IRISH FREEDOM FRIENDS WILL REMEMBER ENNETT

A public meeting for the anniversary of Ireland's patriot, Robert Emmett, will be held at the Rockville Hotel Sunday afternoon in Foresters hall by the George Washington branch of the Friends of Irish Freedom.

The advocacy self-determination for Ireland has been brought so prominently into notice during the past year that the observance of Emmett's day is being more generally celebrated this year.

Local and out of town speakers are to be on the programme for the Rockville celebration and some well known singers will take part in the exercises.

HADASSAH MASQUERADE CELEBRATES PURIM SEASON

The Hadassah chapter of Hadassah held a masquerade Wednesday evening at the Buckingham Memorial as part of the celebration of the Hebrew festival of Purim which had an attendance of over 140 guests, many of the dancers being masked.

The prizes for the best costumes were awarded to Mrs. D. Lazarus of New London, Mrs. J. H. Wood of New York, for many years secretary of the Missionary Society of the Episcopal Church, who made the address.

The committee of the church, interested in the Father and Son idea, were represented not only on the committee in charge but in the attendance.

The banquet menu was served at 8:30 o'clock by the Woman's Auxiliary of the Y. M. C. A., and during the course of the supper there was music by the vocalists, Henry LaFontaine presiding at the piano.

Allyn I. Brown, chairman of the boys' work committee of the Y. M. C. A., was toastmaster of the evening.

Dr. Wood is a well known speaker, he introduced Rev. C. L. Kenagy, assistant pastor of the Central Baptist church, whose topic was Father and Son.

Mr. Kenagy expressed appreciation of what the Y. M. C. A. has done in fostering the Father and Son banquet idea.

A greeting from the Sons to the Fathers was given by Sterrett M. Chase. In the course of his address he said that the greatest educational need is an increase in paternal interest. Fathers, we need you and from now on we are to be your children.

The response, Father to Sons, was made by Henry A. Tirrell, principal of the Norwich Free Academy. It has been my good fortune for some years to teach in Norwich for some years and I have met a great many fathers during that time, said Mr. Tirrell.

He went on to say that he has never seen a father who is not proud of his boy. Every father wants his boy to have greater advantages than he had himself. No matter what sort of a man you are, you are a father. At his boy, I want my boy to be a better man than I am at the heart of every father, said Mr. Tirrell.

The address of the evening was delivered by H. W. Gibson of Boston, secretary for Massachusetts and Rhode Island. This is Mr. Gibson's third visit to Norwich and he was accompanied by his wife and two children.

Mr. Gibson, after his preliminary remarks to a minister he is a soul; he is a father. He is a man who comes into his legal rights to a policeman he is a sort of human automaton or potential mischief maker. But to a family he is a father. Speaking directly to the boys, he said: The boy of today is the hope of tomorrow. And then turning to the fathers, he said: The trouble with a lot of men is that they forget that their boys are men. They just think back for enough to their boyhood days, the boy of today will become a new being.

The man who insists on taking home every night laughter and play will see reflected on his boy's face, laughter and smiles. When a boy's father becomes his instructor in life there will be no danger of that boy going wrong. When I see a girl of fifteen or sixteen with an enameled face and "coodle garage" I ask myself, where is that girl's mother? The mother who has not seen her child through a straight life and it is time the home took a hand. Mr. Gibson told several touching stories that went right to the heart of his hearers and in closing he told in a very interesting way his idea of the ideal boy. Edwin Hill, general secretary of the Y. M. C. A., presided at the evening to a close with prayer.

During the programme there was singing led by M. M. MacGorill, the soloist. The programme was in charge of the evening comprised A. S. Knowles, chairman, J. B. Stanton, Rev. C. L. Kenagy, Arthur L. Peck, Henry D. Johnson, Myron B. Prentice and Charles D. Grover.

CITY PLANT MUST CUT OFF ELECTRIC POWER AFTER SIX O'CLOCK TONIGHT

Local manufacturers who depend on electric power for the operation of their plants will have to suspend operations after 6 o'clock tonight (Thursday) as the show of bright minus coal at the Norwich Gas and Electric plant has become so critical that it has become necessary to discontinue the distribution of electric power from that time until further notice. The action does not affect the street lighting or house lighting at present. An advertisement is being placed in this issue (Thursday) morning by the gas and electric commission.

This measure was adopted to conserve what little coal there is at the plant to furnish light and this together with the power received from the Gasco Power Company, which company generates by water power at Scotland, will keep the lights of the city burning. Even with the auxiliary power from Scotland it would be a good thing if people and business places would curtail on the use of light as much as possible during the night.

The plant on Wednesday was notified that there would be set for unloading in the afternoon. The unloading was thought to be completed when the cars arrived it was found that only two cars contained coal and these were only part full while the other cars were empty.
