

DISCUSS NORWICH TRAIN PROTESTS

R. M. Smith, superintendent of the New London division of the New York, New Haven and Hartford railroad, and Henry M. Dunn, yardmaster in Norwich, met about 30 representatives business men of this city in the Chamber of Commerce rooms late Thursday afternoon to hear their complaints over train service between here and New London. The revised schedule which has lately been put into effect on the Norwich and Worcester division has been the cause of the complaints that were made.

so that the train would make local stops. Another complaint was on the northbound train which leaves the submarine base at 3:25, standard time. Norwich men who are employed at the base get through work at 3:30, just too late to catch the train. They have to wait till the next train, two hours later. The railroad men told the business men that this train gets to Norwich at 3:45 and has to leave again for New London at 3:55. This period of 10 minutes is little enough to shift the engine and get the train set again, as it has to make New London on time for connections. It would not be possible to delay the train any for the workmen on the northbound trip. It is understood that the commandant at the base may rearrange the work schedule of the Norwich men so that they can begin

a few minutes earlier each day and get away in time to catch the train. Taking up the southbound 10:45 train, upon which it was complained no connections were made either east or west at New London, it was shown that there was an average of 45 persons using this train daily. It misses the 10:45 for Providence and the 10:49 for New York. The next New York train is not till 11:50. Superintendent Smith said nothing could be done about any change in time on this train, as it comes through from Worcester and makes connections at Providence with the train from Boston.

Another complaint heard was that there is no train from New London now after 5:30 p. m., where there was formerly the 8:22 from New London. The records of the raid, said Superintendent Smith, showed an average of only nine passengers in a six months' period and the train had been taken off for economy's sake on the part of the railroad.

A matter of saving and economy was also the reason for the removal of morning trains, southbound, around 7 or 8 o'clock, Superintendent Smith said. The road's records for six months showed an average of from seven to 11 passengers. The first train now is at 8:15 and averages 47 passengers, of whom 50 per cent. go to the submarine base.

One other criticism related to getting from Hartford to Norwich by the train that leaves Hartford at 4:35 and reaches Willimantic at 5:25. The trolley from Willimantic to Norwich leaves Willimantic at 5:25 and there is no train to Norwich until 7 o'clock. Superintendent Smith promised that he would take steps both at Hartford and Willimantic to see what could be done to help this situation. It is proposed also to see what the trolley company can do to better this condition.

CLEAN-UP DRIVE REPORT TO DIRECTORS OF C. OF C.

Reports on the Norwich clean-up campaign were made at the meeting of the directors of the Norwich Chamber of Commerce Thursday afternoon. It was reported that the Boy Scouts are doing active work in reporting places that need to be cleaned up and these will all be investigated by the chamber of commerce committee. Further report will thereupon be made to Health Officer Henry Gebrath, who will report places to the police department if he finds it necessary.

It is proposed that the health programme shall be strictly enforced to make Norwich just as clean a city as possible and the chamber of commerce will see to it that a consistent determined effort along this line is made.

The matter of daylight saving came up for comment with the expression that the chamber had done what it could to secure unanimity of action and was not satisfied with the confusion in time that is prevailing now, but did not feel that it is called upon to take any further action.

It was decided that for convenience of the directors their meetings will here-

Brown Unives. Tuition Fee.

Brown University has recently announced that the annual charge for tuition will be raised from \$200 to \$250 for the academic year beginning in September, 1921. This increase will apply both to present and prospective students. At the same time the amount devoted to student aid will be increased, so that students of slender financial means may not be seriously embarrassed.

In making this change Brown falls in line with the other eastern colleges. At Harvard the charge for tuition is now \$250, at Princeton \$200, and at Yale \$300. Dartmouth has recently fixed the tuition charge at \$200, and Boston University at \$225.

The increased cost of the higher education is inevitable. The salaries of college teachers have everywhere been advanced. The cost of light, heat, printing, repairs and general operation of the plant has greatly increased, and a serious situation confronts the colleges.

PAPER MILLS TO CONTINUE WAGES ANOTHER YEAR

Boston, May 5.—John P. Earle, president of the International Brotherhood of Pulp, Paper and Paper Mill Workers, announced here tonight that executives and representatives of the employees of the St. Croix Paper company had agreed virtually to continue for another year the 1920 wages and working conditions. A similar agreement between the executives and representatives of the workers of the Great Northern Paper Company was signed yesterday.

Mr. Earle said union have strikes scheduled for May 11 in fifteen mills operated by eight companies, which may add 35,000 to the ranks of unemployed. In Canada, he said, 750 workers quit May 4 in two mills of the Price Brothers Paper company and 500 in one mill of the E. B. Eddy Paper company.

Where ignorance is bliss there is generally more folly than wisdom in evidence.
