

WESTERLY

An act favorably reported by the judicial committee in the Rhode Island general assembly, which would enable women to vote, provides for assessment of poll tax against them. An act referred to the same committee authorizes the appointment of honorably discharged soldiers and sailors to the police and fire departments.

An act passed which would allow the rate of four per cent. beer by clubs, reduces bond from \$1000 to \$500, reduces fees and gives town councils power to grant licenses.

Another act passed increases \$200 the appropriation for the payment of janitor service in the court house at Westerly.

The act passed in concurrence which increases the pay of chief of police from \$2500 to \$3000, deputy from \$1500 to \$2500, and makes the salaries of these assistants \$2000 each. The salaries of clerks of superior courts are increased from \$1700 to \$2200.

A resolution was passed providing for the use of the state army at Westerly, by the Rhode Island Onees, of the fire department.

The act permitting the drainage district of Westerly to increase the bond issue for sewerage to the amount of \$50,000, was reported favorably by the committee on corporations and went to the calendar.

An act was passed giving the board of public roads power to condemn land for highways.

Under an act passed, license fees for hunters is raised from fifteen to twenty-five cents, and provision is made for special six-days licenses for non-resident fox hunters, invited by incorporated sporting clubs.

By authority of an act passed, the name of the Rhode Island Normal School is changed to Rhode Island College of Education, and the trustees are empowered to grant degrees.

The council of North Kingstown has voted that the pay for double teams shall be \$5 a day for nine hours, \$4 for foremen for nine hours, laborers 40 cents an hour, truck and drivers \$2 per hour when working on town roads, and \$6 for nine hours a day for single teams.

Mrs. Hannah M. Merritt-Chebro, 81, wife of Elbert L. Chebro, died on Tuesday at the Mission Home, Wallingford. Funeral services were held at the home Wednesday afternoon, and the committal service will be at River Road this (Thursday) afternoon. Mr. and Mrs. Chebro have been at the home more than twelve years. Mr. Chebro was a former watchman at the plant of the Westerly Woolen company. Mrs. Chebro was a sister of the late Perry Kenyon. A son, Perry Merritt, is a resident of Voluntown. She has a number of relatives in New London county and in Westerly and vicinity.

The benefit concert in aid of the Blind Soldiers' Children fund, under the auspices of Loyal Order of New England lodge, Independent Order Odd Fellows, Manchester Unity, in the town hall, Wednesday evening, was a musical success, and was fairly well attended. The program featured piano selection, Albert R. Bailey; vocal solo, Wilfred Blackburn; cornet

RHEUMATISM Leaves You Forever
Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every woman in this county is authorized to say to every rheumatic sufferer that if two bottles of Allenru, the sure conquerer of rheumatism, does not stop all agony, reduce swollen joints and do away with every the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenru has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitious and where the patient was helpless.

Mr. James H. Allen, the discoverer of Allenru, who for many years suffered the torments of acute rheumatism, desires all sufferers to know, that he does not want a cent of anyone's money unless Allenru decisively conquers this worst of all diseases, and he has instructed Lee & Osgood Co. to guarantee it in every instance.

This is No. 3 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's VapoRub may be of value in this condition.

Few of us escape measles—it is one of the commonest of childhood diseases. Every mother knows the symptoms, but the mistake that most mothers make is in failing to realize that the child is not fully recovered after the eruption and fever disappear. The air passages are still inflamed and if this inflammation is not cleared up, the air passages may be weakened, thus paving the way for pneumonia or serious disease of the lungs.

Nightly applications of Vick's VapoRub will aid nature in relieving this inflammation. Because Vick's acts locally by stimulation thru the skin to draw out the inflammation, attract the blood away from the congested spots and relieve the cough. In addition, the medicinal ingredients of Vick's are vaporized by the body heat. These vapors are breathed in all night long,

bringing the medication to bear directly upon the inflamed areas. Children's digestions are delicate—easily disturbed by too much "dosing." Vicks, therefore, is particularly recommended since it is externally applied and so can be used often and freely without the slightest harmful effects.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying, swallow a small bit of Vicks the size of a pea.

Samples to new users will be sent free on request to the Vick Chemical Company, 233 Broad Street, Greensboro, N. C.

A United States Army MAN

THERE is a Canal at Panama, linking two great oceans and carrying the commerce of the world. For a hundred years and more men dreamed of that Canal. De Lesseps had the dream and failed, and the bones of men and wreck of machines remained to mark his failure.

