## PROGRESS ON LOCAL BUILDING PROJECTS

The two largest building projects now in process of construction in the eastern part of the state are the building of additional departments at the Thames River branch of the Robert Gray Paper company at Montville and the erecting of the tenement houses for the Pfenning company at Tataville. The first mentioned project is by far the largest, involving nearly half a million dollars before the completion of the work. The second project while not involving so much money is remarkable for the time in which the work has been done. In little over eight weeks fourteen two-story brick houses have been rushed to completion, and two more will reach the completion stage within a short period of time. Pfenning's work in this city has been engaged in the filling of charges and several times by laborers' strikes and storage of building materials have accomplished the work.

At Montville the work is on a much larger scale and though having been started a comparatively short time ago much has been done towards the construction of the buildings necessary for the enlargement of the plant. The large boiler house and boiler house with the automatic stokers has been erected with the exception of the large brick chimney which is at present just rising over the edge of the roof of the boiler room. The work on the excavation for the new building in which will be located the corrugated box factory of the company which is to be moved from Brooklyn is now being done. This new department is to be located to the south of the main plant and the excavation work is being done by the T. A. Scott company of New London who are using steam shovels and traveling cranes in the work. The cement is mixed on the ground from the sand taken out in the excavation work and the pouring of forms for the foundation will soon be started. An extensive building project is the installing of a battery of new boilers at the U. S. Finishing company and the erection of a new boiler room. Part

of the brick work on the new boiler house has been erected and the frame for the remainder is being set in place. Other building projects within the city have made good progress within the past week although no new construction has been started.

### NEW LONDON.

Work on the comfort station being erected at Riverside park is rapidly nearing completion, the finishing touches now being put on. The station has been described in these columns before, and will be of hollow brick construction, covered with stucco, 18x23 feet, one story high, with a slate roof. It will cost approximately \$4,000.

### Building Permits.

Joseph Vendetto, frame garage, Grand street. Cost \$100.  
Joseph Fein, frame garage, Blydenburg avenue. Cost \$500.  
Mr. and Mrs. Obyra, frame addition, 153 Main street. Cost \$500.  
Total number of permits for the week, 41, estimated cost of buildings \$1,300.

### DEEP RIVER.

Plans are being drawn for a fine residence here for Colton Noble. The plans call for a frame house, 32x50 feet, with an all, 18x20 feet. The rooms will be finished in hardwoods, with hard wood floors and the walls will have tiled floors and side walls. The heating will be by hot water. A frame garage will be built in the rear of the house.

### REAL ESTATE SALES

AND MORTGAGE LOANS  
Norwich had ten sales of real estate during the past week to 18 for the same week last year. The loans for the respective weeks totaled \$2,400 and \$32,100.

In New London there were six sales of realty last week to 25 for the same week last year. The loans for the respective weeks were \$7,400 and \$195,200.

### WILSON QUEBBES FRANCE ON APPROACH TO HARDING

Washington, Oct. 18.—President Wilson took steps today to ascertain whether the French government had given authority to a representative of France to approach Senator Harding "informally" with the request that the republican presidential nominee take the lead in the formation of an association of nations. At the same time the White House made public the text of a letter addressed to Senator Harding by President Wilson inquiring as to the correctness of a statement attributed to the senator in a dispatch dated St. Louis, Oct. 15, in which the candidate was quoted as having said he had been so approached.

"I need not point out to you," the president wrote, "the grave and extraordinary inferences to be drawn from such a statement, namely, that the government of France, which is a member of the league of nations, approached a private citizen of a nation which is not a member of the league, with a request that the United States lead the way to a world fraternity."

Neither officials at the White House nor at the state department would comment on the nature of the inquiry directed to the French government. It was understood, however, that the note was transmitted by the state department to the French government through Ambassador Walker in Paris. At the French embassy it was stated that no such communication had been received there for transmission.

Secretary Tompkins said that no reply had been received by the White House either from Senator Harding or the French government up to a late hour.

### FEDERAL RAILWAY WAGE BOARD BEGINS HEARINGS

Chicago, Oct. 18.—Federal railway wage board today began its hearings in the wage disputes of more than 200 short-line and interurban roads outside the scope of the recent wage award of the board. Testimony was confined to that hearing directly upon the authority of the board to fix wages on electric interurban lines not operating as a part of steam transportation systems, leaving argument concerning the merits of its specific demands for later consideration. The jurisdiction of the federal wage tribunal over independent electric roads was challenged by five intercity roads, and Chairman Barton ruled that the jurisdictional question must be disposed of before differences between the roads and workers could be taken up.

Contentions that the government body had not power to pass upon labor questions touching electric roads was based upon Section 200 of the Keoh-Cummins bill creating the board. This section, attorney for the lines argued, specifically exempted all "electric railways not operating as a part of a general transportation system." Counsel for the Hudson and Manhattan railroad, the Pacific Electric and Northern railway and the Chicago Lake Shore and South Bend companies had claimed exemption from the board's rulings under this section.

