

SCHOOL BOARD APPOINTS TWO TEACHERS

Two resignations from the teaching staff of the public schools were received and accepted, two new teachers were appointed and one teacher transferred by the town school board at its regular meeting in the office of Edward J. Graham, superintendent of schools, Tuesday evening.

The resignations were submitted by Miss Jeanette C. Strachan, teacher of the second grade at Broadway school, and Miss Ruth L. Potter, assistant kindergarten teacher at Broadway school.

Miss Ida Desmarais, teacher of the second grade in Taftville, was transferred to the second grade at Broadway school to fill the vacancy left by Miss Strachan's resignation. Miss Gertrude A. Gallup was appointed a teacher and Miss Marion L. Bailey was appointed assistant kindergarten teacher at Broadway school.

The school graduations are to be held June 24th. The next school year will open September 8th, and will close June 17th, 1921, a week earlier than the closing day this year. The night school will begin its fall term on the first Monday in October.

As the school board felt that the teachers might prefer the 12th payment plan instead of the 10th payment plan now in use, the teachers were asked recently to indicate whether or not they were in favor of this system of salary payment. The teachers, after considering the suggestion, voted against it by a large majority. The board will continue the ten payment plan.

The board, in outlining the work for the coming year, considered the matter of establishing a dental clinic for the school children, and of appointing a physical director for the schools next year, as recommended by the superintendent in his 1919 printed report. The board also had under consideration Tuesday evening the appointment of an additional nurse to assist Miss Charlotte M. Albertine, the present school nurse. Bills were ordered paid. The meeting adjourned about 10:30 o'clock.

What Causes Wrinkles? What's The Remedy?

Stop to consider what produces wrinkles and sagging of skin. Premature aging, mal-nutrition, etc., cause the flesh to shrink, to lose its youthful plumpness and firmness. The skin then is too large for the flesh underneath; doesn't fit tightly and snugly as it used to—wrinkles or sags.

It must be plain that to tighten the skin, make it fit the face perfectly in every place, will effectually remove the hateful wrinkles and bagginess. This is easily and harmlessly accomplished by dissolving an ounce of pure powdered squalite in a half pint of witch hazel and using the solution as a face wash. The ingredients you can get at any drug store, of course. The results are surprising. The skin immediately tightens up, becoming firm and fresh as in youth. Every wrinkle and sag are affected at once.

LEGHORNS TAKE LEAD IN STORRS EGG CONTEST

The Leghorns in the laying contest at Storrs are coming into their own. In the thirty-first week a pen of Blacks finished by F. A. Brizzeo, Oswego, Pa., finished in first place with a yield of 58 eggs. Two pens of Whites owned by Hollywood Farm, Hollywood, Wash., and C. Rasmussen from Dover, N. J., tied for second place with 58 eggs each. Barred Rocks that have been leading the contest for so many weeks managed to squeeze into third place, but this is the only mention they get. It was Oneck Farm's pen from Westhampton Beach, L. I., that laid 58 eggs. Two Connecticut pens of White Wyandottes sent to Storrs from Ocean and Harry D. Emmons from Plymouth, tied a Pennsylvania pen of White Leghorns owned by E. A. Ballard from Chestnut Hill, Pa. These three pens each scored 55 eggs for the week. The total production for all pens was 4188 eggs or a yield of nearly 60 per cent.

Higher egg prices seem almost inevitable. Feed and labor are two big factors in the cost of egg production and both of these are at present higher in price than during the war. It would therefore appear that the poultryman must get more money for his eggs or else reduce the cost by getting more eggs per hen. From time to time there have been made in these columns several suggestions which ought to make for better egg production. A partial summary of those factors that can be almost entirely controlled by the poultryman includes separation of the males after the hatching season, providing an abundance of green food in summer as well as winter, a close inspection of the poultry houses to guard against red mites, making sure that the birds have a bountiful supply of clean, fresh water; all of which are

an aid in getting the maximum number of eggs from any given flock of hens. A great many hens in Connecticut are laying around eight or nine dozen eggs a year and this is not uncommon. The successful poultryman will have to get at least two or three more eggs a month, which would mean ten to eleven dozen eggs a year on the average from each hen.

The three best pens in each of the principal varieties are as follows:

- Plymouth Rocks.**
 Jules F. Francis (Barred, Westhampton Beach, L. I.) 1317
 Oneck Farm (Barred) Westhampton Beach, L. I. 1290
 Merritt M. Clark (Barred) Brookfield Center, Conn. 1188
- White Wyandottes.**

How the henpecked man does crow when he is away from home!

