She was attended in pink canton crepe and wore a picture hat of black velvet and lace. She carried sweetheart roses.

The groom's gift to the bride was a string of pearls.

William Clark of Newport, R. I., acted as best man.

GATEWAY OF THE EAST THROUGH EASTERN CONNECTICUT

A bright future for eastern Connecticut was predicted by Dr. W. Clark of New London in an interesting address on the development of New London harbor at the regular noonday luncheon of the Norwich Rotary club at the Wauregan Hotel on Wednesday.

Mr. Clark, who is a graduate of the state harbor commission graphically described the possibility of development in the eastern part of the state along the coast.

Mr. Clark said in part: "New London harbor is one of 10 harbors in the United States that boasts of 35 feet of water at low tide, thus allowing transatlantic shipping to come and go at will. This has already been demonstrated when during the past year several four ship ments together with fruit boats and lumber boats have loaded and unloaded at the state pier. This pier to date has allowed the state to receive a net profit of 1 per cent and if made into a shipping center the return would be a great deal more. What we want to do is to develop a regular freight service, not a passenger service. New London has a large territory to supply and draw from. It would have a slight advantage in many ways and with reduced freight rates it would have a big advantage."

I believe that the coast-wise business will in the near future be developed from this port. For shipments from the west by rail take approximately 45 days while by water this is cut down to 30 days. The rates too, can be made much less by water than by rail.

We are working upon a self-propelled barge line which would take in Norwich, New London, Westerly and all points in this vicinity for the distribution of cargoes entering New London harbor.

New London harbor has no adverse currents and ships can arrive at the pier with assistance in port. There is plenty of room to turn a ship about. Not only can there be trade relations with this port and practically all the world after the third day, it is possible that the same plan will be followed next year.

All Premiums Paid Wednesday. The premiums in all departments were paid the winners Wednesday. This was a new plan put into operation this year as a trial. It worked out very nicely. Although the payment of the premiums is made by the state, considerable work for those in charge of the various departments. In other years the premiums have not been paid until the end of the year.

Demotestrate Newspaper Advertisers. That newspaper reading is a universal daily habit and that newspaper advertising reaches every day virtually all who buy is amply demonstrated in the remarkable success of the newspaper advertising campaign recently conducted by J. P. Barstow Company in selling the Round Oak heater.

During this campaign of intensive advertising which was conducted through The Bulletin about 200 heaters were sold in this district. This record sale was also materially added to at the Norwich fair grounds when The Round Oak heater was demonstrated by the J. P. Barstow Company.

The Round Oak heater had a remarkable sale during the past month and sales by the J. P. Barstow Co. alone during the ten days intensive advertising campaign equaled the total that could be sold by the company during any month.

The officials in Class IV at the fair were Superintendents Edward Cook and Samuel E. Holdridge; judges of cake, bread and honey, Mrs. James B. Palmer, Liebon, vegetable and grain, Prof. W. L. Slate, Jr., of Connecticut Agricultural College; fruit, Superintendents Edward Cook and Samuel E. Holdridge; judge, Prof. A. E. Stever, Storrs, Conn.; flower judge, S. A. Phelps Gilbert, Norwich.

Announced as adjusting committees are: Classes 1, 3, 4, 5, James B. Palmer, Liebon and George G. Grant, Norwich; class 2, Charles D. Brennan and Lyman L. Chapman, Norwich.

SUFFERED SIX YEARS

Mrs. Stoll Tells Women How She Found Relief From Pain

Philadelphia, Pa.—"I suffered for six years with pain every month, had vomiting spells the first two days, and was unfit to do my work. I read in your little book about Lydia E. Pinkham's Vegetable Compound and took the medicine with satisfactory results. I am a middle-aged woman and recommend the Vegetable Compound to my friends and my daughters take it. You may publish these facts as a testimonial."

Mrs. LOUISE STOLL, 609 W. York St., Philadelphia, Pa.

It is not natural for women to suffer as did Mrs. Stoll, and in nine cases out of ten it is caused by some displacement or derangement of the system which Lydia E. Pinkham's Vegetable Compound overcomes, because it acts as a natural restorative.

Every woman who is subject to cramps, headaches, nervous spells, backache or those dreadful bearing-down pains should profit by Mrs. Stoll's experience and try Lydia E. Pinkham's Vegetable Compound, and write Lydia E. Pinkham Medicine Co., Lynn, Mass., about their health.