### CONVICTION OF I. W. W. MEMBERS IN SACRAMENTO UPHELD

San Francisco, Oct. 18.—Conviction of thirty members of the Industrial Workers of the World in Sacramento in January, 1919, on a charge of conspiring to violate the selective draft and espionage acts was upheld by the United States circuit court of appeals here today.

### DEAR OLD PETE:

Winston-Salem, N. C., Friday p. m.  
Just wound up the one swiftest day of my life! Since early this morning, when I got an invitation to visit R. J. Reynolds Tobacco Co. factories, I've been in the midst of millions of Camel cigarettes.

Man—the happiest idea you or I ever had as to the size of this Reynolds enterprise, or the number of Camels manufactured daily, is simply piker-stuff! Wipe off the slate and start fresh! Why—Pete, it seemed to me like a couple of those cigarette-making machines could keep half the nation smoking Camels steadily—BUT—honest to goodness, there are hundreds of these machines batting out Camels at the rate of 27,000 an hour—EACH!

Pete, you wouldn't have to consult a guide book to know you were in the Camel factories! The atmosphere is charged with that wonderful aroma you get when you open up a deck of Camels! And, you know, old elephant—you've had a trunk full!

As the Camels dropped into the containers I figured the delight each one would supply! And, how Camels mellow, mild body would hit the right spot and how Camels refreshing flavor would cheer up some smoker's jaded appetite! And, each Camel free from any unpleasant cigarette aftertaste or unpleasant cigarette odor!

And—Pete—I'll have to lay off and light another Camel! Write you some more soon.  
Yours joyously

### A PICTURE OF HARDING CAUSES RUMOR IN SCHOOL

Macon, Missouri, Oct. 18.—The hanging of a picture of Senator Harding, republican presidential candidate, on the walls of the College Mount school, near here, by Miss Jennie Hunt, teacher of the school, has caused a rumpus which resulted in the filing of charges today against Miss Hunt. It is alleged that Miss Hunt inflicted corporal punishment upon six of her pupils after she had seen the picture hanging down in her absence, and a number of her pupils had appeared in school wearing Cox buttons.

### RELIEF PROMISED IN THE NEWSPRINT SITUATION

New York, Oct. 18.—Relief in the American newsprint situation was promised by Hjalmar Gronvik, managing director of the Finnish paper mill union, and Walter Grassebeck, managing director of the Finnish Cellulose association, on their arrival from Finland today aboard the steamship Stockholm. The paper mills of Finland, they said, turn out about 310,000 tons of paper each year, of which 45 per cent is newsprint and it was their intention to open up a larger market in the United States. Eventually Finland's entire paper output would be placed on the American market ready to meet all competition in prices, they asserted.

A novel device on which a moving hand indicates the direction the car will turn has been designated for use on the rear of automobiles.

## Happy Woman Threw Crutches Away After Taking Goldine

Mrs. Fannie Johnson, a lifelong resident of this section, is now able to walk downtown daily, to go and come as she pleases, to mix with her friends, to do her housework and make her home a pleasant and congenial place for her husband to enter when he returns at night from his work. Two months ago, she was crippled up with rheumatism, suffering agony from the start to the close of every day and confined to her home unless she hobbled to the house of a neighbor with the aid of crutches. And she gives credit for the change in her condition to Goldine No. 2, the herbal rheumatism and kidney remedy. She says:

"For three long years I suffered as I believe no one ever suffered. The joints and muscles of my arms and legs were so that to bend the elbows or knees would almost kill me. Months ago I had to get crutches so as to be able to move when I was not in bed. Medicine did not have any effect on me. I decided it was hopeless to expect any relief and thought that my suffering would end only with death. Then one day I read in a Goldine advertisement that a man named Ben Hefey in Birmingham had thrown his crutches away after taking Goldine No. 2, and I thought I might be fortunate enough to get the same results from the medicine. I guess the day I went to King's Drug Store and got Goldine No. 2, I shan't describe the improvement in me, but will say that I can walk a good distance now, can do my housework and can move my arms and legs without pain. I have not even kept my crutches because I am sure that with Goldine in the house I shall never again be troubled with rheumatism."

Mrs. G. Grant

Mrs. G. Grant would not be without Goldine. GOLDINE IS SOLD BY G. G. ENGLER.

### WRONG IMPRESSION OF CONDITIONS IN ITALY

Washington, Oct. 18.—Before his departure tonight for Rome on leave of absence, Harlan Camillo Romano Avezza, the Italian ambassador, told The Associated Press he was able to state from official information that the American public had a very erroneous impression of the internal situation of his country. "The Italian press is partially responsible for this condition of things," said the ambassador, "giving too much place to isolated occurrences, detail and description of which was misleading to the foreign press, which on its part could not quote it on many occasions. Moderation was often sacrificed so as to satisfy public curiosity. It would be untrue to say that complication had never arisen, however, as in the case of the recent troubles with the metal workers, all contentions had been amicably settled by the foresight and subsequent intervention of the government, whose authority was by all recognized. "Socialist movements have been evident, but they have never threatened the state, and solutions have been arrived at which solved intricate problems. The outcome being the erection of a great barrier against any possible menace of revolution. "The report of the socialists, after the failure of the strike in the judgment of the majority on one must be continued, gave another the right to refuse to abide by it on another. "The natural result of such a course, he said, is anarchy. "The second biennial convention of the United Lutheran church in America will open here tomorrow. More than 500 delegates are expected.

