Main street. It will be one story high instead of two as originally planned. Other than this there will be no changes. The building will be 28x30, of brick, with pressed brick and terra cotta front and side walls. It will have fireproof floors and hollow tile walls, and will be heated by steam. It will contain a number of stores.

At a recent meeting of the school board a committee was appointed to select an architect and go forward with plans for the installation of fire escapes on the public schools in this city. The intention is to build interior fire escapes to the brick schoolhouses and exterior ones on the frame buildings.

Preliminary sketches are being prepared for alterations to the building of Louis Kossow and A. Schier at 89 and 82 Bank street. There will be two new store fronts on the ground floor, retaining plate glass set in copper, while on the floors above will be two apartments of seven rooms each, with all improvements. New plumbing and some new wiring will be required.

M. P. Shea will erect a house on Montauk avenue for Katherine L. Shea of Alger place. It will be of frame construction, 32x54, of the twin cottage style, with eight rooms for each family and will be heated by furnace, as well as being equipped with all modern conveniences. In the rear of the house will be a frame garage, 24x24. The approximate cost of the two buildings is placed at \$8,800.

Frank Duca will build at Fair Harbour place a frame structure arranged for two families, with five rooms for each. All improvements will be provided, including tiled baths, hot water heating system, etc.

Contractor P. O. Hunt has started the work of completing the apartment on Huntington street for Mrs. C. C. Hannan which was commenced some time ago and has never been finished. The house will contain four first class apartments with tiled baths, dumb waiters, steam heating system and all improvements. The cost of the house will be about \$17,000.

Contractor J. A. St. Germain is completing the cottage on Bank street for E. W. Smith.

The new house which J. A. St. Germain is building on Bank street for Harry J. Kennedy is ready for placement. The house is planned for two families, with every modern improvement.

WESTERLY.

A large amount of new construction is contemplated in this village. The company in this place, which is owned almost wholly by the Fiske Rubber Company. The first factory to be constructed will be for the production of high, and will have a capacity of 40,000 spindles.

MIDDLETOWN.

The committee in charge of the erection of the apartment house on the site of the Douglas mansion at the corner of Church and South Main street, has decided to postpone the erection of the building indefinitely on account of the increased cost of construction.

GROTON.

Plans are completed for alterations to the building of A. Leverone. The building, which is at present a barn, will be remodeled into a residence and garage. There will be six rooms and bath. On the ground floor will be a garage, 10x18.

CONNECTICUT BUILDING AND BUSINESS

The bank clearings of Hartford, New Haven and Springfield for the past week show a tremendous gain over the like week of the previous year. In Hartford the increase was 45.5 per cent, in New Haven 45.1 per cent and in Springfield 45.2 per cent.

The six petitions in bankruptcy reported for the past week have aggregate liabilities of \$13,670 and assets of \$1,844. These figures compare with three petitions in the same week of 1919, when the liabilities were \$23,878 and assets \$2,840, and five petitions in 1918, with liabilities of \$23,176 and assets of \$13,270.

Fourteen new joint stock companies were incorporated in this state during the past week, with authorized capital stock of \$817,000. For the like week of the previous year the number of new incorporations with \$246,000 capital, and in 1918 the same number with \$300,000 capital.

There has been a material slowing down in the volume of real estate transactions during the past week, yet the amount of business in this line is greatly in excess of that which prevailed a year ago at this time. In the past week in the Connecticut towns reported in the Commercial Record there were 522 sales by warranty deed, compared with 280 a year ago, with mortgage deeds amounting to \$2,807,400 in the past week, against \$621,794 last year.

STONINGTON.

From the plans of the owner a public garage will be erected in Stonington for R. M. DeGrange of that town. It will be of brick, 32x50, one story high, with flat slag roof on wood trusses. In the rear will be a small wing which will contain the heating plant, the latter not having been decided upon as yet. In the front will be a

He Quit Cigarettes

"I smoked cigarettes ever since a boy. From six to eight packs a day I used to smoke. Cigarettes were doing me great harm. I became so nervous that I couldn't sleep until I smoked. Each morning I had an awful taste in my mouth.

"Several times I tried to quit by will-power, but it didn't work. I would go wild if I couldn't have a cigarette.

"I had almost given up hope of ever quitting until one day I read in a book by Mr. Woods that told me what to do. Following the way I quit easily in 3 days and haven't smoked a cigarette in years. I raised the method too highly. I say to every cigarette smoker, 'you can't quit without help get this book, it is free.'"

The foregoing remarks are like those of many other men who have been freed from the habit of smoking cigarettes, pipe or chewing tobacco.

