

WESTERLY

The office of the town clerk in the town hall is busy this month, the taxes and dog taxes being due. Clerks are on duty from 9 a. m. to 5 p. m. daily, with the exception of Sunday to receive the assessments. The collection of fire taxes began last Friday and will continue throughout the month, and after April 15 a fine of 10 per cent. will be imposed. Dog taxes are also due before the first of May, and after April 30 a fine of \$1 will be assessed on all delinquents.

Equinox mass for August Terzanova. who died at his home on 71 Oak street Friday night, was celebrated Monday morning at the Church of the Immaculate Conception by Rev. Henry Bruno. Burial was in St. Sebastian cemetery.

The officials of the New Haven roads have notified Frank L. Coy, chairman of the traffic committee of the Westerly board of trade, that the following changes in the schedule of trains that stop at Westerly will go into effect Sunday, April 25th:

Through train: new leaving at 6:45 a. m. will be discontinued and to take its place No. 8 will leave at 7:10 or 8:10, daylight saving time.

Going east: the train leaving at 6:44 a. m. will be discontinued and will leave Sunday and thereafter at 8:15 standard time or 7:15 daylight saving time. The train to Bradford that now leaves at 8:15 will be discontinued.

This reduction of service, it is pointed out, is in the line to curtail the road's expenses as much as possible, and it is expected that local patrons will not be greatly inconvenienced as the connecting trains have been changed or taken off.

A special service was held Sunday afternoon at the Protestant Congregational church to commemorate the anniversary of the appearance of Martin Luther before the Diet of Worms 495 years ago. Rev. Fred A. McDonald, the pastor, gave a brief account of Luther's life, and told of the effect his words had on the entire world. The service was presided over by the singing of old Lutheran hymns.

An American banner was presented to the African Advent church, on Pleasant street, Sunday afternoon by representatives of Badgers post, G. A. R., and Building W. R. C. The stars and stripes were presented by the president, Miss Beth Underwood, and were accepted in behalf of the congregation by Mrs. Fairweather.

The senior class of Westerly High School will present "The Maid and the Midway" this week. In past years the seniors have always presented a play but this is the first time in several years that musical comedy has been attempted. The director, Mr. Valentine, says that the music is good and catchy, and that the pupils do admirably in both song and chorus work.

Miss Otis Kavin and Harold Milligan are to give a costume fete entitled "Three Centuries in American Song" under the auspices of the Westerly Alliance of Women, who are raising money to help with the endowment fund of the alma mater. Miss Kavin is a soprano soloist, and is preparing for selection. Mr. Milligan will give brief accounts of musical development in the country.

STONINGTON

At the recent meeting of the Stonington chorus held in Community hall, the reports of the committees who had charge of the presentation of the opera, "The Daughter of the Regiment," were read and accepted. The report of the treasurer showed that the affair was a financial success, and the money was voted to be given to the Community hall treasury. The chorus voted to continue its work and a committee consisting of Mrs. Joseph H. Hammond, Mrs. J. Benjamin Brown and Miss Helen M. Hobart was named with the object of the chorus to confer with Dr. Jules Jordan, who successfully directed the last affair, to select another opera and to arrange for its rehearsal. The event in all probability will be presented in the middle of the summer.

There was a large congregation at the 8 o'clock mass at St. Mary's church Sunday morning when that communion was administered to a class of boys and girls. Rev. J. B. O'Brien addressed the class on the solemnity of the day for them.

The annual meeting of the Stonington Community Service corporation (inc.) was held in Community house hall Monday evening.

PLAINFIELD

With two trucks and many private cars loaded with players and royal rosters, the Plainfield soccer team invaded Tataville Saturday afternoon, and in one of the most bitterly fought games seen on the Providence street grounds, played the Tataville team to a tie. The home eleven started off with a rush and in the first few minutes of play, the Plainfield goal was in danger several times, and only through the consistent good work of Bergerson was a score prevented.

Tataville won the top and had the wind with her up till half time. However, after the first few minutes the Plainfield goal was never in danger. Toward the end of the first half Plainfield scored, after a series of passes ending when James Greenhalgh finally put the ball under the uprights.

The second half was all Plainfield, but weakness in the forward line prevented further scoring. The Plainfield defense weakened long enough about the middle of the half to permit Tataville to score. Both teams were struggled in vain to score again, but they traveled up and down the field until the final whistle.

The summary.

Rowland orchestra was the attraction at the dance given at the Community house Saturday evening. A number of people from Norwich and Danielson were present.

Visitors were in town Sunday inspecting the Community building. Motorists passing through town often stop to examine this worthy structure. Many people come this way just to see it.

