

SENATE NAVAL BUILDING PROGRAM

Senate Naval Committee to Advocate an American Navy Equal to That of Any Other Power—Would Substitute Two Huge Aircraft For Twelve Destroyers and Six Submarines Which Have Been Authorized, But Not Contracted For—Concludes That the Capital Ships Should Remain the Strongest Naval Unit—To Recommend Study and Development of the Submarine, Aircraft and High Explosives.

Washington, Feb. 9.—An American navy "at least equal to that of any other power" is advocated in a report of the senate naval committee filed today in the senate.

The committee, replying to the Borah resolution, said "it is not practical and is not a sound policy to suspend naval construction for a period of six months or more at all." It urged completion of the great 1916 naval program, except that two huge naval battleships be built in place of twelve destroyers and six submarines which have been authorized but not yet contracted for.

Capital ships remain the principal units of sea power, the committee said, adding that submarines and aircraft were as yet only auxiliary forces.

The committee report, which Senator King, democrat, Utah, plans to file a minority report tomorrow, expressed a desire that an agreement for limitation of naval armaments might be reached among the nations, but said that until some such arrangements were made the United States should continue its building program.

"In view of the importance of sea power to the United States," the committee informed the senate, "and the fact that without it we would be at the mercy of other nations, it is the opinion of your committee that this country should maintain a navy at least equal to that of any other power. The lessons of history teach us with indisputable truth that we cannot afford to depend for the maintenance of our rights and the defense of lives and commerce of our citizens upon the mercy, generosity or good will of other powers with rival or conflicting interests and ambitions.

"It is the opinion of your committee," the report continued, "that the United States should have under its control a sufficient force to protect and preserve both its material possessions and the lives of its citizens and the principles upon which its government is founded.

"For these reasons we are of the opinion that there should be no suspension of the present building program of the

LABOR'S FEAR OF CALDER COAL REGULATION BILL

Washington, Feb. 9.—Organized labor is "apprehensive" lest the price fixing powers proposed in the Calder coal regulation bill be used against organizations of workers, Samuel Gompers, president of the American Federation of Labor declared today before the senate committee considering the measure.

"I am influenced largely in my judgment upon this question by the interpretation which the courts have placed upon similar legislative statutes in the past," Mr. Gompers said. "Laws designed to prevent strikes in industry have been applied to limit the activities of workers seeking to promote their individual rights by collective action.

"The fact that section of laboring which has intelligence enough to unite in this species of legislation. Experience has made us so anxious to bring about a reduction of armaments and relief from the burdens which those armaments impose upon the nations of the earth, that we have not hesitated to armament would be of any value unless it was general, and in the case of the great maritime powers, universal. Unrestricted armaments in the hands of one nation are a menace to the peace of the world that cannot be ignored.

"We earnestly hope that an agreement may be reached among the nations for a general reduction of armaments, but at the same time we believe that the United States cannot leave itself unprotected if it is threatened from any quarter. It is our duty to protect the American people and to give no service to the cause of peace."

HEALTH STATISTICS OF ELLIS ISLAND IMMIGRANTS

Washington, Feb. 9.—Figures were laid before the house immigration committee today that out of 19,092 immigrants who arrived at Ellis Island in the last six months of 1920 and who the health service certified as unable to earn a living because of disease or physical defects, 2,199 were admitted by immigration officials. The figures as presented also showed that out of 112 persons certified as having mental defects, 50 were admitted to the island. Of 258 persons classified as having loathsome or contagious diseases, 167 were allowed to land.

Surgeon General Cumming, who presented the figures said such admissions had had a "bad effect" on the morale of the public health service.

The committee was impressed by the surgeon general's testimony, at the close of its session sent a telegraphic request to Dr. J. W. Keer, public health official at Ellis Island, to appear before it.