### LUTHERAN BROTHERHOOD IN CONVENTION IN WASHINGTON

Washington, Oct. 18.—The inspiration of the life of Martin Luther "needs to be invoked by all of us, particularly in this hour when the world has not recovered from shell shock," Secretary Daniels declared in a message read tonight at the banquet of the delegates to the Lutheran Brotherhood convention in session here. "Every man who tries to serve his fellow men," the secretary said, "needs to hark back to gain inspiration and encouragement from Luther when must stand against the strong current of public opinion. "Your great church, which has sought to incarnate in its service to humanity the Luther spirit and which is doing the great work, is in truth helping towards that larger brotherhood of world fellowship which shall lead us out of doubt and uncertainty of today and into the higher places of tomorrow. Patriotism is shown by action, John F. Kramer, federal prohibition commissioner, told the delegates, "the difference, he said, between the deluded and ignorant people who cry 'down with the law' believing that all the world is against them, and the refined and well-favored who cry 'away with the law' because certain laws do not meet with their approval. The refusal to abide by the judgment of the majority on one must be continued, gave another the right to refuse to abide by it on another. "The natural result of such a course, he said, is anarchy. "The second biennial convention of the United Lutheran church in America will open here tomorrow. More than 500 delegates are expected.

## A MARVELLOUS KIDNEY REMEDY

### In One Month, "Fruit-a-tives" Gave Complete Relief

658 First Ave., Troy, N. Y.  
"I have been a great sufferer for years with Kidney Trouble and Constipation. I tried 'Fruit-a-tives' about a month ago, and with almost immediate results. The Kidney Trouble has disappeared and the Constipation is fast leaving me!"

HENRY DATER.  
"Fruit-a-tives", or Fruit Liver Tablets, the medicine made from fruit juices and vegetable tonic, is doing a wonderful work in bringing health to sick people.  
50c. a box, 6 for \$2.50, trial size 25c. At dealers or from FRUIT-A-TIVES Limited, OGDENSBURG, N. Y.

during the month totalled \$1,474,414.873, of which \$1,335,978,550, applied to the certificates of indebtedness was the largest item.

Bridgport.—The Connecticut company plans to cut-off operations of its Millbrook, Walnut Beach, Devon and Westport runs and compel its patrons in these districts to depend on the half-hour service provided by the New Haven and Norwich through cars.

## Pile Sufferers

Can You Answer These Questions?  
Do you know why continents do not give you quick and lasting relief?  
Why cutting and operations fail and danger of an operation?  
Do you know the cause of piles is better?  
What there is a stagnation of blood in the lower bowel?  
Do you know that there is a harmless internal tablet remedy discovered by Dr. Leonard and known as HEM-ROID, now sold by Lee & Co. of Norwich, Vermont, that is guaranteed?  
HEM-ROID banishes piles by removing the internal cause by freeing blood circulation in the bowels. This simple home treatment has an almost unbelievable record for cure, safe and lasting relief to thousands of pile sufferers, and saves the needless pain and expense of an operation. There is no reason why it should not be the same for you.

## "DANDERINE"

Girls! Save Your Hair! Make It Abundant!

Immediately after a "Danderine" massage, your hair takes on new life, lustre and wondrous beauty, appearing twice as heavy and plentiful, because each hair seems to thicken. Don't let your hair stay thin, colorless, plain or scraggly. You, too, want lots of long, strong, beautiful hair. A 25-cent bottle of Danderine "Danderine" freshens your scalp, checks dandruff and falling hair. This stimulating "beauty- tonic" gives to hair, dull, falling hair that youthful brightness and abundant thickness — all drugstores!

### TO RELIEVE CATARRHAL DEAFNESS AND HEAD NOISES

If you have catarrhal deafness or are hard of hearing or have head noises, go to your druggist and get one ounce of Eucalypti (double strength) and add to it 1/2 pint of hot water and a little granulated sugar. Take one tablespoonful for.

### "CORNS"

Lift Right Off Without Pain

Doesn't hurt a bit! Drop a little Freese on an itching corn, instantly that corn stops burning then shortly you're free of it with Freese. Truly! Your druggist sells a tiny bottle of Freese for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, with soreness or irritation.

### GOVERNMENTAL EXPENDITURES IN SEPTEMBER, \$1,944,000,000

Washington, Oct. 18.—Governmental expenditures for the month of September amounted to more than \$1,944,000,000, while for the first three months of the fiscal year the total was more than \$5,500,000,000, according to the regular statement issued today by the treasury department. Ordinary expenditures for the month amounted to \$155,774,654, including disbursements to the railroads totaling \$172,758,610, for claims growing out of federal control and payments made under the transportation act. War department expenditures were next amounting to \$163,792,037, including \$38,182,224, paid the railroad administration during the war. Payment of \$10,000,000 to the shipping board by the war department was also included. Expenditures for the public debt