Mrs. John Watson and daughter Annie met with a disappointment Saturday. They left Plainfield Friday for New York to go to England. After doing some shopping in the big city they started for the dock to find the boat leaving. Although only two minutes late the officials refused to permit them to embark. They must wait two weeks for the next ship and inasmuch as all their clothes were aboard they will be very much inconvenienced.

George McCreery, assistant, resident engineer has just returned to Plainfield after a short illness in Fall River. Mr. McCreery recently underwent a minor operation. He will resume his duties at once.

Not Beauty Only

These whiter teeth mean safer teeth as well

No doubt the great reason why millions use Pepsodent is to get prettier teeth. It removes the dingy film.

But science has more important objects. Pepsodent brings five effects, and all of them mean better tooth protection.

The ruinous film

Film is that viscous coat you feel. It clings to teeth, gets between the teeth and stays. Old methods of brushing do not effectively combat it. So it often lingers long.

Film absorbs stains, making the teeth look cloudy. Countless teeth are thus made dingy.

Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Also of other serious troubles. Most of the tooth and gum attacks are now traced to that film.

Must combat it daily

After diligent research science has found two ways to combat that film. Many careful tests have

Fights starch and acid

Pepsodent does what fruit acids do. It multiplies the salivary flow. It multiplies the starch digestant in the saliva, to digest starch deposits that cling. It multiplies the alkalinity of the saliva, to neutralize the acids which cause tooth decay.

Those are Nature's great tooth-protecting agents. Every use of Pepsodent multiplies their powers.

Effects are apparent

Millions now know the delightful effects. Any one who will can quickly see and feel them.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. Then read the reasons in the book we send.

A week may bring a life-long change in your teeth' cleaning methods. Cut out the coupon now.

MAYOR OF HARTFORD CALLS FOR DAYLIGHT SAVING

Hartford, Conn., April 18.—In a proclamation issued today Mayor Newton C. Brainard asks the people of Hartford to put themselves on a daylight saving schedule beginning next Sunday by setting their clocks an hour ahead.

In deference to the state law passed recently by the general assembly, the mayor does not come out flatly except to make the request. However, the common council has voted for daylight saving and

practically all big business in the city, including factories and department stores, is on record as favoring the plan. Even if clocks are not set ahead it is certain that thousands of workers will be required to report an hour earlier in the morning and will quit work that much earlier in the afternoon.

DIVIDEND ANNOUNCED ON GOVERNMENT LIFE INSURANCE

Washington, April 18.—Secretary Mellon announced today a dividend on government life insurance of not less than one dollar per thousand of insurance.

The dividend, it was explained, will be paid in cash on the \$706,381,000 of permanent converted insurance for which earnings totaling \$1,639,916 have been authorized in addition to the permanent insurance, the secretary added, out of the forty billions written by the government upon the lives of soldiers, sailors and marines during the war, there was in effect December 31, last, \$2,332,160,560 of war time insurance.

Polices that have been in force two years, he said, on the anniversary date in 1921 will receive the amount of two yearly dividends, and policies in force for one year on that date will receive one yearly dividend.

If you want a continuous supply of vital energy to keep you fit and vigorous—

You must pay your body to create vital energy

The vital energy of the body—like a watch—runs down daily. And just as a watch must be wound up every day, so the vital energy of the body must be renewed. Otherwise the vital energy becomes exhausted—the blood becomes impoverished—the nerves get shaky—and you get irritable, depressed and feel all run-down. To renew the vital energy, the body must be paid to create vital energy.

Failure to pay the body to create vital energy often accounts for Weakness—impoverished blood—shaky nerves and run-down vitality.

In almost every case of weakness, impoverished blood, nervousness and run-down vitality, there is a real shortage in the body of several mineral elements which are absolutely essential to the creation of vital energy. These elements are particularly Iron, Calcium, Potassium, Sodium and Phosphorus. Therefore all these must be restored to the body to enable it to replace the vital energy which has been expended and

to pay the body for the work it does. Even if these elements are contained in Wincarnis in appropriate proportions and agreeable form. So that by taking Wincarnis when you are weak, anemic, or nervous, or run-down, you restore the very mineral elements which enable the body to create vital energy—to make the blood rich and red—to strengthen the nerves—and promote abundant vigor, vitality and endurance.

Choose the right way to health

Get well—but get well in a logical way. Use great care in your choice. Remember this important fact—when the body requires a variety of mineral elements—it must have all of them. No amount of any single one will do. For instance, iron is excellent for making blood red. But no amount of iron alone will be sufficient when the body requires iron and Calcium, and Potassium, and Sodium, and Phosphorus, as it does in the majority of cases of weakness, impoverished blood, nervousness and run-down vitality. Wincarnis contains all of these because it is prepared especially for weak, anemic, nervous and run-down men and women. Over 10,000 physicians have recommended Wincarnis. Your druggist has your bottle ready for you. Try just one bottle.
