

DANIELSON AND PUTNAM NEWS

DANIELSON

Herewith is presented a communication to The Bulletin relative to the Chautauqua organization using the park for its entertainments each summer. I want to say a few words through The Bulletin in favor of using the park as a place for Chautauqua. It is the only time in the year that many of the best people even step foot or sit down on the park when Chautauqu comes and furnishes chairs for them and something instructive and amusing while they sit. At other times it is mostly used by those who care nothing for the beauty of it, but find it a good place to spread out every page of a newspaper, leaving it with tobacco cans and cigarette boxes for someone else to clean up. The damage done by the tent and the seats is so quickly repaired that it seems hardly worth mentioning when compared with the pleasure and benefit received by those who attend Chautauqua. And being so centrally located, makes it possible for many to attend who could not go to some other way place. I sincerely hope that objections will be withdrawn, and we may see the burnt tent on Davis park every year. One Much Interested in Danielson as well as Chautauqua. Danielson, August 16, 1920.

Manager W. E. Keach of the Conn. Mills football team, who was in town Monday afternoon that another game has been arranged with the Goodyear team, which has just taken two games from the local team. This game will be played on Monday night at the special section arranged. Where it is to be played had not been arranged up to Monday afternoon. Conn. Mills football team is strong in their contention on Monday that Sunday's game was lost by bad breaks in the luck, and they are anxious to see the organization face each other once more. The class of the Goodyear team is fully recognized here and notwithstanding the two defeats of Conn. Mills by Goodyear is a strong contender for a third game, which may be played a week from next Sunday. Next Sunday, August 21, the Emmets of Foxcroft, team that has beaten Goodyear, will be here to meet Conn. Mills.

Fuses on wires leading into the terminal room at the central station were burned out during the electrical storm of Sunday morning. Chief A. P. Woodward of the fire department said Monday afternoon that the fuses had been repaired and that the fire alarm telegraph system was working again. Chief Woodward said that the trouble experienced on Sunday was not unusual and that it occurs frequently during thunderstorms. The second and probably the last general clinic for killing children is to be held at the Day-Kimball hospital at Putnam Saturday of this week. This clinic is for treatment of small and mild cases, and those who are interested in it in a special way may obtain full information from Miss Miriam Boomer, visiting nurse at the hospital.

Dr. J. N. Perreault will leave at the week end for a vacation to the Saguenay river region of Canada. Judge and Mrs. W. Fenner Woodward and J. A. Bradford motored to Holyoke Monday as guests of J. F. Lewis of the Orphanu theatre. Miss Edna Head is leaving today (Tuesday) to spend the week at her home in Foster. Peter Young, a resident near East Killingly, has returned from a visit to Montreal, Quebec and other points in Canada.

Henry C. McComber of Providence was a visitor with friends in Danielson Monday. Another week is here with no promise of a change in the situation affecting the big manufacturing plants that are closed, or on short time. Daily thunderstorms seem to be the rule in this section of the state at present. There was another heavy down-pour of rain Monday afternoon as a feature of the electrical storm. Mr. and Mrs. Charles S. Francis have returned from a vacation spent on Cape Cod.

Notwithstanding the many prosecutions, some motorists continue to invite arrest by driving machines not equipped with legal lights. John Horton, who has been visiting with relatives here since returning from Chicago, has gone to New York and expects to go from there to Pittsburgh. Mr. L. S. Ingalls of the West Side is leaving today (Tuesday) for a visit in New York. Leonard P. Morrison has sold his farm in the South Killingly district of the town and will make his home in Danielson.

Mention of the fact that Byron D. Bugbee of Putnam would make an excellent candidate for congress on the republican ticket has been made to run, has brought forth statements indicating that he would get very strong support in this part of the state. At his home in Hampton, funeral services for Thomas Smith were held Rev. B. E. Nye of Franklin officiating. Burial was in the South cemetery at Hampton. The bearers were Thomas Riley, William Davis, George Drake, Carl Stahke, Louis E. Kennedy was the funeral director.