Reports from Rupert Blue, former surgeon general now in Europe, Dr. Cumming said, led him to believe "every precaution" was necessary to prevent typhus from getting into the United States. The surgeon general asserted that measures to permit commerce to go on and to safeguard at the same time the nation's health, were causing him "considerable worry." The committee, however, added, that typhus would spread in Europe.

FORGOT TO HANG NEGRO MURDERER ON DATE FIXED

New York, Feb. 9.—Attorney General Clegg announced late today that Lonnie Easton, a negro who has been living since Feb. 4 because the sheriff forgot to hang him on the date as had been directed in his sentence for murder, must be hanged unless the board of pardons recommends commutation of sentence.

Dr. Goodenough completed the fifty-year period as pastor of the Winchester Congregational church last night. Services in honor of the event were held in the church at 8 o'clock. It was the nature of a town celebration, without regard to religious beliefs. Clergymen from all parts of the state and from points outside of the state were among the speakers, and devoted most of their addresses to eulogies of Dr. Goodenough.

He is survived by his widow, two sons and four daughters. Mrs. Goodenough was Miss Hannah Brett of New Haven and married Dr. Goodenough fifty-six years ago. The funeral will be held Friday afternoon at 2:30.

Albany Without Street Car Service

Albany, N. Y., Feb. 9.—Rioting more serious than ever previously reported, occurred here late today in connection with the street railway strike of the United Traction Company's 1,500 employees in Albany, Troy and surrounding municipalities.

Orders by Chief of Police Goerold of Troy to his men to "shoot to kill" and the stonings of this winter in Troy, where there was some improvement over yesterday in the rioting conditions. No attempt was made to operate cars in this city. The rioting was confined to many blocks north and south of the company's barns had been torn down by strike sympathizers yesterday and last night. This afternoon one of the rioters was shot by police.

Another repair wagon with non-union men returning to the barns caused more trouble. Again bricks and stones came from the housetop. The strike cooperatives of the rioters, who were armed with shotguns and shot pistols, were in the direction of the rioters. It was definitely ascertained that it was not struck by flying bullets. The shooting, however, had the desired effect and order was established temporarily.

W. J. Bryan and Brother To Reorganize Dem. Party

Washington, Feb. 9.—George White, chairman of the democratic national committee, made the "positive assertion" today that he would not continue as chairman through the next four years.

Robert W. Woolley, former interstate commerce commissioner, declared in a speech before the national committee that a "wrong interpretation had been placed on the recent petition from members of the committee to Mr. White and the newly elected committee." Mr. Woolley stated that he had drafted the petition himself after "personally interviewing many of the signers," and obtaining the advice of Thomas B. Love, national committee member from Texas, to forward it in his name. Mr. Woolley declared that in urging a call for an early meeting of the national committee, the offense had been intended for Mr. White.

Assessing that the committee chairman must be based on the assumption that the date upon which he would resign and when he would be succeeded by the committee for the purpose of preparing a platform for the party, Mr. Woolley said: "At first he indicated that he might call the meeting in December; then he indicated that he would resign in January, and when I talked with him ten days ago he said that he might not retire for six months, but that he would resign on the date of the party convention. REDUCTION IS IMPERATIVE IN EXPENDITURES OF GOVT

Chairman Good of the House Appropriations Committee Declares the Time Has Come to Call a Halt in Making Appropriations—Discussion Disclosed That the Direct Appropriations This Year Already Have Passed the Five Billion Dollar Mark, Calling for a Tax of \$50 on Every Man, Woman and Child in America.

Washington, Feb. 9.—Warning the house that the mounting wave of high taxation would not roll back without a sharp and sweeping reduction in government expenditures, Chairman Good of the appropriations committee declared today the time had come to call a halt.

There was a shout of approval when he insisted that the appropriation bills must be passed before the close of administrative March 4 so that the framers of a new tariff law may know the amount of cloth out of which they must patch the nation's coat.

Laying down the definite policy that expenses must be cut before there is talk of lower taxes, Mr. Good insisted that the appropriations committee declare today the time had come to call a halt.
