SOME OF NEW LONDON'S PROBLEMS

(Special to The Bulletin.)
New London, Sept. 10.—Chairman Harry Chappell announces that with the end of the present month the membership of the police force will be reduced to ten less than during the present number. That is the seven active supernumeraries will be dropped and the three vacancies in the regular will not be filled. It would have been better if the men to be dropped had never been appointed. They gave up their jobs to accept places on the force with the understanding that they would be eventually added to the regular force or be given steady employment as supernumeraries. Now they are being dropped and employment just about as the winter is to begin and they surely are up against it. Just why the retirement at this particular time is as difficult to solve as was the action of the police committee in establishing an abnormally large police force, as the time when increased police protection was needed when there were more than 5,000 transients, mostly sailors in the city had passed on.

The diminution of the police force will not in the least lighten the burden of the taxpayer. It will not mean a reduction in tax rate, or anything like that. Therefore it would have been just as acceptable to the whole people were the sappers given six months' notice to quit instead of a little bit less than six months. The city election is to be held next month.

It is an off-year city election and in consequence there is not a whole lot of interest manifested in advance, but one cannot tell what may develop as the election day draws near. It is reasonably certain that it would not be very difficult for the republicans to make a clean sweep and elect an alderman from each of the five wards, and in the so-called democratic third and fourth wards. In addition to the aldermen there will be the usual minor officers elected, that is office minor to the mayor, the city and town clerks, the treasurer, assessors and so on, officers that carry remuneration worth while. The chief office to be looked for that is that of clerk of the board of assessors, which has been held by Frederick C. Burrows since its creation. It is one of the most political jobs in the city. Fred Burrows is candidate for re-election. Therefore the

extension of Washington street, through to Bank street, joining with a section of Reed street, has been again approved by the council and this time it is liable to come to materialization, as it has the backing of Alderman Thompson. The alderman reminded the council that some years ago the sum of \$18,000 was voted for this extension but the appropriation was diverted. He declared that even now the extension could be made at a cost not one cent in excess of \$25,000. The council voted to include this appropriation in the annual budget. This extension would materially relieve the vehicular congestion in Bank street.

This would make Washington street another avenue leading into that named square, or place, recently purchased and prepared by the city, which will cost a \$40,000 bill before the work is completed. The change in the immediate section has greatly increased the real estate valuation, a little point that the assessors may take into consideration when next they make the grand rollovers. When the project was frantically about, a property owner on Blinnon street, realizing the big benefit it would be to his place, offered to subscribe a substantial sum towards the then proposed change. But the money to do that work was not raised by the popular subscription route. Wonder if that individual and his neighbors should make the grand rollovers should the assessors raise the present official valuation? At the present rate of expenditures the city must receive more money, and the only real source of income is from the taxing public, and that means every adult in the city, for all are taxpayers to a more or less degree.

Alderman Scott, of the finance committee, at the council meeting this week, after a big bunch of bills outside of the regular were presented and ordered paid, asked, "Where is the money to come from?" Many of the departmental appropriations are nearly exhausted and at the end of the meeting there was only \$2400 left in the increased miscellaneous appropriation, and there are a couple of months more in the fiscal year. Then came a sum of \$400 from the public property committee, \$58 for a doctor's bill for service to a policeman, \$3,000 for the memorial, a \$3,000 excess of the appropriation for the clinic, a \$275 claim for turning down the lowest bid for clinic work, \$140 for architects' plans for an additional pigery and \$1240 for voting booths to replace those burned. These are only a few of the stickers that came in after Alderman Scott's query as to where was the money to come from. It was ever thus, and simply suggestive of the war song, "The Gang's All Here."

Piles

Can't Be Cured from the Outside. External treatments seldom cure piles. Nor do surgical operations. The cause is inside—bad circulation. The blood is stagnant in the veins. The bowel walls are weak, the parts almost dead. To quickly and safely rid yourself of piles, you must free the circulation—send a fresh current through the stagnant pools. Internal treatment is the one safe method. Ointments and cutting won't do it. J. S. Leonard, M. D., a specialist, set at work some years ago to find a real internal remedy for piles. He succeeded. He named his prescription HEM-ROID, and tried it in 1,500 cases before he was satisfied. Now HEM-ROID is sold by druggists everywhere under guarantee. It is the simplest, safest, easiest to take, and can always be found at Lee & Osgood Co.'s and druggists everywhere who will gladly refund the purchase price if any dissatisfied customer.

of the city for less than a year and who did not give a cent towards the improvement of the sanitary condition of the city or the general public health, has resigned and the resignation was accepted by the council without comment. It may be that the councilmen did not like the idea of the health officer resigning on such notice, especially as it voted him the full salary he asked for and gave his powers never over to any other health officer. Dr. Mitchell has received commendation in the regular army as major in the military corps and is to report at Fort Wright. Perhaps it may not be necessary for him to get a health officer—from out-of-town.
