**In the police court Monday morning** Edward Goddard, William B. Price and the latter's wife, Etta Price, were charged with intoxication to which each pleaded guilty. Goddard, who was arrested near the postoffice Saturday night stated that he was unmarried and had never been arrested before. They were fined \$10 and costs and sentenced to thirty days in jail, judgment on the last sentence being suspended. The trio were without funds and were taken to Brooklyn jail. It was stated the drunken brawl has been a common occurrence at the Price home, but the Saturday night brawl was the final straw. When the officers went to the Price home and demanded entrance they were met with vile language but Price, who came to the window, was dragged out of the building headfirst by the officers.

**The continued case of Mrs. Jennie Lachapelle and Joseph Locke, both charged with receiving stolen property, also came up.** Special Officer Frank McGarrett of the New Haven railroad testified to the quantity of corn stolen from the freight car in the rear of the Willimantic Grain company building. The three small boys who admitted taking the corn said they sold some to Locke for seventy-five cents, and some more to Mrs. Lachapelle for one dollar. Between three and five hundred pounds of the grain valued at about \$1.70 per hundred pounds was missing, but it is believed that much of it was lost on the ground. The three boys, whose ages ranged from 8 to 12 years told of selling the bag to Locke, but then denied selling one to Mrs. Lachapelle, claiming that the second bag was thrown away. They said they broke into the car by using a stone. Locke said he had often bought corn from the boys but when he bought the corn the boys told him it was not stolen goods. Both had previously entered pleas of guilty. The case against Mrs. Lachapelle was referred for lack of evidence and Locke was ordered discharged.

**The annual free swimming campaign of the Y. M. C. A. began Monday** when sixty-seven boys and twenty girls registered. The boys were divided into four groups and swimming instructions were begun. The girls will have their first lessons this (Tuesday) morning at 8:40 o'clock. General Secretary Frank H. Chastard, with four assistants, are in charge of instructions.

Until He Took "Fruit-a-livas" Or Fruit Liver Tablets

R. R. No. 1, Lohr, Ont.  
"For over three years, I was confined to bed with rheumatism. I treated with doctors and tried nearly everything without benefit.

Finally, I tried 'Fruit-a-livas'. Before I had used half a box, I saw improvement; the pain was easier and the swelling started to go down.

I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and do light chores about the place".

Willimantic was visited by a hard thunder shower Monday afternoon shortly after 2:30 o'clock. The rain came down in torrents and the high wind made it practically impossible to carry umbrellas. # If They Really Were "Three Little Pigs"

The Department of Agriculture would gladly furnish pamphlets showing how to feed them correctly in order that their little bodies would be properly nourished and they would grow up big and strong and healthy.

# But as They Are Only Children—

—their mothers must feed them in ignorance of the exact nourishing value of most of the foods they put into their little stomachs.

No Wonder statistics show that over one-third of the school children of the U. S., rich and poor alike, are UNDERNOURISHED and below physical standard—due to the robbed, devitalized, deficient foods which form the main daily diet of the average American child!

The alarming state of child under-nourishment has started a nationwide crusade, by leading health authorities, for unrobbed, un-

processed, whole foods. All these authorities endorse WHOLE Wheat as a perfect food for children. There is one genuine Whole Wheat Cracker—WHEATSWORTH. Made with 100% Whole Wheat, these crackers contain the wheat Vitamines which make children grow; they contain the wheat Mineral Salts which build bone and muscle; they contain the wheat bran which acts as a natural laxative. None of these vital elements is found in ordinary crackers

Give your children delicious Wheatworth Crackers every day for a month and learn the wonderful nourishing value of Whole Wheat.

The heavy rain of Monday afternoon caused no little damage to city streets, but the street that suffered the worst was the one way street leading from the foot of Wilson Hill to Pleasant street. The washout here carried out nearly two cartloads of dirt and stones, making it necessary for Superintendent of Streets Irvin M. Ford to close the street until repairs can be made. The dirt and stones brought down from the hill washed onto the trolley tracks beneath the railroad bridge and covered them to a depth

of about a foot and a half. When the 4:05 trolley reached the spot it could not pass through the crevasse being compelled to shovel for over two hours before the rails could be cleared. The 4:45 and 5:05 o'clock cars were the first trolleys to reach the Willimantic end of the line after the storm. The trolleys were not the only sufferers, one car driven by a local doctor became stuck in the road under the bridge the mud being up to the running board. It was finally pulled out by a

truck. Other autoists took to Pleasant street and came into the city via Bridge street.

**FITCHVILLE**  
The home of Maurice H. King of Dorrahville, situated about one mile above Fitchville, was burned to the ground about 2 o'clock Saturday afternoon. Mr. King was calling on a neighbor a short distance from his home when he was notified over the telephone that his house

was afire. Neighbors rushed to the scene, but it was but a short time before the house was burned to the ground, together with the contents. The house was a wooden frame structure of 11 rooms. The fire is thought to have been caused by a defective chimney. No young man who tells a girl that eating ice cream has a tendency to enlarge the mouth will make a good husband.
