THE JERSEY PETTICOAT. HAVING A GREAT VOGUE

With the present dress skirt, the only petticoat which can be worn with comfort and without marrying the effect of the skirt is one of the handsome Jerseys which the stores are featuring. These underskirts are thin and clinging, have an adjustable band, come in green, navy and black and are finished with a smart deep ruffle of accordion plaited silk or satin. Some a petticoat is priced from \$7.95 up. Some women still choose the silk undershirt, and for their demands are displayed some beautiful models in navy, cardinal and champagne tints, or in colors ranging from \$6.95 to \$10. Lightweight and always a favorite is the heather-bloom petticoat, which is developed in figured fabrics the price-range beginning at \$2.48. Of all the designs shown, the Jersey will give the best satisfaction, in some ways, because every woman is aiming at silhouette effects. The finish is fascinating in its smartness, but the skirt itself is almost glove-fitting, so that there is not a wrinkle to detract from the sleekness of the power. Look over the display of these fascinating Jerseys while on a shopping tour for Spring apparel. Merchants advertising with The Bulletin have these charming garments in stock. LADIES! LOOK YOUNG, DARKEN GRAY HAIR. Use Grandma's Sage Tea and Sulphur. Brush it through hair. Gray hair, however handsome, denotes advancing age. We all know the disadvantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold. Don't say gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Witch's" Sage and Sulphur Compound, which is made by the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears, after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.
