CITIZENS HEAR STRAIGHT TALK ON FIRE DEPT. PROPOSITIONS FROM CHIEF

Twenty-five citizens, mostly from the Falls section, probably learned more than they ever knew before about the fire department Friday night as a result of the hearing held in the council chamber of the Falls fire station.

The hearing was given in the council chamber by the fire commissioners to whom they had been presented earlier in the week. Mayor M. J. Stanton presided with Fire Chief Howard L. Stanton having a seat at the desk with him and the fire commissioners, Aldermen C. V. Fiddleton, Edward Crooks and N. Eugene Smith seated at the front of the council chamber.

When the hearing closed at 9:45 o'clock the commissioners reserved their decision and will announce later what they will do on the petition and protest.

One of the important revelations brought out in the hearing was the statement of Fire Chief Howard L. Stanton who told the citizens that his fire department was costing now the least it ever would for a bill to be presented in the coming legislature providing for a two-platoon system all over the city.

Former Mayor J. P. Desmond, who appeared for the petitioners, opened the subject when Mayor Leroux asked for reasons for the petition to order. He said that he believed the commissioners had given due thought to the subject but the petitioners felt that the fire department was costing now the least it ever would for a bill to be presented in the coming legislature providing for a two-platoon system all over the city.

Assistant Postmaster Joseph E. He thought there was some hidden motive behind this to get another location and build another station.
