REPORTS ON INVESTIGATION OF THE HAITIAN REPUBLIC

Washington, Feb. 13.—The United States having a long history of intervention in Haiti, it is not surprising that the people of the United States all have their eyes turned to the island republic for the navy and state departments.

Agitation against the American occupation of Haiti, Admiral Knapp asserted, is the result of the desire on the part of a small group, who, he said, represented at the most less than five per cent of the population.

The \$5 per cent would be exploited for the dishonest benefit of the five per cent. If these needs were attained, the United States would be able to do more than they do now.

Should the United States now withdraw, leaving the political agitators to their own devices, it would, in his opinion, be surrendering the 'right' of the population and encouraging the unworthy minority to go on with its dishonest, arbitrary, and tyrannical measures.

The report of the United States' admirals report should not allow themselves to be deceived by the words 'republic of Haiti' or believing that there exists in Haiti, or ever has, a republic in any sense of the word.

Under the auspices of the state board of health, two sets of pictures were given free at the Bradley theatre Saturday morning before the several hundred children.

The first reel showed the value of the public health nurse to the community and especially to children. The second gave an illustration of how life begins in plants and animals.

AMBER!

Experts can tell the really best tea by the color in the cup. It should not be brownish, but a rich golden amber, like liquid sunshine.

Try this—a tablespoonful of 'Formosa Oolong' piping hot water, brew four minutes in the cup.

Note the color, the body, the flavor, the fragrance—this is the real tea!

'Formosa Oolong' is the favorite tea of the world—made under the care of the government.

Say 'Formosa Oolong'—and Be Sure!