See announcement of Miss Josephine Pearce, graduate nurse, this page over. Henry Breava, who was recently operated upon for appendicitis, is nearly recovered. Some of Danielson people are making Moccasin pond headquarters for open air bathing. Killingly lake, near East

PUTNAM

Kenneth C. Ballard and Miss Marion Carpenter of South Main street, Putnam, left Monday morning for Oak Bluffs, Mass., where they will join Mrs. J. Richard Carpenter and Miss Eleanor Carpenter. All will return together Monday next. Ralph Bradford left Sunday for a motor trip to Montreal. Arthur McMahon of 31 Providence street, Worcester, Mass., arrested Sunday night by Officer Ernest Chandler and ordered to report at the Putnam city court Wednesday morning to answer charges of driving an automobile equipped with illegal headlights. He was driving with commercial lens that is not approved by the automobile commissioner.

There is a general impression among motorists in Putnam that by painting with black paint the glass of an unapproved commercial lens they are complying with the law. Captain John H. Blige of the police department states that such procedure does not meet the requirements, and that if a lens is painted, only plain glass can be used. Dr. J. F. MacIntosh, Church street, left Putnam Monday for a motor trip to Montreal. Nearly 1,000 fans were disappointed Sunday afternoon when the members of Thomas McDermott's North Grovesendale base ball team failed to put in an appearance to battle against the Ashlands of Jewett City. The visiting team arrived at the North Grovesendale grounds and practiced for more than an hour, after which it was decided to call the game off. Manager McDermott explained Monday why it was that his Braves were unable to take the field. Seven of his players came from Providence, and on their way to North Grovesendale the machine in which they were driving, tipped over while turning into a bad detour. None of the players was injured, but the automobile was put out of running order. The numbers of the Braves hunted up a telephone and sent to Putnam for a machine to bring them on. The machine that went to where they were called not locate the players, and so came back to this city. In the meantime Manager Tom took another automobile and set out in pursuit of his players. On reaching the point where he had last heard from them no trace of them was found, and so the energetic manager hustled back to the ball grounds and proceeded to return every cent that he had taken in at the game. Soon after this the belated players appeared. They had sent to Providence for an automobile with which to complete the trip. By that time it was too late to go ahead with the game. Manager Tom expressed himself as sorry that the accident occurred, but manifestly it was unavoidable. He promises to repay the fans for their inconvenience Sunday next by giving them an unusual opportunity to see some real baseball, for he has secured an exhibition game with the Boston Americans, and has a guarantee that every regular player except Scott will be in the lineup. James Murray, of the First National Bank, and Jack Slattery, of the Manhusset Company, left Putnam Monday morning for an automobile trip that will take them to Montreal. Attorney and Mrs. Charles L. Torrey returned to Putnam Sunday after passing a week on Cape Cod.

Sunday afternoon when they met the Killingly, also attracts many. Fearing that there will be a coal shortage when cold weather arrives, many families here are placing orders for wood, quantities of which will be available this fall. Selectman James Bacon of Goodyear has demonstrated that there is good profit in growing sheep on farms in this territory. He has just received a splendid return from some lambs sold here. Considerable amounts of soft coal are coming into this territory and going to manufacturing concerns. (The Bulletin is holding several personal items sent for this column, but they are signed by Rev. H. H. Carpenter, Miss Eleanor Louise Brown, of Westerly and Louis Godat, Jr., of Providence.)

FACE A SIGHT WITH PIMPLES
Itched Fiercely. Could Not Sleep. Cuticura Heals.
"By eating too much candy and sweets, little pimples came all over my face. They itched fiercely and almost burned my face off. After a while they started to fester and I was a sight to be seen. At night I could not sleep, the itching was so bad.
"I used many different kinds of Ointment but to no avail. Then I used Cuticura Soap and Ointment. They stopped the itching and burning, gradually, and now I am all healed." (Signed) V. C. Thompson, 5 Riverside Pl., Cambridge, Mass.
