"It's the Bean"—Selected, Blended and Roasted according to the La Touraine Secret Formula.

Only five persons know this secret—five people who have devoted years to working out a new high coffee standard, upheld by the La Touraine Formula.

By a system that is never changed, these coffee specialists select from the thousands and thousands of coffees in the world markets the few choice high-grade kinds of coffee that go into La Touraine.

They examine these coffees with the care resulting from years of knowledge of coffee, and skilled powers of taste. They not only select the finest coffees of their kind, but precisely the correct type of each kind—fully matured, ripe beans.

For some of these coffees we pay an extra premium amounting to thousands of dollars a year. Others are so fine and choice that they can often be purchased only after much search.

Each is preferred for some special coffee property it contains, and these supreme flavors are mingled by the secret blend to produce the exquisite taste of La Touraine.

The coffees are then roasted by expert chefs, who have taken years to determine just the degree of roasting required by the blend.

It is this wonderful formula which makes every cup of La Touraine a memorable pleasure, rich in aroma, full coffee-body and lasting flavor.

Ask your grocer for La Touraine today. Buy it in the bean and have him grind it for you. Coffee retains its essential oils and freshness much longer in the bean.

Do not accept La Touraine unless it is in the La Touraine Package.
