Sworn Statement of the Composition of the FORMULA of Nuxated Iron

It is conservatively estimated that this remarkable formula is now being used by over three million people annually. Among those who have used and strongly endorse it are many physicians who have been consulted by the best hospitals and medical societies...

opinion possesses superior qualities to any other known form of iron. By using other forms of iron, Ferruginous we could have put the same quantity of actual iron in the tablets at less than one-fourth the cost to us, and by using metallic iron we could have accomplished the same thing at less than one-twentieth the cost...

CHARLES OSGOOD CO., LEE & OSGOOD COMPANY.

DANIELSON AND PUTNAM

The voters in a largely attended special town meeting Tuesday afternoon showed Killingly's good will toward the Goodyear Mills Company, Inc., and the community's desire to fully cooperate with the great industrial concern in its development work here by unanimously voting to authorize the construction of an eight-room school house...

Nearly 400 voters crowded into the town hall to pass upon the question, which was one of the most important considered here in a long time, and it was particularly gratifying to the citizens interested in favor of the proposition as well as to the Goodyear Mills company, that the proposition was unanimously put through without a dissenting voice on the resolution introduced by Robert W. Boys of Goodyear.

The campaign to kill off the making of the appropriation was not productive of visible or audible results in the meeting, although it had been spread as propaganda for two days past that at least 100 men who had been interviewed were unanimously opposed to making the appropriation and would vote against it.

The very representative meeting is regarded as having truthfully reflected the opinion of the great majority of the townpeople in the unanimous vote for the building and the appropriation.

Judge Sabin S. Russell presided as moderator and Frank T. Preston was clerk of the meeting. Chairman N. Lorne Greig, Dayville, of the town school committee addressed the meeting, his statements including a general review of the town's needs as the school facilities, which are inadequate at present and will be more so by fall.

R. W. Boys, Goodyear, member of the town school committee and agent of the Goodyear Mills company, addressed the meeting in behalf of the building program and showed a map of Goodyear village and a draft of the proposed school house, which would provide facilities sufficient for Goodyear's present needs, he said.

The resolution also instructs and authorizes the town school committee to sell and convey to the Goodyear Mills company the present schoolhouse at Goodyear and to give possession thereof at the end of the present school year, providing the Goodyear Mills company pays the town of Killingly a sum equal to the original cost of the building, the sum so realized to be used by the town school committee toward meeting the cost of the new structure.

Dr. C. H. Kingsbury offered an amendment to this resolution, the amendment providing that there be appropriated \$12,000 to build a four-room school, equipment with fire escapes, and naming Selectman John A. Gilbert, Selectman James Bacon and E. Bitgood as a building committee.

N. Lorne Greig opposed this amendment and pointed out that such a four-room structure could not be built for \$12,000. When the amendment came to a vote Dr. Kingsbury's voice was the only one raised in support of it.

The vote on the Boys' resolution, which had been seconded by Alma Forcier, Goodyear, then came and was unanimous.

Dr. Kingsbury then suggested that J. A. Gilbert, Town Clerk Frank T. Preston and N. Lorne Greig be named as a committee to arrange for financing the building program and that they report at a later meeting of the town.

Atorney Harry E. Back stated that the present is not the time for arranging the permanent financing and that this part of the business be left until such a time as it may be more definitely known just what needs be done, and this suggestion was followed.

Agent Boys of the Goodyear Mills company, said after the meeting that he was delighted with the outcome and that the people of Killingly will have no cause to regret the cooperation with the Goodyear Mills company, which is only just getting into its development stride in Killingly.

Trucks from Danielson were there taking off freight shipments from Providence which had been cut out from trolley communication with Danielson since February 4.

The arrival of the trolley express at Elmville, only two miles out of Danielson, center of the Rhode Island company, which has had a force of men at work opening the line from East Killingly.

Robert T. Hurley, captain of the state police and well known in Danielson, is being boomed in here for the appointment as warden at the Connecticut prison, and it is stated that he has a strong backing.

A number of Danielson's young men, led by Harry Adams, are making their way through from Providence, A. machine that came over there Little Post route ran out from Providence in three hours.

PEGGY HYLAND "The Web of Chance" A COMEDY DRAMA ABOUNDING IN FUN, SEASONED WITH THRILLS AND FLAVORED WITH SENTIMENT PRIZMA

English, an Henry P. Duhic was called as an interpreter of French. Under the direct examination by Attorney Searls, Mr. Godreau said that he was one of three employees who were with M. P. Jordan, working in a gravel bank beside the state highway, on the afternoon that the accident occurred.

Under questioning, Mr. Godreau related that he was standing near the mouth of the gravel bank when a man driving a Ford came along and called to ask for directions to get to Brooklyn. Mr. Jordan went out into and across to the westerly side of the highway to give the necessary directions to the traveler, whose name or place of residence is not known, and according to the witness, Mr. Jordan stood beside the seat of the car talking to the driver and Godreau stood near the rear wheel nearest the center of the road.

Having obtained his directions for getting to Brooklyn the man in the Ford drove off, Mr. Godreau testified, and then Mr. Jordan and the witness turned to walk back across the road to the gravel bank, on the westerly side of the highway. Mr. Godreau said that he and Mr. Jordan were walking side by side, Mr. Godreau on the left, from which direction the Como car was coming, when he was struck by something and he doesn't recall anything that transpired between that and the time he became conscious again during the time taken for the hospital in this city. The operation developed nothing of special interest. Court recessed at one o'clock for the lunch hour and came in again at 2 o'clock.