WORLD UTOPIANS FAR FROM REALIZATION YET

World Utopias are far below the horizon, said Rev. Dr. S. H. Howe, in the course of his Sunday sermon at the temple of God, the church, League of Nations are good things and we want them, he continued, but they will in time prove worthless if they are not based on the community of true and righteous souls, will grow into the symmetry and glory of a temple of God.

Rev. Dr. Howe said that your body is the temple of the Holy Ghost, and he spoke in part as follows:

The temple as a figure of speech for representing spiritual things is used in the scriptures in the New Testament. Always applied to the church or the individual unit, never used of humanity as a whole. We are never told that humanity can be erected into the semblance of a temple, whatever resident forces can be predicated of it. We had better not stake our faith on that sort of idealism. Idealisms are not realizable in universal. Racial, national or cosmic idealism is a delusion and a snare so long as a stream of evil continues to pour in upon the world. World Utopias are far down below the horizon. Leagues of nations are good things and we want them, but they will in time prove worthless if they are not based on the community of true and righteous souls, will fill out the folds of this figure and grow into the symmetry and glory of a temple of God.

St. Paul tells his Christian readers that they as personal units are the temples of God. He had told the Asiatic world. He now tells the European world. What was the surprised wonder when these Christians looked up at the white temples of the Corinthian acropolis, the fairest things the sun shone on, that they were in potency and one day to be in actuality below the horizon. Leagues of nations are good things and we want them, but they will in time prove worthless if they are not based on the community of true and righteous souls, will fill out the folds of this figure and grow into the symmetry and glory of a temple of God.

Much Rheumatism

Local Druggists' No-Cure-No-Pay Offer Attracts Many Sufferers.

"If there are any rheumatism sufferers who have not availed themselves of this generous offer, they should do so at once.

The Lee & Osgood Co. state that if Rheuma, the guaranteed prescription for rheumatism in any form, does not give any purchase quick and joyful relief they will gladly return the cost without any quibbling or red tape.

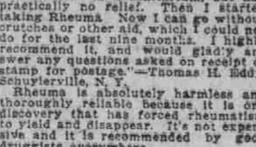

Rheumatism is a dangerous disease, and anyone who has the slightest taint of it should drive it out of the system as quickly as possible. This is what Rheuma did for many, it should do as much for you.

"I have been laid up for one year with chronic rheumatism, says one sufferer. "I had doctors galore, also spent four months in a sanitarium, but had practically no relief. Then I started taking Rheuma. Now I can go without crutches or other aid, which I could not do for the last nine months. I highly recommend it, and would gladly answer any questions asked on receipt of stamp for postage." Thomas H. Sady, Schuylerville, N. Y.

Rheuma is absolutely harmless and thoroughly reliable. It is the only discovery that has forced rheumatism to yield and disappear. It's not expensive and is recommended by good druggists everywhere.

HAIR SOON TOO SHORT TO DO UP

A LITTLE "DANDERINE" STOPS YOUR HAIR COMING OUT AND DOUBLES ITS BEAUTY

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of delightful "Danderine" at any drug or toilet counter for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair usually stops coming out and you can't find any dandruff. Help your hair to grow strong, thick and long and become soft, glossy and twice as beautiful and abundant.

dancers will be the white-souled messengers of the resurrection. These Roman slaves will become the noble army of martyrs. These delicate Roman matrons will one day look unflinching into the eyes of the lions of the coliseum. We must not forget the divine artificer who can put strength and beauty into the work of His hands.

But the wonder grows. Not merely of the soul, the spirit, the essence of personality is this predicted. Your body is the temple of the Holy Ghost. Matter and spirit are strangely interwoven. Matter is the creation of spirit. Spirit is the body and embody itself in spirit. It matters what controls matter. The gray matter in the skull of beast and man is the same chemical ingredients. In one case it hunts its prey, in the other case it dreams with the poets or prompts the passion of the hero. It functions in the ferocity of the tiger and the gentleness of the dove. It is the same in the reasoning of a Plato, or Shakespeare. Hand and claw are alike in substance but in the one instance it tears and rends its victim, in the other extends a beneficence or paints a Sistine Madonna or carves the statue of a Canova. Eye and ear are the same, but it may be the eye of a vulture or the ear responsive to the note of danger; in the other it is ravished with the oratorio of a Handel or the symphony of a Beethoven. The body of the beast may be hurried to dissolution and in the other it may be transformed into finer essences and eternal immortal. In what forms of eternal beauty we shall one day appear no tongue or pen can reveal.

Strength and beauty are coming to this sanctuary, outshining the white splendors of the Parthenon or Taj.

How sacred the personality of those of whom these words can be spoken; how complete the dedication; how careful against defilement. Keep them for one name. Let the carillon of bells peal out the note of acclamation to one who loved and redeemed and puts this great distinction upon us.