It seemed a task almost impossible; yet that task was done.

It was done by United States Army men.

In Cuba and Porto Rico yellow fever once claimed victims by thousands.

Yellow fever is no longer a menace in those islands. A great physician and his aids helped the people of those islands to conquer it forever.

And they, too, were United States Army men.

In the Philippines a new civilization is arising; and its foundations are laid upon the courage and devotion of United States Army men.

You think of the Army as an instrument of war, and well you may; for the record of its men in France and Flanders will live as long as history is written.

But the Army has tasks of peace no less heroic—tasks that mean a safer, and a better world.

It is for those tasks that the Army asks three years of the lives of America's best young men.

To those men the Army promises sturdy health—an asset for their business success in all the years to come.

It offers them opportunity for training in a useful trade. It gives them good food, good clothes and good care. It trains them to responsibility,—it develops character and mind.

It promises them travel, and the knowledge of other lands, that will make them citizens of the world.

The United States Army seeks no inferior applicants. It wants men of whom it can be proud, during their enlistment, and in all the years to come.

Men who will look back twenty, thirty, forty years from now and say:

"Those years were the most valuable of all my years of training.

"They gave me health, and skill, and the capacity for managing men. They gave me a chance to share in giant tasks.

"I am proud of the record of those years, and of what they have meant in my success.

"Proud that I, too, for a little while, was a United States Army man."

UNITED STATES ARMY

THE 14 ARMS OF THE SERVICE

The Recruiting Sergeant can give you the information that will help you decide which branch fits you best. In all of them you will get the fine training as a soldier that the United States offers all its men—in many branches you can get highly specialized training.

INFANTRY—The men who have made the name of "doughboy" feared and respected throughout the world welcome you to the comradeship. Fine fellows—good fun and good training in any school at the post you go to.

CAVALRY—When the horses are champing at the bit and the "yellow legs" mount up and the troop rides forth, there is a thrill that no old cavalryman can ever forget. A horse of your own—a good outdoor life and training for future success.

FIELD ARTILLERY—"Action Front" comes the command—then watch the boys with the red hat cord snap into it. A happy outfit—with the dash of mounted service added to interesting work that calls for head and hand. Motors if you wish.

CORPS OF ENGINEERS—Army engineering is known the world over for its excellence and an enlistment in the engineers can be the start of a young man's training in the various branches of engineering and in the mechanical and building trades.

COAST ARTILLERY—Living on the sea coasts, guarding big cities with big guns, getting time for study and a wide and good technical training, the C. A. C. man is preparing for a useful life and good pay and is having a good time while he's learning. The C. A. C. also mans the mobile big gun regiments throughout the country.

AIR SERVICE (including BALLOON CORPS)—The man who gets the early edge in experience with aeroplanes and balloons has a chance to cash in big on his army training. For flying is only in its infancy and it's going to be a profitable business for men with the right experience.

ORDNANCE DEPT.—The ordnance appealing to the studious young American. To wide opportunities for study, it adds a business as well as a technical training.

SIGNAL CORPS—Whether it's laying a wire from a reel—cast at a gallop or installing a wireless station that will flash its message half around the world, the Signal Corps is there, and a man who learns radio telegraph and telephone work in the Signal Corps is always valuable.

MEDICAL DEPT.—Good experience, good pay, and training in all branches of hospital work. Excellent opportunity for future success. The Veterinary Corps teaches the care of horses as well as meat and milk inspection.

TANK CORPS—The man who knows gas motors and tractors or who wants to know them is invited to join the Tanks. Radio, machine gun and ordnance work are all parts of the Tank Corps work.

QUARTERMASTER CORPS—The Corps that feeds and clothes the Army offers a valuable training for future business. Interesting work for the man who likes horses in the Remount Service.

CONSTRUCTION DIVISION—Practical work in the many trades is part of the every day life of the Construction Division. Many opportunities to learn the trades of highly paid specialists.

CHEMICAL WARFARE SERVICE—For a man with a little knowledge of chemistry or for any ambitious young man who would like to get that knowledge, there is interesting work and rapid advancement in the C. W. S.

MOTOR TRANSPORT CORPS—A thorough practical training in motors and their accessories, and in driving as well, is given in the well-equipped schools of the Motor Transport Corps.