Peter Bernier testified that at the time of the accident he stood about four feet from the curb line. He stated that a Ford car drove up, and that Godreau and Jordan went to the left hand side of the vehicle facing south. Having given some information concerning the road to Brooklyn, Godreau and Jordan started to return simultaneously with the starting of the Ford, which had kept its engine running during the time taken for the conversation. He (Bernier) then heard a truck blowing its horn about a hundred feet off, Godreau and Jordan had seen about 15 or 14 feet toward the bank, and were but a step or two from the left side of the road when a truck, driven by Jordan and carrying Como (both of whom he identified), struck them and dragged them 45 feet, at that point dropping them, then proceeding for a distance of 35 feet before it finally stopped. The point where the truck stopped was in the witness's estimation about 45 feet from the point where it struck them. When picked up, Jordan was lying expiring in three minutes without regaining consciousness. Bernier testified that there was plenty of room to the right side of the road rather than going to the left where Godreau and Jordan were standing. As to the speed of the truck, the witness judged it to be fifteen or twenty miles per hour.

Julian Benos and Joseph Potter were also called, and corroborated the testimony of the previous witnesses. Putnam High School basketball team was defeated by Bartlett High of Webster in the first post-season game for the Quinebaug League Championship. Putnam was hampered by the small floor, together with other unfavorable playing conditions and never secured a start, which all looked toward the 24-15 score. This does not shake the confidence of either the Putnam players or rooters as to their supremacy, and will endeavor to justify their stand by beating Webster at Putnam and on a neutral floor. The league meeting to be held today will decide Tourtelotte's protest, and may give the Grovesendale team another chance at Webster, with a chance, perhaps, of a different opponent for Putnam for the cup.

Friends here of Captain Robert T. Hurley of the state police are much interested in the announcement that he is being mentioned in influential circles for appointment as warden of the state prison at Waterbury to succeed Warden C. McLaughry when that official's resignation becomes effective. It has yet to be officially acted upon by the prison directors. From throughout the state reports are being received from officials of penal institutions who are favorable to Captain Hurley's appointment. Captain Hurley has handled with marked success some of the most difficult cases which Connecticut officers have had to deal and has undertaken more exceedingly perplexing cases, one of the cleverest in his career being the solution of the arson case that stirred Putnam so profoundly a few years ago. This case made Captain Hurley a widely known name as any officer in New England, and his work in handling it was but the prelude to other big successes he achieved.

Draining operations were under way and plows were being used at the easterly end of Grove street Tuesday in an effort to break out the drifts and clear away the pools of water that have been causing such difficulties to travel at that point. The work done Tuesday made conditions materially better, though there is a heavy ice coating that must wear off before the cement highway can come into use.

Abington Extension School, starting Tuesday of last week and ending on Friday night, was more successful than last year in spite of the traveling conditions. An average attendance of men and women of 70 a day, making a total of over 250, made the school highly successful, not only from the standpoint of numbers, but from the standpoint of enthusiasm. The school showed itself to be an agricultural business proposition by the organization that took place on the last day. With the feeling that there was need for a more complete direction of the agricultural projects in the town, to be carried on cooperatively with the Windham County Farmers' association, the following Community Committee was appointed to work with John R. Stromberg, Pomfret town director of the Windham County Farmers' association: F. C. Hildner, Fruit & Poultry Project leader.

SOUTH WINDHAM Mrs. Maria Horton Chappell, the oldest resident of Seekonk, and one of the oldest persons in this country, observed her 105th birthday March 11 at the home of her daughter, Mrs. Francis B. West, on County street, at Luther's Corners, Seekonk, R. I. Mrs. Chappell received a number of her relatives and friends, among her guests being her son, Herbert R. Chappell, of Williamstown, who with his wife is making her a visit. Mrs. Chappell presented his mother nine dozen carnations, as is his custom each year. Mrs. Chappell is able to walk about the lower part of the house with assistance. Although suffering from dimmed vision, she retains her faculties to a remarkable degree. Her mind is strong and vigorous and she takes a keen interest in events of the day. Mrs. Chappell was born in Tehobah, near Swansea, March 11, 1815, the daughter of Eliphet and Mary Chase Horton. She married Ralph A. F. Wood "The Local Undertaker" DANIELSON, CONN Parlor & Mechanic Street

"Grippe" Leaves Kidneys Weak The epidemic of colds and grippe that has been sweeping the country has seemingly left even a weaker condition than the weakened, rundown condition from which there is but a slow recovery. Much of this weakness affects the kidneys and bladder, making it difficult for them to perform their natural functions. Sufferers have to get in and out of bed half a dozen times a night. Backs are weak and painful, sick headaches and dizziness are common symptoms. No serious trouble may exist but the time to check such symptoms is at once before matters grow worse. The complicated treatment may be needed if a few doses of a good safety kidney regulator like Solvax is taken right away. Solvax straightens out an ordinary case of weakened kidneys in about twenty-four hours in many instances, relieves and neutralizes poisonous uric acid and drives the clogged up poisonous kidney waste from the body so that you can begin to feel better right away. Solvax is harmless, contains no alcohol or habit forming drugs, and Lee & Osgood Co. and other leading druggists will inspect your full purchase price if in any case it fails to give entire satisfaction.
