Of the original 11 charter members of the union who applied for a charter in 1914, there were but five present. JEWETT CITY

At a meeting of Reliance lodge, No. 29, L. O. O. F., Monday evening the anniversary committee reported on the celebration of the 21st anniversary of the local order to be held Sept. 21. Dr. S. H. Holmes has been an Odd Fellow 50 years, having joined a lodge in New Haven in 1871, where he held his membership 19 years. He was one of the five charter members who organized Reliance lodge here Sept. 21, 1870. He has been twice elected to serve the home lodge as its noble grand, and in all its fraternal activities he has taken a prominent part for the 51 years of its existence.

Monday evening in recognition of his long and faithful service the members of Reliance lodge went to his home on Tracy avenue unannounced, and the surprise of the doctor was complete. Noble Grand Norman B. Parkhurst presented him a handsome cane, with a silver handle, upon which was engraved the name of the order and the facts relative to his 50 years of membership.

The doctor is seldom taken completely off his guard, nor was he Monday evening, as was evidenced by his ready and fitting words of response and gratitude. Dr. Holmes is a member of the Past Grand association of veteran Odd Fellows, Rebekah lodge, No. 28, in Jewett City, and was its first noble grand. He has also been a master Mason 41 years. He has just celebrated his 80th birthday, and with the serving of cake and coffee each of his friends in the craft was privileged to sample his grand birthday cake.

The community club is to hold a meeting in the town hall at Pocomah Thursday evening. Mr. and Mrs. John A. Godak are in New York for a week, registered at the Hotel Empire. John Driscoll of New London was calling on friends in town Tuesday. Mr. Driscoll, who has been recently in the employ of the W. A. Slater mills, served that concern 49 years. Twenty-one years he was night watchman at their mill. Every night during that long term of service he tolled the passing hours of the night on the bell in the tower—a good old custom which is still kept up. Older residents would miss this welcome sound if it were not to be heard during some wakeful hour.

People passing down Soule street stop to admire Mrs. G. W. Robinson's handsomeness. She is in bloom in the yard. There are above 50 dark blue blossoms on a single stalk. It is recognized commonly as the Blue Lily of the Nile. There are few to be seen hereabouts. Another out of the ordinary flower, the Florida chrysanthemum, was once owned here by Mrs. G. A. Barber. It was planted in a tub of mud and water, where it grew, thrived and blossomed in great profusion. The plants are now in bloom in some of the smaller yards there. Its succeeding growth has often impeded navigation.

Unable to keep a gardener on account of his getting drunk, a Scotchwoman appealed to her brother, who said he knew of one who would just suit her. "But I must know if he's a teetotaler," James' she said. "Well," said James deliberately, "he's no just what you'd call a teetotaler, James, but he's just a man you can't get drunk on." "There's no pleasure in hard work," said Mr. Rafferty. "Mebbe not," replied Mr. Dolan, "Mebbe the people has changed entirely. I can never remember when a man only braced up about how much work he could do instead of how much he didn't do."—Washington Star.

"You couldn't rather long words." "I'm obliged to," replied Prof. Gillingham. "If my audience succeed in getting precisely what I am talking about, they won't feel they've had their money's worth."—Washington Star.

Funeral services for Mrs. John Eichelberg were held at the Second Congregational church yesterday afternoon. Rev. J. H. Andrews, pastor of the church, spoke along the line of death existing even in the midst of life, making the bereaved feel that there was always an adequate supply of strength for those whose trust was well founded in God. A quartette, Mrs. F. S. Leonard, Mrs. E. H. Hester, E. F. Butler and E. H. Hester, sang Asleep in Jesus and Nearer, My Lord, to Thee. The bearers were two sons, Albert and John Eichelberg, Jr., from New York dealer but was unable to furnish the dealer's name. Commissioner Holt said he recommended prosecution of the man for violating the state law against the use of saccharin in soft drinks.

The saccharin law violator was one of seven food law violators who appeared before Commissioner Holt on the result of the activities of the department's inspectors. The other six violators were up on charges of having for sale watered and skimmed milk. Commissioner Holt said that in the past six weeks there have been more milk violations than in a long period before that. He said he could not account for the situation. In every case the commissioner recommended prosecution and these will take place in the courts in the towns where the dealers reside.

THE KALEIDOSCOPE

There is one retail store to every 2948 persons in the United States. Sunday is so called because it was the day on which in olden times worship was offered to the sun. The total number of standard varieties of postage stamps known today is between 40,000 and 50,000. The blue of the sea is not, as is generally supposed, due to reflection from the sky, but to the saltiness of the water.

A tide is a wave of the whole ocean which is elevated to a certain height by the attraction of the moon, and then sinks. Little ice is manufactured in England, the greater bulk of it being imported from Norway in special fast wooden ships. A cemetery for all pet animals is maintained in Paris and in the Laeken park in Brussels cats, dogs, monkeys, parrots and canaries are buried.

The Swiss government is about to obtain power by closing the natural drainage of a great glacier, forming a storage reservoir of 112,000,000 cubic feet capacity. George S. Brady, United States trade commissioner, reports to the bureau of commerce from Buenos Aires that there are about 2,500,000 guinea pigs or hammas ranging wild over the pampas of northern Patagonia. A Boston traveling salesman, who has been on the road actively for fifty-two years has never yet met a salesman who sells the same line that he does. I never carried samples merely looking for a sale. I carried samples and described my goods—shoe trees—Boston Globe.

HUMOR OF THE DAY. Madge—I heard Aunt Jane criticizing my bathing suit scandalously. Mabel—She had very little to talk about—Exchange. Mrs. Exe—I hear you are looking for another cook. Mrs. Why—I wouldn't say another. The woman I've had only said they were cooks—Boston Transcript. "Do you believe in studying the classics?" "I'll say I do. I don't propose to have all these handsomely bound volumes I've been paying on for years put entirely out of fashion."—Washington Star. "This is fine growing weather," remarked the farmer cheerily. "What's that to me?" growled the village pessimist. "I've got my growth."—Boston Transcript.

Tired and Nervous—from the Lack of Sleep? Do You Know the Reason Why? Sleep time is the time when the reconstructive processes in your body are busiest—turning food into blood, and nerve tissue, and living cells. That's the reason why lack of sleep makes you irritable, inefficient and nervous; and why you lack "punch" when you don't get a proper amount of the right kind of sleep. It has been the experience of many that the cup of tea or coffee, taken at meal-time, robs them of sleep. In Gould and Pyle's Cyclopaedia of Medicine and Surgery you'll find that "caffeine is a rapidly acting stimulant to the brain and spinal cord, quickens the action of the heart, and raises blood pressure." This coffee is a very good medicine prescribed by a doctor for cases of indigestion. When a patient needs to have his system abnormally forced into activity. But caffeine is not good for people whose systems don't need to be drugged. So if you don't get your proper sleep at night, it may be because you are being kept awake by tea or coffee. Stop tea and coffee for awhile and drink Postum—the delicious cereal beverage. Postum is a pure cereal product, and contains no harmful element whatsoever. Your first taste of Postum will surprise and please you. Many people prefer the flavor of Postum to that of coffee. Order Postum from your grocer today. Drink this hot, refreshing beverage in place of tea or coffee for ten days, and see what a wonderful difference it will make in the way you feel. Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.
