The Wishbone Bed Spring is one of the greatest values in its field. You can see its superiority at a glance. Press down upon it with your hand and notice the unusual life and spring in each of its curved links—that means comfort. Then notice, too, that the Wishbone is absolutely noiseless—that means even more comfort. Then examine its handsome, sanitary gray finish—the special Rome gray enamel, baked on—the Wishbone is absolutely Rust-proof.

Perhaps you do not know that ordinary springs are often made of second hand material; but that is why it is important to realize that the Wishbone is all brand-new tubing and wire throughout. Rome quality makes it just as sanitary as comfortable—the only kind of spring you want. See it.

Finished in the Rome gray enamel, electrically baked on, the Wishbone is absolutely rust-proof and free from grease. It does not stain the mattress or the bedding where tucked under. Just compare the sanitary, gray enamel Wishbone with the ordinary, faded bronze-finished spring.

Look on the Spring for the Card that describes this special Rome gray enamel.

Breed Theatre. For its feature attraction today and Saturday the Breed has booked "The House of Toys, a Flamingo." Super special based on the novel by Henry Russell Miller. The book has been interpreted in the screen by one of the most distinguished casts of the year—Seena Owen, Helen Jerome Eddy, Pell Trenton and George Hernandez, carrying the principal roles. The picture has been lavishly produced with settings, photographs and decorative titles all of the highest artistry. "The House of Toys" tells the story of a romantic marriage that began as an experiment; threatened under the combined onslaught of high cost of living, domestic discord and temperamental differences, to end in disaster; but finally righted itself, largely through the loving, usefulness, understanding of "the other woman." It is a little slice of married life which one of Chicago's club leaders has declared as good as an insurance policy against divorce. An unusual type of story, human through and through, and one that hits home. Every husband, every wife, every engaged girl, will be the better for seeing this timely, vital picture. For the second feature, J. Warren Kerrigan will be seen in "Live Sparks." This new Kerrigan vehicle is by Caroline Sayre, well known fiction author and puts the popular star through a whirlwind action from start to finish and affords him wide scope for his inimitable style at temperamental differences, to end in disaster; but finally righted itself, largely through the loving, usefulness, understanding of "the other woman."
