which has its headquarters in a Massachusetts city, and the manufacturers have been summoned to appear at the next session of the United States court to show reason why the goods should not be destroyed under the provisions of the pure food and drug act.

The cough syrup, according to the labels on the bottles containing it, is a cure for grip, asthma, croup, whooping cough, tuberculosis in its early stages and all diseases of the throat, bronchial tubes and pulmonary organs. The government alleges that the medicine will not cure any of these diseases or afflictions.

The cough syrup is labeled to be "for babies" and to cure various infantile diseases, from colic to teething troubles. The government contends that it will do none of the things it is advertised to do. The attention of the government was called to the preparations by druggists who received consignments of them and who made investigations of their nature.

After analysis, the government contends that the medicines are not remedies for the ailments they are said to cure. Practically all of the seizures were made in Windham county in this city, Danielson, Willimantic, Moosup and at Plainfield. Stocks were seized also at Norwich and at Waterbury.

Complaints are constantly being made against the practice of speeding automobiles over the new concrete roadway through Grove street. The manner in which some drivers speed their cars through the street constitutes a menace to the safety of any person who may happen to be crossing the thoroughfare and some narrow escapes from accidents have been reported. As ever, motorists who have a license know or should know, the speed limit within a city is 15 miles per hour, but out on Grove street some of the drivers hit it up to 40 and 50 miles an hour.

"Souvenir" W. H. Taylor of Hartford has started something—a post card to which a safety pin is attached, the card bearing the inscription "Safety First—Vote for Harding and Coolidge."
