TAFTVILLE

This week will see the finish of the Twilight game in Taftville. The decision was reached at the regular meeting on Friday night when it was voted to put out the third round of the schedule. Three more games are to be played. Monday's game will be Melrose vs. K. of C. Wednesday, P. W. C. vs. K. of C. and Friday, Lafayette vs. K. of C. Should the K. of C. win all three games they will be tied with the P. W. C. for first place and should they win only two out of the three games they will be tied with the Pinacle for second place, as things look now they will no doubt play off a tie for either first or second place.
There will be an added attraction on Wednesday after the game when trials will be held to see who will represent the town in the open events at the league's field day which is near at hand. Athletics from Norwich, Jewett City, Baltic, Willimantic and the submarine base will be on hand for that day and no doubt will give the local boys a run for the handsome prizes to be given away. This field day promises to be the banner event of the season and will outshine anything ever held in this part of the state.

FREAK RAINSTORM VISITS

FAIR GROUNDS BALL FIELD.
The peculiarities of rain storms was evident Sunday afternoon to those who witnessed the ball game at the fairgrounds. During the first inning a black cloud came up from the southwest and for a few minutes there was a downpour in the outfield while hardly a drop fell in the infield. Part of the exhibition building in the left field was drenched with rain while the other half was barely wet.

TWO HURT IN AUTOMOBILE COLLISION

Mrs. Bertha Greene and her daughter, of 122 Hillman street, New London, were painfully injured in an automobile crash on the Montville road about 8:45 o'clock Sunday evening when the machine in which they were riding crashed head-on with a machine owned and driven by John Lewis of Danielson.
The accident happened on a straight stretch of road near what is known as Hubbard's Gate, about a quarter of a mile south of the Witch Hazel mill. The cars were traveling in opposite directions and for some unknown reason crashed head-on. The car in which the two women were riding, an Overland sedan, turned turtle and when it came to a stop was headed back toward Norwich. The other car, which was an Oakland sedan, was going toward Norwich and was the car least damaged, having only a smashed mudguard and running board and front wheel. The Greene car was badly damaged, the top being smashed, mudguards and wheels torn off. The accident held up traffic for some time while the wreckage was being cleared away.
Mrs. Greene and her daughter were taken to the office of Dr. John J. Donohue at Montville where their injuries were treated. Mrs. Greene suffered an injured hip, bruises to her leg and cuts about the face. Her daughter also suffered painful injuries to her leg and bruises and cuts. The two women were later removed to the Lawrence Memorial, Associated hospital in New London.
In the car with Mrs. Greene and her daughter was her husband who was driving the car. In the Danielson car besides Mr. Lewis, was Herbert Hopkins, Percy Brown, Arthur DeForest and Charles Royce, all of Danielson.
The Overland car had only been driven about 130 miles according to the speedometer and was practically a brand new machine.

Winfield M. Moran, Anthony E. Seiway and Clifford Dennis Bell of Glasgow applied at the navy recruiting station in New London for enlistment in the navy and were sent to New Haven for further examination.
These men are fine examples of America's young manhood and there is no doubt but what they will come up to the navy's requirements for enlistment. The navy is the trade school of the nation, with no limit to advancement, and there is always plenty of room at the top for further advancement. Further information may be obtained by writing or calling at the navy recruiting station, No. 4 Bank street, New London.
