KIDNEY TROUBLE AND RHEUMATISM DRIVEN AWAY—GOLDINE DID IT

Kidney trouble and rheumatism go hand in hand together in most cases. Where you find one, you find the other. Rheumatism is really uric acid condition of the joints and muscles. And where you find both these diseases you find a dangerous and serious combination for nothing can poison anyone's system like uric acid.

When the formula for Goldine No. 2 was being planned, a careful study was made of hundreds of herbs and their power for combating uric acid. Only a few passed the test at the laboratory from different corners of the world. However, the Goldine Co. imported a large supply of Goldine No. 2, as it had done and are now used in the manufacture of Goldine No. 2. The formula has been carefully tested in the best of the government offices in Washington, where it is on file, and Goldine No. 2 is the only remedy on the market which has this extraordinary ability to drive away kidney trouble and rheumatism.

Mr. Elmer Peck of 495 "River St., North Adams, Mass., says: "For three or four years I was troubled with my kidneys, bladder and rheumatism. The rheumatism got in the joints all over my body and gave me terrible pain. I would have to get up every hour during the night just as regular as a clock struck. I could hardly walk and was miserable. A friend told me I should try Goldine No. 2, as it had done wonders for him. I got some of the drug store and I find myself so much better. It seems to be the only thing I had every other medicine I had tried. Goldine is a wonder."

Get your Goldine No. 2 at G. G. Eckler's Drug Store.