30TH ANNUAL MEETING OF WOMAN'S MISSIONARY SOCIETY

Mrs. Stephen A. Prentiss, president of the Woman's Home Missionary Society of the Methodist Episcopal church, New London, Mrs. Ralph Melcer of the Uncasville auxiliary and Mrs. Walter P. Buck of New London will be among the speakers at the 30th annual meeting of the Norwich District Woman's Home Missionary Society, to be held at the Methodist church, Uncasville, Thursday, June 10. The morning sessions will begin at 10:30 and the afternoon session at 1:30.

One of the features of the afternoon session will be violin solos rendered by Miss Roberta Bitgood, daughter of Mr. and Mrs. Robert Bitgood of New London. Miss Bitgood is a grandchild of Mrs. Prentiss.

NORWICH TOWN

Monday evening, in the Norwich Town chapel, an audience of more than two hundred enjoyed a delightful concert by the Crescent Mandolin club of Norwich, with Frank Bradbury of Hartford, leader. The affair, under the auspices of the W. I. T.'s an organized club of Miss Jessie Hyde's Sunday school class at the First Congregational church; was for the benefit of the chapel repair fund, the proceeds to be divided between the club, the chapel decorations committee, a large jar of iris on the piano and fancy baskets of pink and white flowering shrubs arranged about the platform. The service flag of the W. I. T.'s was also included in the decorations, and each member as well as the leader, Miss Hyde displayed an arm band of green with the club insignia in gold. In behalf of the club, President Marcus Grady spoke a few words of greeting. Rev. Gordon

AUCTIONS

J. C. WITTER, Auctioneer

Office and Salesrooms, 42 Main Street, Danielson.

Public Sale

Having located in Danielson, Conn., and on account of being engaged in a profitable shoe business, I will sell my farm and farming equipment, for which I have no further use, at public sale, for the high dollar, on

MONDAY, JUNE 14,

at 10 o'clock a. m.

as described: One first class valuable black horse, perfectly sound, and an excellent worker and driver, good age, and weighs 1500 lbs.; 2 milking cows, 2 heifers, coming 2 years old, 1 young heifer, 1 one-year-old, 1 yearling, 1 two-seater wagon, 1 Concord buggy, 1 plow, 1 cultivator, 1 hay rake, 1 harrow, 1 grindstone, 1 barrel vinegar, 1 lot of harnesses, scythes, rakes, hoes and small tools of all kinds, also household goods, including an excellent kitchen range.

REAL ESTATE

The farm of 100 acres, more or less, known as the Daniel Higgins place, located three miles southwest of Brooklyn village, on the Brook Hill road, just off the road leading to Westville, is situated on a road leading from Canterbury Green to Brooklyn, will be sold at 12 o'clock noon for the high dollar. Buildings include near new eight-room house with closets, good barn and shed, also hen house. There is an excellent woodlot on this property of 60 acres of hard wood and lumber, also a quantity of poles and ties. An excellent variety of young apple, plum, peach and pear trees and a large strawberry bed are all in fine bearing condition. A crop of potatoes, peas, onions, tomatoes, etc., will also go with the sale of the farm. The terms of sale on the farm will require a deposit of 15 per cent. of the purchase price at the time of sale and the balance when deeds are drawn, unless purchaser should desire to have a mortgage of \$500 remain, without interest, payable \$200 annually. If desired, the sale will be postponed to the first fair day thereafter. Don't fail to attend this auction. Mr. Darrow is positively retiring from the farming business, having already opened a shoe shop in Danielson.

AN HISTORICAL SKETCH

The story of Ivory Pyralin dates back to 1883, when the makers first dreamed of an artificial substitute for tusk ivory.

Ivory is one of the few things that has come down through the ages, perpetual in beauty and magnificence—but to Ivory Pyralin has fallen the privilege of catching up the beauty and caste of ivory and bringing it within the reach of people, everywhere.

Every Ivory Pyralin article is made of solid stock, American made from its very birth, fashioned into hundreds of articles of ivory like toileware of quality and beauty, in plain designs or the popular "Du Barry" pattern. Every article has been given a graining and finish so perfect that it could seem to come only from the centuries-old tusks of some great elephant. The color and grain is standard, each piece matching the other.

So careful are the makers of the reputation of their product that every piece is closely examined and every article showing the least imperfection, the tiniest scratch or oil spot, or the slightest thing to mar its beautiful surface, is thrown aside and classed as "imperfects." These are what we offer in this special sale—THE SELECTED DISCARDS OF THE GENUINE IVORY PYRALIN AT EXACTLY HALF THE REGULAR PRICES.

Although these goods are classed as "imperfects" there are a great many pieces that appear to be absolutely perfect, and in most cases you will find it very difficult, even with the closest examination, to detect the slightest imperfection, in fact they are in every way almost equal to first quality goods.
