FINANCIAL AND COMMERCIAL

MARKET WAS ACTIVE

New York, Aug. 19.—Sentiment among professional element on the stock exchange today was more cheerful, the market evincing a distinct inclination to throw off its protracted spell of depression.

The better feeling was not, however, accompanied by any pronounced accession of business. Dealings were moderate, except in the final hour, when prices were highest, but representative shares, notably standard rails, figured to an unusual extent in the day's operations.

Improvement was popularly attributed to the more encouraging aspects of the eastern European situation. The trend in that quarter, however was largely offset by fresh weakness in foreign exchange.

Failure thus far of the Anglo-French loan soon to mature here was advanced as the primary reason for the further reversal of exchange.

In the money market conditions affecting time and demand loans were not materially altered. Interior banks offered moderate sums for 30 and 60 days and were buyers of commercial paper.

Contrary to its course of the two preceding days, call money held throughout at the opening rate of 7 per cent.

Outstanding features of the stock market comprised the motors, oils, steels and equipments, the two first named displaying special strength at the close.

Among the few consistently weak stocks were the sugar issues. Total sales amounted to \$2,000,000.

Heaviness of Liberty 31-23 and several prominent industrial issues, such as U. S. Rubber and American Smelting, contributed to an irregular bond market.

Sale (par value) aggregated \$16,150,000. Old U. S. bonds were unchanged on call.
