PUTNAM
(Continued from Page Six)

standard time. Mayor A. W. Marcy advised Friday that clocks and watches not to be moved an hour ahead to night or tomorrow, and that the present time be adhered to. The mayor suggests that those who feel that they would like to follow the daylight saving plan may do so as individuals, this applying even to the opening or closing of a store, stores, or other business places.

There seemed to be a decidedly strong feeling here among business interests on Friday that Putnam should not adopt for itself a time schedule so much at variance with the time in surrounding towns as to upset and injure the normal progress of business here. Later, perhaps a month from now, the daylight saving plan may be put into effect here, as it will be done then in many places in Massachusetts and Rhode Island. The railroad will not change its running time for trains at present, though a new time-table is looked for in about a month.

A farmers' institute is scheduled to be held in Thompson April 13. Tomorrow, Palm Sunday, there will be special services in the churches of Putnam.

Schrift Charles E. Gates of Williamsville was a visitor in Putnam Friday.

A 24-passenger bus that is to operate between North Grovesend and White River is brought to this city Friday to complete arrangements for properly licensing it.

Putnam High school basketball team won the championship of the Quinebaug Valley League by defeating Tourtelotte High school of Grovesend 48 to 22. The Putnam boys gave the victors a very striking exhibition of all the fine points of the game. In all departments Tourtelotte was left far behind. The Putnam team, passing and guarding far past them. Nevertheless the Grovesend boys played a game contest, never letting up efforts till the final whistle. The Putnam quintet brought down fully 90 voters who cheered the victory. The hall was packed, making the financial end a success. This victory entitles Putnam to the cup given by the Quinebaug Valley League. A handsome trophy, fully a foot and a half high. Putnam's fast man, Woodson, who all agree, is the fastest man in the league. Woodson, came into his own after having suffered an unlucky season in shooting. Woodson counted sixteen of Putnam's score, with Captain Dobson close behind with an even dozen of points. Cotter and Nelson stepped up the game with their customary pep while Low guarded Putnam's basket, so that Tourtelotte suffered consequently from a dearth of baskets. The team's remarkable year in which they lost but three games out of over twenty-five, is due not only to the boys' honest endeavors to play their best, but to the coaching of Eugene W. Ellis, submaster at Putnam High school, who has devoted devoted time and effort to make the team a success, and much of the credit is due to his work that Putnam after a four years' lapse again won the much coveted championship. The lineup:

Putnam Tourtelotte
Cotter Right Forward Bentley
Woodson Left Forward Tourtelotte

Low Right Guard
Left Guard Gelsler

BUYS MORE THAN MILLION IN WAR SAVINGS PAPER

More than a million dollars worth of war savings securities—treasury savings certificates, war savings stamps and thrift stamps—have been sold thus far in New England according to an estimate just made by the savings division, First Federal Reserve District. Although the official figures just available for the first two months show sales totalling \$385,169, as the sales in February alone amounted to \$324,073, March thus far must have carried the total well above a million. The sales per capita for New England in February amounted to \$0.56 and for the year \$0.12.

Rhode Island is the leader per capita both for the sales in February and the sales for the year to date \$0.10 and \$0.25 respectively. The sales in Rhode Island in February amounted to \$64,371, and since January 1 (to March 1) \$141,876. The showing in the other states is as follows: Maine for February \$20,252; since January 1, \$65,453. New Hampshire \$37,665 and \$97,946. Vermont \$10,590 and \$32,322. Massachusetts \$155,284 and \$430,796. Connecticut \$0.04 and \$0.11. Connecticut \$0.04 and \$0.11.

New England, it has just been figured sold more than its proportion of war savings securities compared with population in the year 1919. The First Federal Reserve District comprises 5.9 of the population of the country, and its sales of these securities amounted to 7.1 of the total sales for the country.

considerable local interest in the state of affairs that will result in New York city and nearby cities and towns across the Jersey state line. After Sunday the commuter who lives in Jersey and works in New York will find himself an hour late when he arrives in his office in the metropolis. And when he leaves his New York office at 5 o'clock for the 5.15 expecting to arrive home in Jersey at 6 he will have another shock when he finds himself home at 5.15 fifteen minutes before the hour at which he boarded his train in New York.

All because one place will be on the daylight saving time and the other will not.

BAKERY TRUCK UPSETS IN BISHOP'S CROSSING MUD

The thaw seems to have played havoc with the roads in the vicinity of Round Hill in Lisbon. It was reported that there was a large mud hole in that vicinity and that it was impassable for heavily laden trucks, as throughout Friday at least 12 trucks were stalled in the mud hole. There is another bad place near the school house a little ways above Bishop's Crossing at which many trucks were stuck. Friday morning a truck that came from Providence to deliver packages in this neighborhood, in trying
