If you have sourness, belching, indigestion, food repelling or any other stomach trouble, take Estonic tablets after each meal and find relief. ## MEXICO IS ADJUSTING ITS FINANCIAL OBLIGATIONS

New York, Feb. 7.—Senator Manuel C. Tellez, Mexican charge d'affaires in Washington, was a visitor at the banking house of Speyer and company today. It was understood Senator Tellez called by direct order of President Obregon to express the desire of the Mexican government to discuss with its creditors a suitable settlement of impending financial obligations. Speyer and company authorized the following statement as a result of Senator Tellez's visit:

"We are very much pleased that the present Mexican government is taking up in a sensible business way the adjustment of its financial obligations. We have, during the last thirty years, placed with investors here and abroad, a large amount of Mexican securities. Interest on these securities has been in default for over six years, and we are very willing to aid the government in every possible way in restoring its credit.

"We believe that the proper and prompt settlement of its financial obligations will go far towards restoring public sentiment in the United States favorable to a recognition of President Obregon's government."
