

LOS ANGELES EXPLODED

Several Persons Were Injured and a Number of Buildings Sustained Minor Damage—Business in Many Establishments Came Practically to a Standstill After the Shock—Public Places Were Scenes of Near-Panics

Los Angeles, Cal., July 16.—Four severe earthquake shocks, the first at 1:10 this morning, the second and third at 1:17 and 1:23 this afternoon, and the fourth at 4:13 p. m., created excitement through Los Angeles and its suburbs, caused damage of a minor nature to a number of buildings and injured several persons. The morning tremor shook mortar from brick walls and plaster from walls and ceilings, sending four persons to the receiving hospital with minor injuries and frightening the majority of the population. The shock at 1:17 was followed so quickly by the third at 1:23 that it was difficult to tell just what damage could be attributed to either of these two shocks. Business in many establishments came practically to a standstill after the third shock, and thirty minutes later the crowds were still gathered in the streets, either awaiting the return of work or interested in learning the extent of the damage. A sharp earthquake shock, the fourth since 1919 today, was felt here at 4:13 tonight. There was no damage reported. While the tremor seemed to center in Los Angeles, some of them were felt more than thirty miles away. Excitement in many cases hysterical, followed the first shock and had been hardly calmed when at 1:17 in the afternoon came the second, followed two minutes later by the third, and then a fourth at 4:13. The two in the afternoon were stronger than that of the morning and the afternoon.

FORTY-EIGHT ATTACKS

"FARMER-LABOR" PARTY

Chicago, July 16.—J. A. H. Hopkins, chairman of the Committee of Forty Eight, tonight issued a statement attacking the newly formed "Farmer-Labor" party and announcing that there was still a demand for a "real new party."

The purpose of the delegates of the Committee of Forty Eight and the Labor Party in meeting to organize a common convention was never consummated, the statement said. A joint convention was never organized, and the committee, which was organized to meet at a joint convention, and, tragically failed to form such a party for all the American people.

On the contrary, the meeting was under the control of a few labor leaders, who, in his judgment, did not represent the desires of the rank and file of labor. Parliamentary procedure was flagrantly disregarded, and the aspirations of the labor delegates themselves as evidenced by frequent demonstrations was smothered.

Purchasement, it was quite apparent from the action of their conference and platform sub-committees—all of whose hearings I attended, and from what occurred upon the platform and in the corridors, that the meeting was determined not only to dominate the proceedings, but to prevent the formation of a party and the adoption of a platform which would benefit the people as a whole, economic programs, by means of which the people could function practically through candidates of their own choosing.

The labor leaders were further determined to form a class party under the control of a machine which rivals in autocracy the methods of the democratic and republican parties and promoters, charged that a tacit agreement existed between county authorities and saloon and race track men to keep New Jersey "wet."

Mr. Wilson asserted that the Volstead act was "openly violated" in Essex, Pa., Union, Atlantic and Hudson counties, where he declared "there is a conspiracy to foster the liquor traffic."

"There is no conscious effort being made to enforce the Volstead act," he added, "due to the desire of politicians to obtain big campaign funds from liquor and gambling interests."

BOSTON "DRYESTS CITY"

IN THE UNITED STATES

Washington, July 15.—Prohibition Commissioner Kramer today awarded the honor of being the "driest" city in the United States, and at the same time said that New York furnishes the worst example of violations of the prohibitory law.

"Probably there are 700 places in New York here the prohibitory law is being violated," said the commissioner. "This shows the big success of the law, however, for New York used to have 11,000 saloons, and are doing our best in New York, but it is a big job. Boston probably is as wet as any other hundred per cent 'dry' city as there is in the United States."

SEVERAL CASES OF WHISKEY

IN AUTOMOBILE COLLISION

Springfield, July 16.—A collision between an automobile truck and a large touring car at the Connecticut state line, between Suffield, Conn., and Agawam today, which damaged both machines, brought to light that the touring car, said to belong in New Haven, Conn., and bound toward this city contained several cases of whiskey. Before the Suffield authorities could get a truck appeared, apparently by appointment with the drivers of the touring car, took the whiskey aboard, and drove toward this city. No one was injured in the collision.

COAL PROTOCOL SIGNED BY GERMAN REPRESENTATIVES

Spa, Belgium, July 16 (By the A. P.).—The German representatives signed the coal protocol drawn up by the allied representatives at 8:45 o'clock tonight, thereby settling one of the most difficult questions which has come up in the present discussion. Signatures were affixed on the document after a four-hour session in which the German and allied representatives spent by the Germans in a cabinet consultation in an adjoining room.

There was a conflict over introduction in the protocol of the menace of occupation of additional German territory after Oct. 15 next, if German coal deliveries were not up to the stipulated quantity—6,000,000 tons—by that date. The allies decided to drop the clause of the protocol before the signature line.

Then the Germans objected to the preamble, which declared that the decisions set forth in the protocol had been taken in common accord by the allied and German delegations. The Germans contended that the German representatives had not agreed to the preamble.
