

ANTI-FAT

Art thou stout and getting stouter?
Stop repining—cease to moan;
Hie thee to the nearest drug store—
Ask for "Tablets Arbolone."

II.
Arbolone will stop that craving,
Make thee normal—that's well
known.
Thou'lt forget that hungry feeling,
After taking Arbolone.

III.
And the pounds away will dwindle—
Waist no longer like a zone;
Thou'lt be thankful to the maker
Of those Tablets Arbolone.

Note—This little poem was written
by a literary woman of Los Angeles,
Calif., as a testimonial to Tablets
Arbolone. It so aptly and truthfully
describes the virtues of this well-
known anti-fat medicine, proprietors
use it for advertising. Facts and
gratitude are both expressed with ad-
mirable rhythm and metre.

TWO FARM BUREAU APPLICANTS

Two vacancies in the offices of the New London county farm bureau have just been filled by the executive committee which had appointed Harold F. Johnson of Newport, Vt., as county agricultural agent and Miss Gladys H. Stratton of Massachusetts as home demonstration agent.

Mr. Johnson is to assume his duties on May 3, filling the position made vacant by the resignation on April 1 of former county agent Walter S. Marsland, who has been transferred to his new field on May 13. She fills the position formerly held by Mrs. Clarence Savage, now of Mansfield.

Mr. Johnson has spent three years as county agent in Orleans County, Vermont, where he has been doing very successful work. He is a graduate of the State Agricultural College, Burlington, Vt., class of 1914, and previous to taking up county work he was in dairy extension work in Vermont for two and one-half years.

He comes to New London county highly recommended by those who are familiar with his record in Orleans County. In addition to his experience in dairying, he is familiar with farm problems and the possibilities open to the farming community in Vermont.

Miss Stratton is a native of Vermont and took her home economics training at teachers' college, Columbia university. For the past two years she has done very successful work as home demonstration agent in Essex county, Mass., where the women carried on an active program under her leadership. She placed special emphasis on clothing groups in which the women in a community learned to draft special patterns to their own figures and to make various kinds of dresses, using these patterns. In this way, dresses were made with practically no fitting. Instruction was given in a similar way in making an attractive address on the women of New London county.

She has expressed a desire for group work in clothing and Miss Stratton comes there particularly well equipped to assist the women in carrying out such a program.

Y., from internal injuries, as a result of an automobile accident at Westport, where the machine they were riding in with seven other passengers crashed into a telegraph pole at 12:10 Sunday afternoon.

Both were brought to the Lawrence and Memorial hospital at New London, where it was said Penders' condition was critical. An X-ray examination will be necessary to determine the extent of Miss Hennessey's injuries. Rev. J. Romeyn Danforth, pastor of the Episcopal church, but they were not detained at the hospital. Their names could not be learned Sunday night.

To furnish food for the Chinook salmon with which Gardner Lake was recently stocked four cans of smelt, numbering about 1500 of the small fish, have been put into one of the brooks that empty into the lake. The smelt were taken from the Shetucket river by John Jencks and taken to the lake by Dr. J. J. Donohue and C. V. Pendleton on Friday night.

MISS BOAT-TRAIN BY MISCALCULATION ON TIME

Something like 30 or 40 people missing the boat train from here Sunday night through miscalculation of the application of daylight saving time was the only serious result reported on the first day of the new scheme. The error will prevail till the last Sunday in October.

During Saturday evening John A. Ferguson, the jeweler, made the rounds of the 40 or more clocks in his charge in the city, offices, town hall and churches, moving their hands an hour ahead so that they might announce the new time when the daylight hours of Sunday arrived.

With the exception of St. Patrick's church, which will not go on to the daylight saving time until today (Monday), church services in the city were held on the new time. The St. Patrick's church bell rang as usual at 7 o'clock, standard time, so that the parishioners were reminded of the hours for their services.

The Connecticut company trolley cars on Sunday went on daylight saving time in this city. This change was necessitated by the adoption of the daylight saving by local factories. The company has been operating on the daylight time schedule in New London for the past two weeks.

The Shore Line company will also adopt the new schedule on its lines in New London and on the Groton and Stonington road.

In order not to be continually confused in train service, trolley service and in the scores of other ways possible through the change of time, the city will adopt U. S. submarine time as Greenwich time, the daylight saving time today (Monday) and continue until further notice. The naval department does not recognize any other time zone, except that of Greenwich time. Therefore, the time at the base is purely local for the naval men there.

Famous Manufacturer Makes Connection Here

Winchester Company Appoints Eaton Chase Co. its Representative to Sell New Products.

The appointment of Eaton Chase Co. to sell in this community the new hardware and sporting goods manufactured by the Winchester Repeating Arms Company, is announced. And in the opinion of leading merchants it is one of the most interesting and important developments the local retail trade has known.

First his family, next his dog, then comes his "Winchester," in the love of the best type of American. Almost every family seems to have possessed a Winchester at one time or another, and the love and respect for the good old gun is just about universal. And now that recently there have been many new additions to the Winchester "family," there is wide popular interest in the new contents and other relatives of the famous repeating rifle.

Fifty-three years ago the Winchester repeating rifle was placed on the market by the Winchester Repeating Arms Company, of New Haven, Conn.
